Later on in the year, probably in October, Governor Withycombe will make his official visit to the exposition, and have the executive of most of the other states. On this occasion it is probable that he will take with him members of his official family, and it is already definitely arranged by the exposition authorities that all the features of the official reception extended to governors, such as military reviews, entertainments, etc., will be forthcoming.

According to Secretary Putnam, who has just returned from the exposition, elaborate arrangements are being made for the celebration of "Oregon Week," which occurs next week, and whose crowning event will be the exercises of "Benson Day." It is understood that Governor Johnson of California, and Mayor Ralph of San Francisco will participate in the events honoring Oregon and Mr. Benson.

GOVERNOR WILL VISIT FAIR ON BENSON DAY

Will Go As Private Citizen To Honor State's Representative

Governor Withycombe has accepted an invitation to accompany the party of Oregonians who will attend the "Benson Day" exercises occurring at the San Francisco exposition on Tuesday, August 17. However, the governor will go as a private citizen and not in his official capacity.

"I shall accompany the Benson party," said Governor Withycombe, "simply as a private individual. The exercises are being arranged in honor of Mr. Benson, who has been selected as a representative of Oregon citizenship on that day, and it is my desire simply to assume my share of the event as any other state-loving Oregon citizen might. On this occasion I desire absolutely to be free from any official entertainment and special recognition which might come to me in my capacity as governor."

Von Miller was a man of mystery. When arrested, letters were found on him addressed to Mrs. Guye, a daughter of Mrs. Schumann-Henk, who is in San Francisco with her mother and explained that she met Von Miller on a train during the war and that later she corresponded with him, but that she knew nothing about him.

A letter was also found addressed to East 414 Julian street, Waukegan, Wis., the home of the late Circuit Judge Charles Whitney, whose son, Fred H. Whitney, is president of the Lake Submarine company, which has been shipping scores of submarines to England.

Gasoline Adds Fuel To Flames In Lumber Yard

When the heat of the flames caused a gasoline tank to explode it began to look like a small fire in the motor house of the Salem Lumber & Gravel Co. would assume large proportions. The flames went down the nearest piles of lumber and wood, however, and confined the flames to the old motor house. The cause of the fire is unknown and when it was discovered at 5:30 yesterday afternoon it was rapidly spreading to all parts of the old wooden structure in which the stumps for the gravel grades is placed and the pumping plant is located.

The building was littered up with oil, waste and other inflammables, and it is supposed that the gasoline engine became overheated and a spark caused some of the oil to take fire. The building was a total loss, and several cords of wood were badly scorched, the principal damage, however, was to the machinery in the building, which was ruined by the fire and water.

Post Toasties

You may have eaten "corn flakes" but you have never tasted any that equal the New Post Toasties.

These new flakes, madam, are crisp and flakey, and have a substance and toasty flavour, a snap and zest that make them distinctive.

Dainty to be sure in their sweetness, the New Post Toasties have a body and firmness that don't mush down when cream or milk is added; and a true ripe-corn flavour that makes one feel that here, at least, is something really new and good to eat.

Advertising To Save Life

An Eastern railroad is using newspaper advertising to cut down accidents.

Its lines have many grade crossings over roads much frequented by automobilists.

In years past these crossings have been the scene of some serious disasters.

The newspaper advertising is especially directed to automobilists and it impresses on them the need of care.

It shows that this railroad believes automobilists read newspapers.

It also believes it will cut down its item of damages to a figure that will make the advertising profitable.

If you have a message, the newspaper's advertising columns is the place to put it.
