CONCRETE BRIDGE IN POLK GOES DOWN

Structure at Independence Which Caused Start of Recall Collapses

The concrete bridge over the slough at North Independence collapsed yesterday. The construction of this bridge constitutes one of the principal items upon which are based the movement for a recall of the county court of Polk county.

It is stated in the recall petition that the county court tore out a steel bridge and a heavy fill within the corporate limits of Independence and constructed a new fill and bridge without any necessity existing for such action.

The statement is made that the county clerk of Polk county is unable to find any bond filed by the contractors guaranteeing a satisfactory performance of the work, but that there is such a bond as affirmed by those who claim to know.

The bridge is about 100 feet long. In addition to the abutment supports there are four concrete piers about 18 feet high. It is said that when the forms were removed one of these piers crumbled down, and the roadway sank about three feet, breaking away at each end.

The architects are looking the situation over today with a view of determining whether or not the bridge can be repaired.

THE TATTLER

An old philosopher has said that a man is what he eats. Thus is accounted for the human prunus.

Albany claims to have the biggest nut tree in the world. Salem is the biggest nut institution in the state.

Of course it won't rain for the fair. Cheer up.

The Southern Pacific officials are getting theirs at Portland today. But the shippers are continuing not to get theirs.

It has reached a point in some families in Salem where a nickel is flipped to determine whether the family goes to church or to the movies.

Matters have progressed sufficiently to indicate that the coming city election is going to be what the society writers call a most enjoyable occasion.

The man who can look wise and keep his mouth shut is pretty sure to get a reputation for profundity sooner or later.

It has been a busy week in the book stores.

A good many hop pickers are enjoying the pleasant exercise incidental to cashing up this week.

From what part of the country does the person come who cannot tell the difference between a fog and rain clouds?

Market Closes Strong After Fluctuating Day

New York, Sept. 21.—The New York Evening Sun financial review today says: Although prices in today's session exhibited market irregularity, incident to cross movements in the speculation and at times rather sharp declines under professional selling pressure.

BRONCO BUSTER HURT

Pendleton, Or., Sept. 21.—Lee Caldwell, champion cowboy bucking horse rider of the United States and Canada, yesterday was nearly killed when his horse, a new one, bolted through the stirrup, catching Caldwell's boot on the strap and dragging him. The horse then kicked him in the head and shoulder. Caldwell was knocked unconscious. An X-ray photo showed that no bones were broken.

Caldwell declared last night that he will ride in the bucking horse contest today.

A new stopper for milk bottles has a spout at one side for pouring, a valve within the device closing against the admission of air when a bottle to which it is attached is held upright.

CALDER'S ELECTION GENERAL CONCEDED

Whitman's Progressive Majority 3,200—Movies Beat One Candidate

New York, Sept. 21.—With returns still incomplete the victory of William M. Calder over Robert F. Bacon in the state primary race for the republican nomination for United States senator, was generally conceded today.

Latest estimates show that Calder is the victor by a majority on approximately 6,000 to 7,000.

While returns from the progressive primaries are still slow in coming in, it

Wheat Remains Firm Prices Unchanged

Chicago, Sept. 21.—Wheat was firm today despite a lower opening on weak Liverpool cables and general commission house selling. September wheat was up 1/4 at \$1.49 1/2; December up 1/4 at \$1.49 1/2, and May up 3/8 at \$1.50 3/8.

Corn was lower due to weak cables and general selling. Recoveries were quoted as the grain in an unannounced as the buying increased. September corn was up 1/4 at 72 5/8 and May unchanged at 76.

Oats were affected by the other grains, and September was up quarter at 45 3/8, December up 1/8 at 47 7/8 and May up 1/8 at 51.

Provisions were irregular. A sergeant in the United States marine corps is the inventor of a portable topographical map that enables aviators to make quick and accurate reports of their observations made in flight.

Seattle Longshoremen Want Sympathetic Strike

Seattle, Wash., Sept. 21.—Negotiations for settlement of the longshoremen's strike having met with failure here, a request made by the Riggers and Stevedores union last night for a sympathetic strike of all transportation workers in Seattle was in the hands today of the strike and grievance committee of the central labor council.

Following the refusal of the council to act immediately upon the request, Martin Meyer, president of the local longshoremen's union resigned as a delegate to the council.

The committee in whose hands the request was placed was instructed by the council to make a thorough investigation of the situation on the waterfront.

Federal Conciliation Commissioner William Blackman, who was sent here from Washington, in the interests of arbitration, admits that efforts to end the strike have proved futile.

COW SAVED HER LIFE

La Grange, Or., Sept. 21.—Mrs. C. W. Bearden of South La Grange owes her life to a Jersey cow. Mrs. Bearden had gone to the outskirts of La Grange to milk the family cow, when she was set upon by a dehorned bull from a neighboring pasture. She was bunted over and her collar bone broken and several less serious wounds were inflicted. Mrs. Bearden explains that she had given up all hope of rescue, when her own cow came running to the scene, assailed the attacking beast and drove it away.

Bears Pound Stocks to Lower Levels

New York, Sept. 21.—General Motors, which recently out-did Bethlehem Steel as a war bride performer on the stock exchange, making a high record of \$750 a share, sold off \$45, at \$700 a share, in early trading today.

Bear traders who have been pounding the market for several days with little success drove several of the war stocks down. Crucible yielded three points at \$9 and the selling pressure drove Baldwin Locomotive down 4 1/2 to \$4 1/2. United States Steel sold below \$8 and Marine issues were weak.

Coppers meanwhile boomed along. Anaconda going to a new record at 95 1/2 and Utah Copper selling at \$9 1/4, only 1/8 under its best price. Bethlehem Steel was up 6 at \$60.

BRONCO BUSTER HURT

Pendleton, Or., Sept. 21.—Lee Caldwell, champion cowboy bucking horse rider of the United States and Canada, yesterday was nearly killed when his horse, a new one, bolted through the stirrup, catching Caldwell's boot on the strap and dragging him. The horse then kicked him in the head and shoulder. Caldwell was knocked unconscious. An X-ray photo showed that no bones were broken.

Caldwell declared last night that he will ride in the bucking horse contest today.
