PRINCETON SAYS THE CHAMPIONSHIP IS CERTAINLY HERS

White Autos Champions--Aggies On Way East--Phillies Had a Plenty

New York, Oct. 25.—The football championship of the east is already being claimed by the cohorts of Princeton today as the result of the decisive defeat sustained by Yale and Harvard Saturday. As a result of this situation, it is probable that the claims of the Tigers and Cornell will cause a dispute in the title when the season is over, unless either Yale or Harvard braces sufficiently during the coming weeks to defeat the Orange and Black.

Princeton's aggressive play and the fact that her men overwhelmed the big Dartmouth eleven in an uncertain fashion stamp the eleven as the best the Tigers have had in many years. Harvard is Princeton's next formidable opponent but the poor showing the Crimson made against Cornell Saturday has inspired the Orange and Black with supreme confidence.

Cornell's eleven is admittedly one of the strongest that the Ithacans have ever produced and it is predicted that it will bring football at Cornell to the same high plane it occupied several years ago.

The Cornell victory over Harvard Saturday was the first the Ithacans have scored over Cambridge in 11 years.

AMATEUR CHAMPIONS

San Francisco, Oct. 25.—The White Autos of Cleveland today are amateur baseball champions of the United States, by virtue of their victory over the South Tacoma Tigers, 15 to 5.

The two principal causes of the Tiger's downfall were the pitching of Artie Knight, and the woeful fielding of the northerners, who made nine errors. Eley and Haughland twirled for the Tigers.

AGGIES GO EAST

Portland, Ore., Oct. 25.—The Oregon Agricultural College football squad including 18 players and Coach Stewart and Assistant Coach May is en route today to East Lansing, Michigan, to play the Michigan Aggies, October 30. They went through Portland in a special car last night.

Coach Stewart said that the style of play used by the Aggies will depend on the tactics of the opponents after the game starts.

PHILLIES HAD ENOUGH

San Francisco, Oct. 25.—Bill Lange, San Francisco's baseball emissary to the east declared today that the cause for the failure of the Phillies and the Red Sox to play a post season series on the Pacific coast was due almost entirely to Pat Moran, manager of the Phillies. Lange said Moran apparently was satisfied with the one beating his team got and was willing to let it go at that.

Another factor contributing to the failure of the plan was the demand of the club owners that they get 50 per cent of the players' share, Lange said.

HOT STOVE LEAGUE OPENS

San Francisco, Oct. 25.—The hot stove league opened here today with the fans mulling over the fact that San Francisco has a championship baseball team for the first time in six years. The Coast league season came to a close yesterday with the Seals five games ahead of the Bees, and the latter with a three game lead for second over the Angeles.

TENNIS MAN WANTS REST

San Francisco, Oct. 25.—As the result of his strenuous summer of tennis in the east, Maurice McLoughlin, former national singles champion, will be forced to refrain from the court game for some time, on advice of his physician. He will be unable to play in the Pacific Coast championships beginning next Saturday.

SHE WANTED HER CLOTHES

San Francisco, Oct. 25.—Climbing up a fire escape to get into a room where the landlord held some of her clothes for alleged non-payment of room rent, Miss Nellie Geaney fell to the street today at the New Southern hotel and broke both legs.

Games Saturday May Settle Championship

Chicago, Oct. 25.—The eyes of football enthusiasts in the middle west will turn to Urbana and Chicago next Saturday when the first important games of the big nine conference will be played. On the outcome of these contests, it is believed, will depend the championship.

The Maroons are scheduled to meet Wisconsin. The convincing manner in which the Badgers defeated Ohio State Saturday after the Ohioans had held Illinois to a tie, marks Wisconsin as a formidable contender for the title. Chicago, however, has not been put to any great test this year and the effectiveness of Coach Stagg's machine is an unknown quantity. Wisconsin is a slight favorite.

Minnesota is expected to overwhelm Illinois when they clash at Urbana. Coach Zuppke has been unable to get the Illinois team going well this year while the Gophers have one of the strongest elevens in recent years.

Another important game in the west Saturday will be the first test of eastern versus western football. Michigan and Syracuse will meet at Ann Arbor, with the easterners favorites.

