FIRE DESTROYS TWO BARN AND GARAGE

Property of Chas. D. Schmid Valued at \$25,000 Goes Up in Smoke

Two three-story barns and a buggy shed and garage belonging to Charles D. Schmid, and located on the river road, route 3, about three and a half miles south of the city burned last night about 10 o'clock, buildings and contents being a total loss. Mr. Schmid estimates his loss at \$25,000 with insurance about \$6,000.

The fire was discovered by the house keeper, the light shining through her bed room window which faced the buildings awakening her. Her screams soon aroused the others in the house but the fire had made such progress by the time they reached it that but little could be done. It started in a buggy shed and garage, where a cider mill is also operated, from this it spread to one of the big three story barns containing about 70 tons of hay and from this to the third barn which contained the stock. By heroic efforts six horses in this barn were saved as were a large lot of hogs, the only animals burning being a shepherd dog in the third barn and a small terrier in the garage.

The building used as a garage was two story being one of the oldest farm houses in that section, and it was also used as a store house. In this building an auto, spring cart, three wagons and buggy were burned, along with the cider mill, 300 gallons of cider, a barrel of wine, 300 empty sacks, 1000 empty apple, 1500 peach and a lot of prune boxes, a supply of empty barrels for cider, several sets of harness and other farm implements of all kinds and several hundred bushels of grain. Mr. Schmid had purchased the hay from the fair grounds, and much from his neighbors as a speculation and this with the machinery and many farm implements was a total loss.

Mr. Schmid resided in Portland 45 years, coming to Astoria county in March of 1915 and purchasing the farm where he now lives from William Hall for \$55,000. He has spent in improvements since, he says, about \$6,000, and was just beginning to get his farm in shape to suit him when this loss came. He takes his loss philosophically but while accusing no one feels certain the fire was of incendiary origin, as it started in the garage where there was no combustible of any kind. He came in to town this morning to take up his insurance matters, which when settled will leave him still loser by a bout \$19,000.

throughout the industrial group in subsequent operations.

The public was more in evidence on the buying side and the big men of the street appeared to be decidedly bullish over the prospects for higher levels in the rails, in the steel and copper shares and in the so-called munition issues, also in the specialties, many of which presented decided indications of being absorbed for long time profits. Central leather went to a new high record, the raw sugar stocks were strong features; national bond moved to a sharp advance and such issues as Westinghouse, General Electric, Consolidated Gas, High Valley, Studebaker and Barrett company bettered their market position materially.

Active efforts are being made in banking circles to re-establish public confidence in the railroad shares.

Macleay News Notes

(Capital Journal Special Service.)
Macleay, Ore., Oct. 5.—The Misses Pansy Nieswander and Inis Russell are attending school in Salem this fall and are residing there during the school term.

Francis Schrank and wife, formerly of Annsville, will soon occupy the old Taylor place which Julius Jansner recently vacated.

Mrs. D. G. Miller and children motored to Newport Tuesday where they will be the guests of Mr. and Mrs. Wilson Wheeler. Mrs. Miller's parents and there will be preaching next Sunday at 3 p. m. and Sunday school at 2 p. m. Everyone is invited.

Wedding Invitations, Announcements and Calling Cards Printed at the Journal Job Department.

State House News

A report made by insurance commissioner Harvey Wells shows the fire loss in Salem for the month of September to have been \$18,500, the third largest loss of any city in the state. These fires were three: hop houses, a barn and a seed exhibit. The burning of a sheet warehouse in Unatilla county, valued at \$150,000 was the largest single loss in the state during the month. Total losses in the state for the month were \$335,310.

According to the monthly financial report of the state industrial accident commission the total receipts during September was \$79,494.79, while the total disbursements were \$80,434.50, leaving a balance in the accident fund of \$168,825.53. The balance in the segregated accident fund is \$496,897.74.

A total of 73 empty cars have been received at Ashland for use on the Portland division of the Southern Pacific during the past 24 hours. The total car shortage on this division is now 1493.

vice commission from the Squaw Creek Irrigation company, Prineville, asking that it be given permission to raise its rate per acre foot from 35 cents to \$1, instead of 60 cents as formerly applied for.

The Standard Cleaners and Dyers, of Portland, have filed articles of incorporation at the office of the corporation commissioner. Their capital stock is \$1000.

The board of control this morning named a commission to survey the boys' and girls' industrial schools, with a view to determining the needs of the institutions. The commission as named is composed of the following: Mrs. Maude McMath, president of the Oregon congress of mothers; Rev. Wm. G. Elliott, a Unitarian minister of Portland; and Prof. Conklin, of the state university at Eugene.

Argentine Cannot Help

By Charles P. Stewart.

(United Press staff correspondent.)
Buenos Aires, Oct. 5.—Argentine can offer little hope for relief from the high flour and bread prices in the United States by sending her wheat surplus, Chief Lahitte of the statistical bureau of the ministry of agriculture, told the United Press today.

The last Argentine wheat crop was below normal, but there remained a surplus of nearly one million tons for export. This wheat will go to Europe or the United States, which ever offers the highest bid.

One ship load of wheat already is en route to the United States aboard the steamer Panama and others probably will follow. The greatest difficulty lies in the fact that Argentine is unable to furnish many ships to transport grain and the United States is in a similar plight.

