Moore Gives Newsboy \$5 Pice For Nickle --and Gets It Back

W. W. Moore, the well known furniture man of this city, nearly paid \$5 for a Sunday paper yesterday instead of a nickle. In fact, he did pay \$5 for it and the price stood for a short time. Mr. Moore was taking the 6:30 train for Portland yesterday morning and thought to purchase a Sunday paper before starting on his journey. In the early daylight, and perhaps he was a bit sleepy, he gave the boy a \$5 gold piece in mistake for a nickle. When he went to buy his ticket he noticed the shortage and being unable to find the newsboy, he located Officer Nicholson and gave him a description of the boy. The officer finally found a newsboy who answered to the description. The newsboy, who was Charles Craig, of 1975 North High street, looked through his nickles and found the five spot. The boy said he had received it through a mistake and wished to return it to the owner. The officer changed the gold piece and gave the boy a nickle and brought the \$4.95 to the station where it was left for Mr. Moore.

Another Building Planned For Chemawa

Bids for the structure will be received by Cato Selk, commissioner of Indian affairs at Washington, D. C., November 15. The original proposal included a general contract and extension to the steam heating, plumbing, electric wiring and painting. The proposed extension was to be 70 by 90 feet, with brick walls and concrete flooring, metal ceiling and two fire escapes.

Charlton May Get Life Imprisonment

By Alice Rohe. (United Press staff correspondent.) Como, Italy, Oct. 25.—For Porter Charlton, youthful American, the climax of agony, in his trial for beating to death his wife Mary Castle Scott Charlton, came today. Prosecutor Mellini began the argument against him. He declared Charlton was responsible for the wilful murder and demanded the most severe penalty under Italian law—life imprisonment. Attorney Cattaneo was scheduled to follow him for the defense. Charlton's hopes, however, were centered on the closing argument of Attorney Picardi, his chief counsel. Picardi is most interested in the case and it was predicted he would outdo himself. His power before a jury is well known. Mental irresponsibility was slated as the keynote of his address. Despite Picardi's ability, however, the outlook was not promising. An adverse verdict was anticipated tonight.

Seattle Man Will "Rip Things Wide Open"

Seattle, Wash., Oct. 25.—Presiding Superior Judge Mitchell Gilliam will issue a call for a King county grand jury this week, it is announced today. Issues to be brought to the attention of the grand jury are, first and foremost, the gambling situation, and Policeman Margrett's promise to "rip things wide open." Margrett will probably be one of the first witnesses called. Felix Crane, negro, so-called "boss of the underworld," who is conceded generally to know more about what is going on beneath the surface, than any other man, white or black, in the city, will probably be another witness summoned by the grand jury. Once more the drama is to assemble; this much it does just like a real parliament.

WILLAMETTE NOTES

President Carl G. Doney addressed the Young Men's Christian association yesterday afternoon. A large crowd was present to hear Dr. Doney speak and each felt leaving that he had heard something that was essential to his life. He spoke about the great opportunities that are within the grasp of every individual. He stated that 30 years of modern life was superior to 850 in Methuselah's time, for then they did not have access to newspapers, magazines, telephones, railroads, etc. "Life," he said, "in its enlargements, must consist of an enlargement of its relationships." "Consider the qualities of the points of contact of forces we meet, not quantity entirely." In conclusion he gave an equation which he stated was infallible, it is: "Man plus high holy greatest thing in the world," and the final solution will blaze a path through the world that will shine throughout eternity. Miss Virginia Arnold, who is in Salem in behalf of the Susan B. Anthony amendment for national woman suffrage, spoke at chapel this morning on Woman's Suffrage, she laid particular stress upon the importance of the deputation meeting which is to be held this afternoon at the state house, when a large crowd of ladies will meet Congressman W. C. Hawley to interest him in championing the cause of suffrage in the coming congress. She stated as her reason for appealing to western congressmen that they were more willing to speak in favor of the amendment because women of the west have the right to vote, hence the men respect them more. Joseph Gerhart and John Gary were guests to dinner at the home of President C. G. Doney yesterday. Frank Flint, ex-17, is in Montana working for the Great Northern railroad while in school he was renowned as the originator of Gallery Gossip in the Collegians. He is at present working in the machine shops as a mechanic. The D. D. club reception last Saturday evening was a success in every sense. About 150 guests were present and all had an enjoyable evening. This is the second year of the club's existence and in that time it has become the most popular organization of the campus. HE WANTED TO DIE. Toppenish, Wash., Oct. 25.—W. P. Lowery is in a serious condition here today following an attempt to commit suicide by shooting himself through the chest. Lowery was dependent over domestic troubles, having been recently arrested on complaint of his wife, who refused to permit him to return home.