Batting Averages of the Coast League

San Francisco, Oct. 25.—With an average of .396, Benny Brief, of the Salt Lake team, is premier batsman of the Pacific Coast league. Sixteen men finished in the .300 class.

Brief's position as head of the Coast league batters is based on unofficial figures for all games of the season. It is probable that the standing of those in these .300 class will not be materially affected by the official figures. Those in the elite circle follow:

Brief, Salt Lake	.366
Hellman, San Francisco	.365
Wolter, Los Angeles	.361
Johnston, Oakland	.345
Ness, Oakland	.339
Ryan, Salt Lake	.329
Bodie, San Francisco	.326
Fitzgerald, San Francisco	.323
Gardner, Oakland	.320
Wilhoit, Vernon	.318
Johnson, Salt Lake	.317
Fisher, Portland	.312
Shinn, Salt Lake	.309
Maggert, Los Angeles	.306
Schaller, San Francisco	.301
Elliott, Oakland	.300

TRYING TO COME BACK

San Francisco, Oct. 25.—Following the decisive defeat of the California eleven by U. S. C. Saturday, Coach Schaeffer today began drilling his men for the big game with Washington a week from next Saturday. Inasmuch as the Bears were known to be woefully weak, California's hopes are not as badly shattered as they would have been otherwise.

With two weeks in which to work, Schaeffer believes he will be able to instill enough knowledge of the fine points of the game to make a creditable showing against the northwesterners.

U. S. C.'s victory over California, today caused much speculation as to how the Pacific coast championship will be straightened out if California happens to defeat Washington. If the Bears down Washington in the two games scheduled they still will have to face the claims of the southern aggregation, as a result of Saturday's slaughter.

PACIFIC COAST LEAGUE STANDINGS

W. L. Pct.	
San Francisco	118 89 .570
Salt Lake	110 89 .548
Los Angeles	110 98 .529
Vernon	102 104 .495
Oakland	93 113 .452
Portland	78 116 .402

Yesterday's Results

At Los Angeles—Portland 4-1.
Vernon 5-5.
At Salt Lake—Salt Lake 12.
Los Angeles 6.
At San Francisco—San Francisco 1-11, Oakland 9.

AUMSVILLE CORN SHOW

Let us all work together for the success of the corn show but let us not stop at that but ever go on working hand in hand. Not only Aumsville but let Turner, Shaw, Jefferson, Stayton, Sublimity, North Saticum and the surrounding country work together for the common good of all.—Aumsville Record.

SINGLE OIL ENGINE FOR SUBMARINE USE

Navy Department Would Like to Try Experiment At Contractors' Expense

Washington, Oct. 25.—The navy department is considering the use of a single oil engine in its submarines, instead of one oil and one electric motor. This is the new Neff system of submerging and the department has already authorized a trial of it. The advantages claimed for the new system are: A greater submerged speed, a decrease of danger by doing away with the electric apparatus and a saving of time and trouble by using only one motor force above and below the surface.

The new system was originally devised by A. R. Neff, a marine engineer, who now holds patents to all the improvements. It has been experimented with successfully by several large submarine constructors on the Pacific coast, but has never yet been tried in an ocean going submarine.

Neff recently submitted a proposal to the navy department asking that they consider the use of his system in some of the 17 new submarines which are to be built and the contracts for which were awarded several weeks ago. As none of the ship building companies which bid mentioned the system in their estimates, the department was unable to insist upon its installation in the new boats. If it had done so, the department would have been responsible for the boats when constructed instead of the contractors and in case any of the under-sea craft had failed to work with the new system the department would have had to construct a new boat at the government's expense.

May Try It On Old One.

There are a number of old submarines of the A and other earlier types on hand which navy officers believe have passed their useful period. The Neff system is too good to let go by, and one of these submarines will be used to experiment with. Trying out new wrinkles on boats that go under the water is dangerous, but if it is found that the system works in these older craft, the department probably will take another step and call for a bid on the installation of the new Neff system in its next proposals.

