NEW SUPERINTENDENT TALKS ABOUT THE MEN

Says Wife Should Have Monthly Allowance—Also Mentions Schools

If John W. Todd, superintendent of city schools, should run for office, he surely would get the votes of the women folks of Salem, as last evening at the Commercial club, he told the men they were running the home cooking department of their homes all wrong.

How to handle the commissary department of the home came up in his address when he discussed the cooking in the high school and the establishing of a cafeteria. Knowing that what they cooked was to be eaten at once by hungry children and that if the food was not good, the children would raise a strong objection, Mr. Todd said that kind of experience was valuable to the girl.

But the best part of the cooking school was the fact that all had to be done with the object of at least paying expenses and with the cooking and financial side both in view, the girls got some valuable experience.

"You men have no business sense when it comes to running your table. You just let your wives run a grocery bill and a meat bill and never kick until the end of the month when the bill comes in. What you should do, is to give your wife a monthly or weekly allowance to run the table and then, if she can save anything from that allowance, it is her pin money," said Mr. Todd.

The greatest problem of the schools is that of giving service that is real, one that will enable the pupil to connect with the business life and the practical life afterwards, he said, and there are two ways of doing this. One is by giving the child an education in practical things and the other is academic. The old system of education is to blame for the number of impractical things taught, but the modern system is getting away from the old ideas and educating the child to the modern conditions of life.

Mr. Todd said that ever since his graduation as a young man he had been following his mother. His first teaching was at Canas, Wash., and he went there as that was his mother's home. Later his mother went to Phoenix, Arizona, and shortly afterwards, Mr. Todd followed her, teaching for four years in the public schools. Then his mother went to Tacoma and a year later Mr. Todd became a teacher in the Tacoma high schools. One year ago Mrs. Todd came to Salem and now Mr. Todd is here.

In introducing Mr. Todd, the presi-