COURT HOUSE NEWS

The widows' pension was again astray about the county court house today when five transcripts of appeal were filed in the circuit court this morning, appealing the cases of five widows, whose petitions were denied by the county court, from the decision of the county court to the circuit court. The widows who petitioned for a pension were Mrs. Sibyl Alice Bryngelson, Mrs. Kistiah Hoffman, Mrs. Ellen M. Tucker, Mrs. Martha Robenia Ector and Mrs. Ida M. Massey. All of these women petitioned for a pension during the month of June and the county court denied all petitions September 7, after a hearing on the same grounds, namely, that the widows were not required to work away from home to support their children. The attorneys for the widows, Turner & Turner and G. O. Holman, are appealing from the decision of the county court to department No. 1 of the circuit court and state that they will even appeal to the supreme court. County Judge Rushey has declined to pay stated pensions on the grounds that he can and will provide all county aid necessary but declines to be bound to pay any stated sum whether it is needed or not. Jennie Andrews and Evelyn Foster, aged 14 and 17 respectively, two girls who escaped from the Girls' Industrial school Saturday were captured yesterday by Matron Hopkins on the Jefferson road about noon. The girls hid out in the brush Saturday afternoon and did their traveling at night. They were both committed from Multnomah county and it was thought were attempting to reach Portland but they evidently worked south. They were hospitalized when they left the school and were not dressed to stand exposure and were unable to put much distance between them and the school.

A CLEAR COMPLEXION Ruddy Checks—Sparkling Eyes—Most Women Can Have

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets right for a time and note the pleasing results. Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition. CHILDREN HONOR EDISON

San Francisco, Oct. 25.—Deep emotion stirred Thomas A. Edison today as the major portion of San Francisco's 60,000 school children, all anxious for a glimpse of the famed inventor, marched past him in review at the Panama-Pacific exposition. A half holiday was granted the youngsters, and the exposition authorities fixed a five-cent admission fee so that all might pay homage to Edison. Edison, with Henry Ford, Archbishop Hann and exposition officials grouped behind him, viewed the children as they passed. Afterwards a chorus of 400 children sang the national anthem.

TRYING TO DEFEAT THE WASHINGTON DRY LAWS

Attorney Holds Dry Law Went Into Effect On December 1914

Olympia, Wash., Oct. 25.—An entirely new point of attack was introduced today against the constitutionality of the prohibition law in the argument before the supreme court, presented by James B. Howe, of Seattle. Howe is one of a regiment of attorneys who have joined forces in an attempt to knock out the dry law which the people have adopted, through the initiative, in November, 1914. If the law is upheld, it is to go into effect January 1, 1916. Howe's point is that under the constitutional amendment providing for the initiative, all laws adopted by the people go into effect in 30 days. He contended that so far as the prohibition law is concerned, it went into effect in December, 1914, if at all. He then argued that the 30 days legally provided for, are insufficient and the law became confederate. Attorney Harold Preston of Seattle, urged the point that Secretary of State Howell failed to make the necessary publication of the proposed initiative amendment to the constitution. Should Preston's point be upheld, it would knock out every constitutional amendment passed in the last 10 years, including woman suffrage.