The complete system is now held by Neff, who was for years the Washington representative of the Lake Torpedo Boat company and is thoroughly familiar with the management and administration of the submarine boat business. It is also vouched for by several noted naval and marine constructors, particularly Allen Hoar, formerly chief engineer of the Los Angeles Submarine Boat company and original inventor of many patents held by that company. The system met with approval at the opening of the bids last month by officials of both the bureau of steam engineering and construction and repair, who believe that if once properly tested it will revolutionize submarine propulsion.

NINETEEN YEAR OLD GIRL IS A BANDIT

Is Frail and Light, Almost a Child—Tried Desperately To Kill Herself

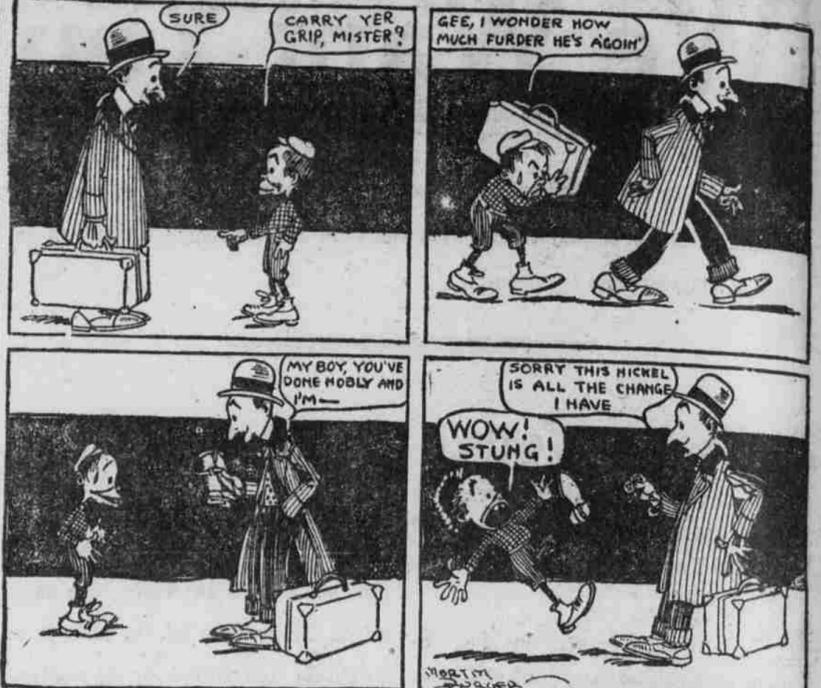

Everett, Wash., Oct. 25.—Violet Udell, aged 19, confessed bandit, is confined in a padded cell in the county jail here after two unsuccessful attempts to kill herself. She was caught pressing a safety pin into her breast evidently trying to pierce her heart. Later, handcuffs were placed on her arms, but she wriggled out of them, and soon she was discovered tearing the sheets into strips, intent upon hanging herself.

The girl's capture was effected Saturday night after an attempt to hold up B. G. Shaver, a grocer. Masked with a white handkerchief, she held a big gun close to Shaver's face and commanded him to throw up his hands. At that moment, a neighbor stepped out of his yard, the girl glanced back and Shaver pounced upon her. In the struggle one shot, which went astray, was fired.

The girl is believed to have figured in a number of robberies here during the past few weeks. John Sarff, aged 19, was arrested as an accomplice of the girl as he was leaving her room in a downtown building shortly after the robbery.

The police the girl said her parents died when she was a child and that she has no relatives. She is a frail, light haired, blue eyed girl, who looks more like a school girl than a bandit.

Did It Ever Happen to You? - - - - By Mort Burger

WELCOMED M'ADOO

Portland, Ore., Oct. 25.—A committee of business men and bankers met Secretary of the Treasury McAdoo and his wife upon their arrival here this morning.

After breakfast Secretary McAdoo was given an opportunity to visit Portland banks and various federal offices under his jurisdiction.

The secretary was guest of honor at a chamber of commerce luncheon at noon and at 4:10 this afternoon will leave for Seattle.

IS YOUR STOMACH CLOGGED WITH WASTE?

Daniel J. Fry Guarantees to Return the Money If Mi-o-na Does Not Believe You.

