

THE ENTERPRISE:

Entered at the Post-office at Kimball, Dakota, as second-class matter.

Published by THE KIMBALL PUBLISHING CO.

TERMS: \$2 PER YEAR.

FRIDAY, AUGUST 10 1883.

We shall, commencing with the next issue, enlarge our paper to a seven column quarto, which will give our readers about twelve columns more reading matter, making it one of the largest papers in the Territory. We do this from a desire to furnish the public the very best paper possible. We have ordered new type and material and will, we are certain, print a paper Kimball may be proud of and one our readers may not be ashamed to send to their friends in the east. We shall also for certain reasons not necessary to mention here change the name of the paper to THE KIMBALL GRAPHIC. The new paper will be sent to all the old subscribers to the ENTERPRISE, but after the first issue none will be sent to those who are in arrears on their subscription to that paper. We do not desire to force our paper on anyone, whoever does not want it let him pay up and stop it. We do business on business principle and every one should do the same by us. Each subscriber thinks what he owes is but a trifle but in the aggregate the amount to us is a large one.

A Milwaukee physician claims that leprosy is prevalent among the Norwegians in Eastern Minnesota and North-western Wisconsin.

"Did the child die under suspicious circumstances?" asked the coroner of a witness. "No sir; it did not. It died under the back porch."

After boring down over 1,300 feet into the bowels of the earth and the expenditure of over \$10,000 the artesian well experiment at Bismarck has been abandoned.

C. A. Damon, the lively correspondent of the Chicago Inter Ocean, has been out to his farm and comes back brim full of enthusiasm. He can now boom this part of Dakota in real earnest.—Mitchell Daily Republican.

An exchange tells of "a young lady losing the sole of her slipper while enjoying the intoxicating whirl of the waltz." Of what profit was it to her if she had gained the whole whirl if she thereby lost her sole.

The President is on his way to the Yellowstone Park. He is accompanied by Secretary Lincoln, Surrogate Rollins, of New York; Gov. J. Schuyler Crosby, of Montana, and Senator Best. Gen. Sheridan will have charge of the expedition.

THE STATE OF DAKOTA.

Almost a Unit for Division on the Forty-Sixth Parallel.

It is mainly the professional politicians having political schemes to subvert that are in favor of the admission of Dakota as "one grand, glorious and undivided state." The people who unfortunately of late seem to be entirely ignored by their so-called representatives (?) are almost a unit in favor of division on the 46th parallel. On the very verge of statehood the great and most important question for Dakota to decide seems to be whether it shall be the will of the people or the will of the professional politicians who prey upon them that shall prevail. It is an issue that must be squarely met, and one that has an important bearing upon the future of the commonwealth. Politics of late years have come to be considered a profession, and the most successful politician is often the man who by trickery, deceit and cunning manipulates caucuses and defeat the will of the masses, legislation is usually for the benefit of the few at the expense of the many, and the few thus acquire power and are united in purpose. It is seldom that the masses of the people can be roused to a pitch of enthusiasm sufficient to unite all in the common purpose of seeing that the will of the majority is forcibly expressed. Power is delegated to successful schemers who are permitted to use it unjustly and to falsify their reports to the people of the use that has been made of the power conferred. Dakota standing on the threshold of the union knocking for admission to the sisterhood of states is to-day face to face with a great problem the solving of which must have an all important bearing upon her future. The question is, shall a ring of corrupt political speculators be allowed to assume to dictate the terms and conditions upon which Dakota shall be admitted to the union, or shall she be truly and fairly repre-

sented by the voice of the people, pleading only for what is by all the rules of common sense, simple justice. The people of Dakota south of the 46th parallel do not and cannot have any interests in common with the people north of the 46th parallel. The commerce of one section finds an outlet at Chicago; the commerce of the other, at Minneapolis and Duluth. The distance between the two sections is such that any number of north and south railroads cannot make common commercial centers. North and South Dakota are perpetually divorced by natural laws, and to try to force unnatural conditions is a crime for which the would be perpetrators should be held responsible. If Dakota sells herself body and soul to the political plotters who are now banded together to rob and plunder her when they once attain the power of framing her constitution, and electing her representatives, she has herself only to blame. It is an undeniable fact that it is only the smallest possible minority that desires Dakota to maintain her identity as one individual territory or state. The persons or politicians who advocate admission as a whole would rob Dakota of her richest inheritance. We the people of Dakota should single out the opponents of division, inaugurate a war of revolution against them and declare and enforce our inalienable rights to an honest representation.—Grand Forks Herald.

Pleasure without POISON
It is a matter of common knowledge that nearly all vegetable poisons are soluble in alcohol. Spirit Cured Smoking Tobacco which by the use of a spirit bath removes from the tobacco its nicotine and other deleterious substances. The result of this leaves only the mild flavor of the tobacco, and greatly improves its burning qualities and this gives the greatest enjoyment that can be obtained from a pipe or cigarette.
