

An Acid Test

No other machine than the Edison will stand the test of reproducing a record while the artist sings it and have the listeners undecided as to "which is which." The Edison is so true that one can never tell whether it is the voice of the singer or the reproduction of the machine.

Edison is now getting many of the world's greatest artists. Hear them.

EDISON MACHINES COST MORE
BECAUSE THEY'RE WORTH MORE

BUSY DAYS THESE ON WILLAMETTE CAMPUS

Junior Week-End and May Day Festival Keep Boys and Co-eds on the Jump

The campus is a busy scene this week; preparations for the junior week-end and the May Day Festivities are everywhere in appearance. Manager Lyons, who is the chief motor power behind the affairs is working day and night getting things in line for the grand opening Thursday evening. The parade is to begin at 7:00 o'clock and go through the main streets of the city; many new attractions will be seen in the parade announcing the coming events.

Friday is to be the biggest day of the whole. The Y. W. C. A. girls will begin the day by serving breakfast to those who like to eat a delicious breakfast on May Morning waffles, ham and eggs, sliced oranges, toast, coffee, in fact everything that is good will be dispensed to the hungry public by dainty clad maidens. The proceeds will go to the Y. W. C. A. treasury.

After breakfast the students will work on the campus and clean up all obstructions and refuse so that when Queen Frances arrives to take charge of her realm she will see the beautiful. The coronation of the queen will take place at 12:45, this will mean that those wishing to see the big event will have to eat an early dinner. As large a crowd as possible should be present; last year there were over 3,000 present but this year's crowd should far exceed that number, as no one will be taken of the coronation.

Miss Francis Gittins, the May Queen elect, will wear a dress of cream satin and cream chiffon; two little pages will bear the queen's train. The dress will be decorated with sparkling pearls, as will also the crown which she will wear. The queen's robe will be a rich cream velvet lined with yellow. The scepter will be adorned with pearls.

A number of little flower girls will precede the queen, bearing large bouquets of flowers with which they will strew her pathway. Little Miss Audrey Matthis of Amity, Oregon, daughter of Dr. Matthis, will be the queen's cushion bearer.

The names of the little misses who will act as flower girls are not yet obtainable as they are not definitely selected.

Miss Florence Page and Miss Laura Ross will be the queen's attendants. They will be dressed in white.

\$2,000,000 DRY DOCK

San Francisco, May 2.—The S. S. San Francisco Bridge company expected today to be awarded the contract for building the first unit of the big Hunters Point dry dock, at a cost of approximately \$7,000,000. When completed the dry dock will cost \$2,000,000.

MOB ATTACKS GUARDS

Pittsburg, Pa., May 2.—A mob charged the Thompson plant, shooting and waving red flags. Guards concealed behind piles of scrap iron fired. The strikers retreated whereupon the guards rushed them, clubbing right and left. Thirty-five rioters were wounded by bullets and scores hurt by clubs.

Corvallis—Architect planning \$200,000 library building.

Roseburg—Chicago company orders 150 carloads of broccoli from here.

FRENCH CAPTURE GERMAN TRENCHES

Took 550 Yards Today, 1,000 Yards Yesterday—Believe German Drive Is Done

Paris, May 2.—In a most successful offensive, the French late yesterday captured 550 yards of German trenches southeast of Fort Douaumont. It was also officially announced today that in an attack on German positions near Dead Man's hill last Saturday, the French captured one thousand yards of trenches to a depth of from 300 to 600 yards. There is great enthusiasm in Paris. The official statement was taken to mean that the German drive against Verdun is definitely checked.

It is believed here that the offensive around Verdun has passed to the hands of the French. One hundred Germans were taken prisoners. West of the River Meuse there was active artillery fighting throughout the night.

French Attacks Repulsed.

Berlin, May 2.—Pierce attacks south of Douaumont and Challefont forest were completely repulsed by the Germans after hours of hand to hand fighting; it was announced officially today. The Germans were declared to have maintained all their positions.

Two Sunk, Thirteen Drown.

London, May 2.—Thirteen persons were lost in the sinking of the British steamers Agassia and Nasturtium, the admiralty stated today.