"It's a pleasure to sell a medicine when my customers come in afterward and tell me how much good it has done them," said Daniel J. Fry, the popular druggist to a Journal man, "and that is why I like to sell and recommend Mi-o-na, the dyspepsia remedy. The distribution of samples that I made created so much talk and so large a proportion of those who received a sample have bought a box of Mi-o-na that my clerks have been busy selling the medicine ever since. I have so much faith in this article that I am going to guarantee it in the future, and will return the money to any purchaser of Mi-o-na whom it does not help. That may seem rash but my customers have said so many good words in its favor that I do not expect to have many packages returned."

"Anyone who has dyspepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can leave 50 cents deposit at my store and take home a box of Mi-o-na and if the remedy does not regulate his digestion and help his dyspepsia he can withdraw his money. I don't know but what we would be willing to pay him interest."

This shows great faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid increase of sales since Daniel J. Fry introduced it in Salem shows that it does all that it is claimed to do—relieves dyspepsia, regulates digestion and enables those who use it to eat just what they want with no fear of trouble after.

British Transport Has Cargo of Explosives

San Francisco, Oct. 25.—To escape internment, the British transport Llangroes which has been in port since Saturday, lifted anchor today shortly before noon and passed through the Golden Gate. Captain J. W. West technically violated the neutrality laws by being in port more than 24 hours, but escaped complications as Sundays do not count in reckoning such matters.

The Llangroes has a cargo of explosives, copper and lumber destined for England. It is said the steamer's cargo of powder is destined for transfer to the British cruisers New Castle and Rainbow, now in the Pacific ocean.

Collector of the Port Davis today declared after an investigation that the steamer might come under the classification of a merchant ship and not as an auxiliary cruiser as had been thought. In this case, the Llangroes would have further leeway of 24 hours in which to sail.

Suspicion that the destination of the vessel was not a British port but that her intention was to unload her cargo of munitions on British vessels at sea, was the subject of further investigation today at a conference between A. C. Ross, British consul here, and Collector Davis. Such an action would be a violation of neutrality.

Penfield's Daddy Is Still Much Peeved

Seattle, Wash., Oct. 25.—Penfield Peabody, aged 17, son of Charles E. Peabody, Seattle capitalist, had completely outwitted and outplayed his millionaire father and made good in his elopement with Martha Stewart, daughter of W. P. Stewart, wealthy Bothell dairyman.

Although the couple obtained a marriage license in Chehalis late Saturday and, in all likelihood, found a parson willing to make fast the wedding knot somewhere along the line of their flight, their whereabouts is still a mystery.

It will probably remain a mystery so long as the ship Dirigo remains in the harbor. This is the opinion of deputy sheriffs who learned that the real days of her sailing date was that Peabody, Sr., intended placing his son aboard and shipping him to Sweden as a cure for lovelessness.

Peabody the elder, is still irate. He has not forgotten the tormenting case with which his son eloped him at 3 o'clock Saturday morning, leaving him standing helpless by a lonely country road near Bothell beside a damaged touring car.

To Open Up Trade With South American Ports

San Francisco, Oct. 25.—Prospects for a strong trade connection between San Francisco and South American ports were brightened today by reports that W. R. Grace & Son of this city had practically completed details for purchasing the Panama fleet of the Pacific Mail Steamship company and will operate the vessels in the South American trade.

Seven ships, the San Juan, San Jose, Newport, Pennsylvania, City of Para, Peru and the Astor comprise the Pacific Mail fleet. Grace and company has investigated the South American field with favorable results, but has been handicapped by a lack of vessels. It was expected in shipping circles that trade with the west coast of South America will be prosecuted with vigor henceforth.

Will You Not Give Cast Off Clothing

There are a number of families in the city who are in need of suitable clothing for the fall and winter months. If those who have cast off clothing would kindly leave the same at the Salvation army hall, 334 1-2 Court street, or phone 1820, it will be greatly appreciated by Capt. and Mrs. Kelso.

GOOD USE FOR WINE

San Francisco, Oct. 25.—Buckets of new made wine were used in fighting a fire which cut off the chance of exit for two children in the Italian quarter today. Men finally made their way into the home and rescued the children.
