# BOYS IN TRENCHES AND JUNKET ENDS

## Peace Voyage Over But Commission Will Cost Ford \$1000 Weekly

By Charles P. Stewart. (United Press staff correspondent.) The Hague, Jan. 15.—The Ford peace junket is at an end—and the boys are still in the trenches.

Delegates packed madly today, joyous at the thought of seeing before another week-end the Statue of Liberty looming out over New York bay. They did their farewell sightseeing, and planned to go to Rotterdam this afternoon where they will board the Holland-American liner Rotterdam.

Several of the leaders, however, are remaining to help start the permanent peace tribunal, through which the Detroit auto man hopes to bring nearer the day when peace will be again a reality. This tribunal, however, will hold no sessions for several weeks. The Scandinavian nations have not named their members and no word of acceptance has come from former Secretary of State Bryan, Miss Jane Addams, Henry Ford, Dr. Charles F. Aked, nor Mrs. Joseph Fels and other American members. Schweimmerites are fiercely contesting over the first three places on the list, as it is expected they will not accept.

The permanent tribunal will probably cost Ford \$1,000 weekly.

# TO PREVENT FREEZING OF WATER PIPES, SHUT OFF WATER AT STOP AND WASTE VALVE

The water company calls attention to all consumers that in order to protect service pipes from freezing during the cold weather, they should every night, shut off the water at the Stop and Waste Valve and see that the water is drained from the pipes after this is done. It is a violation of agreement with the company to run water through open faucets to prevent freezing—such a use of water is a waste and a damage to the other users of water as well as to the company.

The company pumped yesterday 4,000,000 gallons of water, which is 90 per cent more water than is used on a normal day at this period. This shows that water is being wasted.
