Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe the inside like you bathe outside.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphate hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast act on the stomach, liver, kidneys and bowels.

Mr. Virgil Seaman was a Salem visitor Sunday. Miss Hoidia Larson has returned to Portland, after spending a month with her folks. She spent some time in renewing old acquaintances.

Miss Esther Schoup visited with relatives near Salem last Wednesday. Mrs. Will Graham of Silverton, and small son, are visiting with Mrs. Graham's father, J. W. Welty.

Several growers in this vicinity are beginning to pick their hops. Report has it that the hops are beginning to mold and if such is the case the run can not last long, particularly if the weather remains unsettled. A few hot days would prove a blessing now. Much grain is still unthreshed and a little is still uncut. Some fear is entertained as to whether it can all be garnered before the steady fall rains begin.

Many of the threshing crews may have to work short handed since the hop picking will call away some of the hands. Potato prospects in this community are fine. The rain, however, much damage it may do to other crops, is only making sure a bountiful crop of potatoes.

The regular band concert will be given at Willson Park tonight by the Salem Municipal band, H. N. Stoudenmeyer director, the following is the program:

Spanish War Veterans Ready for Duty Again

Chicago, Sept. 5.—Veterans of the Spanish-American war, who yesterday opened a four day encampment here, are at the disposal of Uncle Sam any time he needs them. This was the consensus of opinion among veterans today. They have recommended for adoption by the Spanish war veterans a resolution to that effect.

Police Guard Pettit To Prevent Suicide

Chicago, Sept. 5.—Police guard about J. Maurice Pettit, confessed wife slayer, was doubled today as a result of threats by Pettit that he would kill himself at the first opportunity. He says he wants to join his wife on a "spiritual plane."

"My body may die, but my spirit will live," he told physicians at the Bridwell hospital, where he is recovering from injuries received when he tried to escape by jumping from a fast moving train near Michigan City, Ind. Police are inclined to doubt Pettit's story that he killed his wife because he "wanted her to die pure."

HUGHES IS PLEASED OVER TENNESSEE TRIP

Criticism of Strike Settlement Subject of His Nashville Speech

By Perry Arnold. (United Press staff correspondent.) Louisville, Ky., Sept. 5.—Only the usual railroad station crowd was on hand here today when Charles Evans Hughes' car was backed in. There were no cheers or other signs of enthusiasm.

The candidate is en route to Lexington, Ky., where he will speak today. A. T. Hart, in charge of the western headquarters of the national committee got aboard for a conference with the nominee and the two remained together in the governor's private car during the half hour wait here.

The governor and Mrs. Hughes went to the station platform to pose smilingly for a local photographer and to take a morning stroll.

It became known today that the nominee is planning to address men of the Plattsburg, N. Y., camp if this can be arranged. A tentative schedule already mapped out for him includes a visit to the preparation camp, September 12, making Hughes return to New York one day later than had been originally planned.

Before the candidate's car left the station a band straggled into the train shed and by playing southern melodies evoked applause in which was blended cheers for Hughes.

The original plan had been for Hughes to make a train speech, but apparently this idea was abandoned because a crowd was missing. The candidate did not show himself for some time and no one at the station seemed to care whether he did or not.

Faceted Hostile Audience. The republican nominee was a different person than the man who a little over four weeks ago started off on a transcontinental campaign trip. Probably no public speaker, let alone a presidential candidate, ever underwent such an experience as Hughes did at the Byram auditorium in Nashville last night.

He faced an audience that was "padded" against him and distinctly unfavorable to his views. The crowd started a Wilson demonstration. They hissed and booed the G. O. P. nominee. Hughes, fighting mad at the insult which he considered had been given Mrs. Hughes, who was present on the platform with him, simply struck out straight from the shoulder and rammed home his bitter criticism of the democratic administration with a new line of hot shot. He attacked the strike settlement recently achieved by President Wilson and had the satisfaction of hearing cheers and applause from the south-erners for his fighting spirit and his determination to fight it out.

Naturally the candidate was in good humor today and the stimulus of the night's meeting still stood with him. He was also enjoying a good joke which some of his party had against him. Secretary Lawrence H. Green opened the morning's mail today, and nearly fainted when he saw a check on a St. Louis bank for \$25,000. No letter accompanied the "contribution" and it looked mighty good to Green. He took it back to the governor in a hurry. Then when the two came to look over the contribution, they found it was a counter-check on a St. Louis bank, made out to the order of Charles Evans House and signed "Hughes per Secretary J. Lansing." On the back the person who made the contribution had inscribed in a flowing hand the signature "Edward James Porter, Esq."

Rumanians Halted. By Carl W. Ackerman. (United Press staff correspondent.) Berlin, Sept. 5.—The Rumanians have been checked on both wings of their invasion of Transylvania and are in retreat before German and Bulgarian forces invading southeastern Rumania.

Budapest dispatches today reported a halt in the Rumanian advance near Orsova on the extreme Austrian right wing. After withdrawing to the west bank of the Corua river, the Austrians ward off all Rumanian attacks. Austrian artillery tore great gaps in the Rumanian lines.

