**TODAY'S ODDEST STORY**  
Cleveland, O., Feb. 10.—H. K. Knapp, prone to do what his name implies after the alarm clock rings in the morning used to get up, shut the thing off, and go back to bed and oversleep so much that he got three rousers, put one in each corner of the room and now, by the time he has made the rounds and shut them all off he is ready to stay up.

O. H. Carson, who recently began the practice of law in this city, filed the declaration of his candidacy for the republican nomination for the office of district attorney of Marion county. This is a bad year so far for smelt, as none are in the market. The floods in the Columbia river have prevented them from coming up stream, even as far as the mouth of the Cowlitz. According to fish men, smelt will not travel up stream against a strong current, and so far this year have not been any farther up the Columbia than Clifton.

And now comes a letter to the Commercial club from the Vaughn Seed company of Chicago, saying it can use two carloads of onion sets. The letters states that the firm buys only in carload lots as smaller shipments make the rate too high for profitable handling. All of which seems to indicate there is a market for everything the valley can produce, but that shipments must be made to the larger dealers in carload lots.

Everything is coming on in fine shape for the great Moose entertainment to be given at the opera house Thursday evening, March 2. Clayton, the mystic, appearing at the Bligh theatre, suffered a painful injury and several bruises last evening when he fell from a runway in front of the stage. As a part of the performance, the mystic gazes into a crystal globe, and steps down the runway from the stage into the auditorium. The carpet covering the runway happened to be wider than the boards and he fell, falling about six feet in the orchestra pit. Although severely injured, he managed to continue his performance. He was attended by Dr. W. B. Morse, and will be able to fill his engagement this evening.

last night at the armory. The Cherrians evidently intend to maintain their standing in the state and hereafter, the drill and roll call will begin promptly at 7:30 o'clock every Wednesday evening. And just as an incentive to be on hand at the roll call, it was decreed last evening that in the future, whoever does not respond to his name at the Wednesday night drill, will be assessed a fine of 25 cents. It was further decreed that the 25 cents would be collected.

"The Old Homestead," the greatest rural drama ever written in which the late Denman Thompson starred for over thirty years, has at last been adapted as a feature play by the Famous Players Film company by special arrangement with Frank Thompson, son and heir of the author-actor. This great American classic will be seen as a Paramount picture at the Ye Liberty Theatre and Saturday.

Through the active co-operation of the younger Thompson, the producers have been able to preserve to a remarkable degree the atmosphere and spirit of the original play. This was accomplished by means of photographs of the first Josh Whitcomb and of the costumes worn by the various members of the supporting cast. Of special importance in this connection was the obtaining of permission to use the original presentation of the play, served as the actual background for the corresponding scenes in the film.

It was in 1875 that Denman Thompson, while suffering from an attack of rheumatism during an engagement at Martin's Variety theatre in Pittsburg, conceived the idea of a rural dramatic sketch which he then called "Joshua Whitcomb." The success of this sketch led him to expand it into a play which was presented for the first time at the Boston theatre in 1886 under its present title, "The Old Homestead."

The marvelous popularity of this rustic drama, which has made an unparalleled appeal to all classes and ages ever since its first appearance, is easily explained by the fact that it paints real life in its truest and best aspects, and that it tells the simplest of stories concerning the simplest of people. It is human nature without its confusing and baffling veneer—the sort of characterizations that everybody comprehends because of its very naivete.

The film is instructive and at the same time includes several amusing incidents