But even if a large part of the Argentine surplus should be dumped on the United States market, it would make little difference in the price of wheat in the Chicago market because of the shortage in the United States crop, Lahitte said.

\$10 Flour, \$2 Wheat.

Minneapolis, Minn., Oct. 5.—Millers predict \$10 a barrel for flour at retail and \$2 a bushel for wheat to the farmers. Unless rain falls in Argentine quick, one said, \$2 wheat is almost a certainty this month.

Flour opened quiet today with patents firsts, the highest grade flour, getting a few buyers at \$8.00 @ \$8.80. Some

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast fast helps you look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place, instead of the thousands of sickly, unattractive looking men, women and girls, with pasty or muddy complexions, instead of the multitudinous of "nervous wrecks," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy cheeked people everywhere.

Such an inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that outside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

millers this week were reported to get \$9 a barrel for flour in carload lots, but that price was thought exceptional, rather than average. Second grade flour sold today at \$8.00 @ \$8.80 with flour supply used in pastry and by bakers selling at \$7.20 @ \$7.80.

With flour prices this week the highest in 40 years, spot orders were few. There were practically no deferred orders. Business for this time of the year is unusually slack.

PRESIDENT GETS

(Continued From Page One.)

Trip One Long Vacation.

By Robert J. Bender.

(United Press staff correspondent.)
On Board President Wilson's Train. En Route to Omaha, Neb., Oct. 5.—Campaign life agrees with Mrs. Wilson. She likes it and is having a fine time. Incidentally she's getting a lot of attention from the crowds who gather about the president's private car and is sharing equally with the president, the plaudits of the throngs.

Wearing a simple gown of black voile over white, her every appearance on the trip has brought a demonstration. For the most part, however, she prefers to stand by and let her president do the talking and receive the brunt of the noise. On one occasion she was greeted by one in the crowd:

"You look mighty good to us, Mrs. Wilson." And it took her some time to recover from the tribute.

The entire executive party was cheered to a high pitch of optimism by the demonstrations accorded the president along the way yesterday. Political aides who are on the train feel that Ohio and Indiana will swing into the democratic column with a bang.

Big Crowds Greet Him.

Missouri Valley, Iowa, Oct. 5.—President Wilson was greeted by large crowds at Carroll, Deaion and Missouri Valley this morning. Mrs. Wilson accompanied him on the car platform during the big demonstration.

"Whatever happens to me in November, I believe you'd all vote for Mrs. Wilson, wouldn't you?" the president asked.

"You bet we would," the crowd yelled in reply.

As a result of discomfitures from cold yesterday, the president had a new car

today.
Nebraska's Anniversary.
By his political managers the president's addresses today are regarded as the big volley to protect the central west against capture by Charles E.

Surprisingly Good Cough Syrup Made at Home

Costs Very Little and Easily Made, but is Remarkably Effective.

"You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save \$2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat or chest colds in 24 hours—relieves even whooping cough quickly.

Get 2 1/2 ounces of Pinex (50 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 54 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract combined with guaiaccol and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Hughes. Local party lieutenants said, however, that Nebraska is already strongly in line with 15,000 or 20,000 votes to spare.

The president was in great fettle today after further enthusiastic receptions en route through Iowa this morning. At Council Bluffs there was a big crowd with a singular number of old people. One elderly gentleman reaching up to shake hands with the president, said: "Let me shake hands with a Lincoln."

An old lady greeted him: "God bless you, my dear."

Omaha was in holiday array to greet the executive. Thousands of people drawn into the city by the lure of the annual Ak-Sar-Ben festival thronged the streets and cheered the president on his every appearance.

Following the luncheon at the Commercial club the president was to ride in and later review the great pageant held under the auspices of the Nebraska Historical society and the Ak-Sar-Ben. The pageant abandoned in gorgeous floats and was featured by a whole tribe of Indians and scores of cow punchers fresh from Nebraska ranches.

Every available spot for sitting and standing along the line of march was occupied long before the president took his place at the head of the procession.

By Robert J. Bender.

(United Press staff correspondent.)

Omaha, Neb., Oct. 5.—President Wilson in a spirited address to the business men of Omaha today declared the time has gone when the "big new things facing America can be done in the old way." Those, he said, who hesitated to break traditions and did not confront the new age with new ideas, "are going to be left at the post."

"For the next decade we've got to serve the world," he said. "And his situation has altered every political and domestic question."

"Heretofore the work of America," he said, "has been done by those who

wished to exploit the world." Heretofore, it must be done by those wishing "to gain the confidence of the world."

He challenged criticism of the legislation under his administration, saying: "Give me the verdict of the next 25 years. I care not a peppercorn for the verdict of 1916."

He brought tremendous applause when he added:

"I've known men who tied up their ideas in their head, same as an old woman may tie up her savings in her handkerchief—and when they unraveled the knot, they found their ideas were no longer currency. I have known such men in politics."

Market Is Bullish Prices Climb Higher

New York, Oct. 5.—The New York Evening Sun financial review today says:

Transactions were in active volume on a generally advancing movement in prices in the best part of today's session, with pronounced strength in the rails in the early dealings and greater values in the steel and copper shares
