Miss Cooper, who is principal of the Garfield school in Salem, has charge of the educational exhibit in the Oregon building, and because of an open personality and a thorough understanding of her subject has brought the school work of the state into a place of high prominence, deserving of the abundance of favorable comment it is receiving.

The educational system in vogue at the San Quentin California prison, will be investigated by George Palmer Putnam, secretary of Governor Withycombe, with the view of establishing a similar one in the state penitentiary here. Putnam left for San Quentin today.

Governor Withycombe firmly believes that the education of convicts will be of value in reforming them. As San Quentin's system is said to be one of the best in the country, Governor Withycombe desires that Oregon's be patterned after it.

As there is little employment for the prisoners in the Oregon penitentiary during the winter, the governor intends that they shall spend their idle time in study.

COMMITTEE OF POLICY HOLDERS ASKS WELLS TO SUE DIRECTORS

Promised Suit Against Directors of Mutual Companies Has Not Yet Filed

The proposed suit of the policy holders committee of the Portland Fire Relief of Oregon against the directors of the company, which was to be brought by a committee of three policy holders in Portland represented by Attorneys Oswald West and Claude McCulloch, appears to be little more than a promise, according to a letter received by Insurance Commissioner Harvey Wells this morning. The letter indicates that the policyholders would prefer that Mr. Wells bring the suit and relieve them of the responsibility and expense.

The letter details the list of alleged irregularities under which the policyholders committee believes the directors may be prosecuted, but also states that Mr. Wells, as receiver of the three defunct companies, is the proper person, in the belief of the attorneys, to bring the suit. Mr. Wells, however, can bring no suit except upon the order of Judge Galloway. The letter was referred to Judge Galloway, and a copy forwarded to the attorney for the department, Judge H. H. Hewett, of Albany, who will take the matter up, to what end, was not yet decided.

Dress Reform Advocate Shocks Modest Portland

Portland, Or., Aug. 30.—Portland femininity was still gasping today over the daring of Miss Fannie Harley, an advocate of dress reform, who attired in "them-in trousers, paraded Broadway Sunday.

Trousers isn't the name Miss Harley gave them, though. They were "Harleys," she said. During her stroll Miss Harley was followed by a throng of men, women and boys. Gasps of amazement, sighs of envy and an occasional snicker, came from the crowd.

Leaving a downtown hotel, Miss Harley promenade to a theatre where she occupied a box. The trousers—or Harleys—were of white yachting serge, trimmed in maroon. They were cut slightly "peg top," cuffed from knee to ankle and shirred. Cerise silk and buttons, also figured prominently in the trimmings.

The jacket was also of white serge, cut kimono shape, cuffed with cerise and trimmed with cerise buttons. The costume was completed with a big picture hat and a cerise parasol.

Will Be No Increase in Insurance Rates

Following reports from fire insurance companies that they have sustained excessive losses and requests from them for aid in arriving at a solution of the problem, Insurance Commissioner Wells today wrote all companies doing business in Oregon requesting them to furnish the department with the net amount of losses from January 10 to August 1, together with the net amount of premiums collected from seven different classes of risks.

Wells denied that his action meant any increase of rates, but said that when companies complain that their losses exceed their incomes sound business policy demanded that some remedial action be taken.

Another Report Received By Lansing Today

(Continued from Page One.) with Chancellor Von Bethmann-Hollweg and Foreign Minister Von Jagow that all differences between the United States and Germany should be adjusted at once.

It was understood today that Von Tirpitz does not look with favor on making a formal disclaimer of the sinking of the liner Arabic, however, and is not yet convinced that maintaining of friendly relations between the two countries can be attained only in that manner.

The source of this statement cannot be disclosed, but it is an absolute fact that Germany's viewpoint is: First—it is hoped that the United States would consider the informal until the commander of the submarine supposed to have torpedoed the Arabic is reported.

Second—that the question of allowing the sinking of the liner most rest largely on this report.

The submarine commander report to the admiralty may be expected at any moment. It will probably be received this week, but there is a possibility that the report might not reach Berlin for a fortnight.