Even in the center where the Austrians attempted no strong stand, the Rumanian advance is now making very little progress. The Budapest newspaper A. Est reported that the Rumanians have been unable to follow up their advantage in this region because their transportation system has fallen down badly.

On the southern Transylvanian frontier the Rumanians are proceeding with the greatest caution, evidently fearing that they will be led into a trap.

NEW YORK IS FACING STREET CAR STRIKE

Trouble Breaks Out Over Individual Contracts Made By One System

New York, Sept. 5.—Danger of a strike which would tie up the subway and elevated systems of New York appeared greater this afternoon. The demand of the representatives of the union that all individual contracts made by the Interborough company with its employes be abrogated was flatly refused.

The men have declared a strike will be called if the contracts are not abrogated. Acting Police Commissioner Godley today ordered 9,500 New York policemen to hold themselves in readiness for strike duty in case a strike is declared on the subway, elevated and surface lines as the result of today's conference between representatives of the men and the employers. Police vacations were cancelled.

ALLIES GAINED IN

(Continued From Page One.)

1,500 yards eastward in fighting near Guillemont last night, capturing the village of Fallemont. General Haig reported this afternoon.

The whole German system of strong defenses at Fallemont is in British hands. The British also gained a footing in the Leuze wood, a mile northwest of Combes.

Since Sunday the whole German second line from Mouquet farm to the point where the British lines link up with the French, a distance of more than seven miles, have been captured, General Haig reported. About 1,000 prisoners have been taken.

The fighting is continuing at the village of Ginchy. Paris, Sept. 5.—The Germans last night made several unsuccessful attempts to recapture ground lost to the French on both sides of the Somme in the allied drive on Sunday and Monday. It was officially announced today.

The strong German counter attack was delivered north of the Somme between Combes and Forest. The French had observed preparations for this blow throughout yesterday and were fully prepared to meet it. The first men to attack fell under French fire and the survivors were driven back to their trenches.

South of the Somme the Germans made several unsuccessful attacks near Belloy-en-Santerre, the French taking 100 prisoners. Bad weather hindered the development of the French offensive but the night was spent in organizing the newly won ground against counter attacks.

On the northeastern front of Verdun the night was generally calm, the French taking 50 prisoners in local encounters. Southeast of Thiaumont a small German attack failed.

Canadian Pacific Liner Has Collision

London, Sept. 5.—The Canadian Pacific liner Montreal has been in collision and is sinking off Tilbury.

The Montreal is a steel twin screw four masted steamer built in 1906 for service between Canadian and English ports. She is 469 feet long and has a beam of 56.2 feet. Liverpool is her home port.

Tilbury is on the left bank of the Thames a few miles east of London. Several of the Canadian Pacific liners have been commandeered by the British government. The location of the accident makes it appear possible that the Montreal was either carrying Canadian troops to France or returning from such a trip.

No Great Damage Done.

Montreal, Que., Sept. 5.—The C. P. R. steamer officials have received word that the freight steamer Montreal from this port was in collision with a British warship near the English coast but no great damage was done and the steamer is now docked at Gravesend. Meanest Thief Known Is In Oregon City

Oregon City, Or., Sept. 5.—Of all the meanest thieves that ever thieved, the one that preys on "Doc" Mosier, blind cigar dealer, is the most unalterable, according to police here. Mosier told detectives today he had \$27 in his wallet last night, that he laid it down for a minute on his counter and the robber stole it.

COMMISSION ON WAY ON PRESIDENT'S YACHT

New York, Sept. 6.—With the American flag flying at her masthead and the Mexican flag fluttering from her bowsprit, the presidential yacht Mayflower steamed out of the New York harbor today bearing the American-Mexican joint commission which hopes to settle all difficulties between the United States and the de facto government.

New London, Conn., is the destination of the party and the commander of the Mayflower hopes to dock there this afternoon. The first conference will be held tomorrow morning.

Market Rather Dull But Prices Were Firm

New York, Sept. 5.—The New York Evening Sun financial review today says: "Although interest in today's generally active trading was confined in great part to the sensational operations in International Mercantile Marine issues, particularly the preferred, which advanced more than four points over Saturday's low and to the great capacity market showed for the absorption of United States Steel common, the general list reflected participation in the dealings by substantial Wall Street operations and by the public, the latter, however, exhibiting decided discrimination in the character of its purchases.

While the rail shares, as a rule, were inactive, their prices held firmly well in the best part of the session, selling of Reading and Union Pacific, being particularly well taken. Munitions issues were more in favor because of the calling off of the order for a railroad strike and some of the specialties, notably United Fruit and Kelly Springfield Tire were strong.

Sentiment in the financial district was not particularly bullish regarding the immediate prospects for active expansion in the speculative demand for railroad stocks, while there appeared to be a tone of pessimism in the talk heard in various houses over the outlook for a wider investment inquiry for the rails, at least until a clearer conception could be had of the probable outcome of the railroad labor situation.
