The reason for the difference between the Chicago price of the wheat, which has been around the \$1.50 mark and the \$1.25 and \$1.30 the farmers are being paid here is as follows, according to a local miller: The high Chicago price is for Turkey red, best wheat averaging about four cents over. The millers in the east this year seem to prefer the hard Turkey red. This hard wheat is worth 25 cents a bushel more than Willamette valley wheat. On account of vetch in the wheat, the valley product is worth seven or eight cents less in proportion to the club quotations. To deliver wheat in Portland costs about five cents a bushel freight and from this is added to the eight cents that would place the freight rate on an equality with the eastern Oregon rate. And then there is the difference of seven cents owing to inferior grade of valley wheat on account of the vetch. Anyhow, the fact is that today the mills will pay \$1.25 or \$1.30 for sacked wheat and according to their figures that is the market price.

SAYS "A VOTE FOR ME IS A VOTE FOR PEACE"

Candidate Hughes Says He Would Win Respect of the World

By Perry Arnold. (United Press staff correspondent.)

Utica, N. Y., Oct. 27.--"A vote for me is a vote for lasting peace," Republican nominee Charles E. Hughes declared to an audience of 2,000 in Lamberg theatre this afternoon. He again attacked Secretary of War Baker.

"It is said that criticism of the administration in this matter indicates a desire for war," he said. "It is said that the alternative of the policy of the administration is the policy of war; it is said that a vote for me is a vote for war. What a preposterous suggestion!"

"A vote for me is a vote for lasting peace because it is a vote for maintaining the honor of the country, for maintaining both self respect and esteem of all nations of the earth."

"It is fallacy to suppose we can be kept out of war unless we have the respect of all other nations. Unless we impress them with the firmness of our national character we shall not be in a position to secure the favorable peace we desire."

Hughes' promises, summed up, were: Selection of "the ablest cabinet the country can afford."

"Firm and courteous insistence on the rights of our citizens," as the basis of his foreign policy.

Enactment of a proper protective tariff.

"Fair governmental action to all," and particularly with regard to capital and labor.

"Strict scrutiny of business organizations"--but "all business to be treated fairly and justly."

"A flag that protects the American citizen in his lawful rights."

"A domestic policy which looks to industrial peace and co-operation, not to industrial war."