Turk Troop Ship Sunk.

Berlin, May 2.—A submarine sank the Turkish troop ship Chirkoti Hairie in the sea of Marmora, according to dispatches today.

More Russian Troops.

Marseilles, May 2.—A fourth conveyer of Russian troops arrived here today.

Mr. Laban Steeves and Miss Florence Page Wed

Laban Steeves, a junior of Willamette University, and Miss Florence Page, a senior of the University, were married yesterday noon at Ridgeway, Washington, by the Rev. J. A. Cooper. Mr. Steeves is a son of Dr. and Mrs. B. L. Steeves, who are at present attending the conference of the Methodist church at Saratoga. Mrs. Steeves has been living with her parents in Kingwood Park.

Mr. Steeves had been travelling with the Willamette Male quartette, and was met in Portland Monday by Miss Page. The license was secured Monday morning in Vancouver, but the young couple went to Ridgeway, 30 miles north of that city to be married by their friend, the Rev. J. A. Cooper.

Mrs. Steeves was one of the candidates for the University May queen and will become one of the queen's attendants. Mr. Steeves will make his first public appearance Friday evening, as he takes one of the leading parts of the play "Sherwood" to be presented at the opera house by Willamette University students.

The bride will be graduated this spring from the university. It is the intention of Mr. Steeves to continue his studies next year. He is living at the home of his parents and the bride is making her home at the Dew Drop Inn, north Thirteenth street.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anurie."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anurie," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination—this is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

KNOW YOURSELF!

Read all about yourself, your system, physiology, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1008 pages. Send to Dr. W. M. Pierce, Buffalo, N. Y., three dimes or thirty cents in one-cent stamps for a cloth-bound copy.

Meeting Is Called to Discuss Cherry Fair

HOW TO BE SLIM
If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be laughed at on account of your fat, but go to Central Pharmacy or any good druggist, and get a box of Oil of Korein capsules, take one after each meal and one before retiring at night. Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body. It costs little, is absolutely harmless and a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of un-sightly fat.

In order that everybody interested in the coming Cherry fair may have a chance to express an opinion, Benjamin Brick, the coming director of the publicity and tourist department, has called a meeting at the Commercial club Friday evening. As the terms of Mr. Deeksbach as director of this department will expire June 7, he has delegated Mr. Brick to take charge of all that is to be done regarding the fair. There has been some discussion and difference of opinion as to the best time for holding the fair, and this meeting is called to get a general consensus of opinion that will decide the matter at once. As the Salem Floral society is interested in the fair, Mr. Brick desires that women come to this meeting and take part in the general discussion. As Mr. Brick says, it is for the public and those mostly interested to decide when the Cherry fair is to be held.

COLONEL JOAB GROWS ELOQUENT AND WARM

Perspiration Streams Down His Face As He Flays Washington's Traducer

Tacoma, Wash., May 2.—In an address to the jury which occupied the entire morning session of the court and held the defendant up to view as a "filmy ghoul," a "hyena" and as more despicable than an assassin of Lincoln, Garfield and McKinley, Colonel Albert E. Joab began today arguments for the state in the trial of Paul E. Haffer, young socialist who is accused of libeling George Washington. Colonel Joab is the complaining witness in the case, the first of its kind to be tried in the United States, and also assistant prosecutor.

Streams of perspiration flowed down the ruddy face of Colonel Joab as he ascended the flights of patriotic oratory or flayed the defendant for his criticism of the first president. At one point, quoting from Homer upon the fall of Troy, he turned upon the defendant and striking muddy fists at Haffer, repeated the line: "To lash the great and monarchs to revile."

To this direct attack Haffer smiled complacently, while the courtroom tittered with a sharp chuck from the bailiff's gavel.

During the latter part of his address Colonel Joab turned to the 15 historical, encyclopedic columns, orations and other works which the state introduced yesterday to offset the nine volumes offered by the defense as proof of authenticity for the statements of Haffer that Washington indulged in profanity and liquor. He began going through the numerous pages of references in these volumes to show what historians, ontologists and biographers record of the first president of the United States. Attorneys for the defense are expected to consume the afternoon session in reading into the record other references.

