OF INTEREST TO TEACHERS IN MORGAN COUNTY.

The following communications from the State Department of Education is of interest to all teachers and friends of education and we are pleased to give them space in our columns.

Sept. 20th, 1916.

My Dear Superintendent.

I am receiving so many inquiries about the examinations for the coming year that I think it wise to send out a few announcements relative to it. I hope you will have this information printed in your county papers and get as thoroughly before your county as possible.

Very truly yours,

S. W. SHERRILL.

Sept. 20th, 1916.

My Dear Superintendent:

In order that there may be no misunderstanding later, I am writing you relative to your county high schools.

I wish to call your attention to the classification of high schools as found on page five of the Course of Study and Regulations issued by the State Board of Education.

We are now organizing a large number of third class or two-year high school throughout the State, taking the place of the very inefficient secondary schools. I hope, from the very first, you will see to it that in these high schools of your county the standard be just as high as the first two years of any four-year high school. The course of study is identical

This Course of Study must be followed as arranged by the State Board of Education.

As to the establishment of these schools can say that your county high school board has the authority by law to fix the minimum of daily attendance for such schools, but the law says the board shall not fix the minimum in any case at less than ten pupils. I think that this provision a wise one as it would be too expensive to run a high school with fewer than ten pupils.

The time will come when you will be asked to make a statement as to the amount of money spent for teaching and incidentals in your high schools. Upon this amount you will receive your part of the State high school fund. You can in the amount reported only the money spent in high schools in which all prescribed conditions have been met.

I hope you will see to it that all your schools meet these conditions thus enabling you to receive your full amount of State aid.

Very respectfully

S. W. SHERRILL.

Sept. 20th, 1916.

My Dear Superintendent:

As you may know, the last legislature passed a law making the fourth Friday in October as Temperance Day in our public schools.

I am sending you, under separate cover, programs for exercises which I hope every school in your county will hold.

I trust you will get these programs into the hand of your teachers as soon as possible.

Very truly yours,

S. W. SHERRILL.

Sept. 21, 1916.

My Dear Superintendent:

As you are aware the East Tennessee Educational Association will convene in Knoxville Oct. 26th-28th.

We wish this to be the most largely attended and best meeting the Association has ever had. I would therefore, most heartily recommend that you have your Board of Education to excuse your teachers on October 27th with pay to attend this meeting.

Yours with best wishes for a good meeting, I am

Very truly yours,

S. W. SHERRILL.

Derivation of Word "Caucus."

As to the origin of the word "caucus" there is much diversity of opinion. It has been traced to a North American Indian word "kaw-kaw-kas," meaning to talk, giving advice or instigate, whence came "caucorouse," a chief. More often, however, it is explained, as English, a corporation of "calkers' meeting" and here again there is a variety of choice. One version tells of meetings of the Boston dockyard calkers to elect delegates to represent their grievances against the English soldiers. Another makes it a term of opprobrium, "calkers" standing for humble folk generally. A third explains that it was in a calkers' meeting place that the Boston politicians assembled.

CURIOUS SHOPS OF JAPAN

How Flowers, Meat, Shoes and Other Articles Are Sold in the Mikado's Land.

The shops and booths of Japan are of unfeeling interest. Here the green grocer and fruiterer has arranged his wares till it seems as though one looked upon a great bouquet. There the flower shop blazes in brilliance and the lantern maker squats at his multi-colored task. At the next entrance we perhaps see a man severing chicken meat from the bone, and he performs the operation as skillfully as the surgeon with his dissecting knife. Two or three paces farther on one is confronted with a typical Japanese shoe store. The newcomer is at once startled at the immense quantity of this simple footwear and the many places where it is sold, but he soon finds a solution to his query when he hears that a Japanese man annually makes away with from eight to ten pairs.

But curious things are not found in the shops alone. The green vegetable peddler carries loads heavy enough for a horse, but still has enough energy to call his wares as he goes. One marvels at those wonderful, big, snow white radishes he sells; green onions, carrots, fruits and even lotus roots dug from the muddy bottoms of ponds. Fancy yourself eating long burdock roots which grow in any country backyard! The Japanese consider these a toothsome article.—Christian Herald.

Natural Indignation.

A cautious German, who keeps a pawnbroker's shop in Sydney, is in the habit of leaving his daughter in charge while he attends sales to pick up bargains. A Chinaman entered the store the other day to buy a watch. The girl placed four on the counter, and while her back was turned, John changed the places of the highest and lowest priced watches. He then said he would take the cheapest one, for which he paid and departed. It was not until he was clear away that she discovered the fraud, about which, on her father's return, she told him with many tears. "Never mind, never mind, mine dear," he said; "dese watches was all de same price. But vat a scoundrel dot Shinamon must pe, don't he?"

Word to Be Avoided.

Recovery of a letter which had been sent to a little town in Germany and never delivered to the person addressed cured one writer of the custom of adding "Esquire" to a name on the superscription of mail matter. The letter in question would probably have been promptly delivered had the address read simply, "Mr. John Brown." But the sender had addressed it "John Brown, Esquire" and the communication rested comfortably in the "E" compartment of the post restant department waiting to be called for by "Mr. Esquire." One of the popular guide books warns against the use of "Esq.," saying that it might be mistaken for a name.