Market Fluctuations Due to Manipulation

New York, May 2.—The New York Evening Sun's financial review today, said: "The pace set by professionals yesterday in bidding up securities was too rapid to hold and reacted this morning. The rank and file ascribed the setback to uncertainties in Germany's reply, but in reality there was no more occasion for nervousness over the international situation today than yesterday or for that matter since the state department sent its last note to Germany."

Conservative banking interests maintained that ever since the recovery set in a week ago, pools and cliques had been taking a good deal for granted with regard to the outcome of the crisis. The general public apparently holds the same view and participation in the movement was meager. First prices moved irregularly within a narrow range with the exception of marine issues and a few specialties including Maxwell motors, which was sharply higher after the opening.

One Lonely Gilliam County Progressive Forms Entire Ticket

The progressives of Gilliam county will journey to the polls on primary election day to read over one single name on their ballot from their own county. The county clerk has inquired as to the proper method of procedure in this case from the secretary of state who has replied that it will be necessary to have the ballots printed full of blanks and the name of the lonely candidate.

The progressives, however, will have the opportunity to vote for delegates to the national convention and for congressmen.

Boys Caught Redhanded In Stolen Canoe On River Near Wheatland

Claud Stanton, aged 15, and Claudius Ryan, aged 14, two Salem boys, were captured about 1 o'clock yesterday near Wheatland about 19 miles below this city by Constable E. C. Cooper and Elmer F. Armstrong who were looking for the canoe stolen from Dr. B. F. Pound from the boathouse of the Salem Canoe club. The boys were paddling down the river at a good rate and had made the 19 miles since 8 o'clock yesterday morning when they left Salem.

In the canoe were three robes stolen from the garage of Judge Charles H. McNary, a hunting suit and some fishing tackle also belonging to Mr. McNary, a box of shot gun shells belonging to Mayor White and one auto robe which has not yet been identified.

According to the officers the boys confessed that they broke into the McNary garage Saturday night by prying the door open with a bar. Mayor Whites garage was entered in broad daylight and the shot gun shells taken.

The officers went to Wheatland in an auto and took the steamer down the river until they found a small row boat which they borrowed and patrolled the river until the boys rounded a point and were taken into custody by the officers.

The boys were arraigned in Justice Webster's court today on a charge of larceny from a building and were bound over to the juvenile court.

England Will Have Compulsory Service

London, May 2.—Premier Asquith announced in the house of commons today that the government had decided upon a policy of immediate and general compulsory military service.

Asquith's announcement came as a surprise. It had been understood that the premier would give the volunteer system a few weeks more trial before asking the enactment of a law calling all married eligibles as well as single men included in the conscription measure recently passed.

The decision was a complete victory for the David Lloyd-George and Lord Northcliffe parties. Adoption of conscription will add to the British army a force estimated at from 300,000 to 600,000 men.

The government will introduce its conscription bill in parliament tomorrow.

Washington Is Solid For President Wilson

North Yakima, Wash., May 2.—Solid behind President Wilson, the democratic state convention which began its session today held this morning, is divided, however, on the selection of a national committeeman. Hugh Wallace appears to have the inside track, as he is backed by all the federal office holders. King county progressive members, however, are lined up against him.

Another question which has stirred in some division is the question of endorsing Governor Lister's stand in favor of non-partisanship in state and county as well as in city elections.

Judge McKinney of Walla Walla was chosen temporary chairman of the convention, and Colonel Howard Hathaway is slated for permanent chairman.

Taking Steps to Deport Un-naturalized Strikers

Pittsburg, Pa., May 2.—District Attorney Jackson declared he was ready today to summon a special grand jury to investigate the possibilities of deporting thousands of unnaturalized foreigners who are participating in strike riots. This announcement followed reports of three mobs having raided half a score of plants at Braddock, McKees Rocks and Swissvale.

Later reports indicate that the death toll in the fighting may be increased. In one action, 3,000 strikers met a large body of guards in pitched battle. The casualties among the guards were not learned. Several were seen to fall.
