RESOLUTIONS

Of the Wolfe County Teacher's Institute.

In order that the public may have a more general understanding of our labors, and hoping to arouse a greater interest for the cause of education,

Now, Therefore, We, the Public School Teachers of Wolfe County, Kentucky, in Institute at Campton assembled, do publish the following resolutions:

1st. Resolved, That we approve of the time, place and manner of holding this institute, and we extend to the citizens of the town of Campton our appreciation of the generosity and hospitality which they have extended to us while in their midst; and we further extend to them our thanks and appreciation for the interest they have manifested in the attendance thereof, and for the valuable suggestions that many of them made during the sessions of our Institute.

2nd. Resolved, That, realizing the high responsibilities resting upon our worthy Superintendent and the many complex and intricate questions arising before him for solution, in appreciation of the happy and satisfactory manner in which he has met and disposed of every serious problem and discharged every duty, we extend to him our unbounded gratitude and congratulations; and we heartily approve, especially, of his wise and proper choice of an instructor for this institute.

3d. Resolved, That we are delighted to have the services of such a ripe scholar, unbiased instructor, broad and liberal minded educator and patriotic citizen as Professor I. W. Dinsmore, of Deane College, and believe him to have no equals and no superiors as an institute instructor. And we also highly appreciate the presence of Mrs. Dinsmore and the valuable talk she gave.

4th. Resolved, that we appreciate the services of our most efficient secretary, Miss Rosa Coldiron, and of our accomplished musician, Miss Stella Manker.

5th. Resolved, That, deploring the fact that our own dear Kentucky occupies an unenviable position in the sisterhood of American States, educationally, and realizing that every teacher and every citizen of the State has a big duty to perform in raising the standard of education, we believe it to be to the best interests of all and to be the surest and quickest method to advance our educational interests among the people at large to have enacted and enforced such a compulsory law as will force a uniform attendance in our public schools, of all children between the ages of 6 and 14 years for at least three months regular attendance, annually.

6th. Resolved, That we heartily recommend an extension of the school term throughout the State from six to seven months, annually, believing that the present per capita is reasonably sufficient to compensate the teacher for such extension.

7th. Resolved, That, being conscious of the great educational awakening throughout Kentucky, we will put forth all our best efforts to aid in the great educational movement, and will do our utmost to advance the day and hour when intelligence shall be the goal of the youth's ambition, and we pledge ourselves jointly and severally to do our utmost to keep abreast of the best and most approved methods of teaching.

8th. Resolved, That a copy of these resolutions be published in the Hazel Green Herald, the Breathitt County News and the Southern School Journal.

Jesse Lee Hollon,
Mary E. Faulkner,

We Hope it's True.

It is said that a company is being formed, composed of local and Mt. Sterling capitalists, to build a long distance telephone from here to Stanton to connect with the long distance telephone there. We hope that this rumor is true, as long distance connection by telephone is one of Jackson's great needs. It is claimed that telephone stock in well built, serviceable lines is a paying investment. It would be a great convenience to our citizens to be able to satisfactorily talk with the people with whom they do business in distant cities without having to make a trip. The line should be built.

For Sale

Two good squares, both about 150 hands high, both will bring colts in the spring, both good workers anywhere. Call on them. Will trade for any horse or will sell on credit or six months to safe party, interest on date of sale. See or address

A Word to Greeting.

I have become a citizen of Jackson with the special purpose of preaching the glorious gospel of the Son of God to all who visit the Christian church, and in a general way to do all I can for any and all people of Jackson and vicinity. I am a native of Kentucky but have had experience and made observations in Texas, Idaho, Florida and Oklahoma. No other place is to me like Old Kentucky, and with all her faults I love her still, for I was born and bred down in the Purchase. My principal place of public business will be at the Christian church, where I hope to have the opportunity of ministering to the spiritual wants and needs of many of the citizens of Jackson every Sunday. Let no one hesitate to call on me whenever I can serve them in any capacity. I shall be glad to welcome you to the Christian church at any service. Very truly,
W. H. McCLENDON.

The sixteen year old girl of B. F. Combs has gone the way of all the earth. The poor mother of the little girl while taking the last view of her little pale faced daughter, on getting up to go away said she must turn her back on her child to never see its sweet face again in the world, but that she hoped to see it on the sunny shores of Gods love where she could embrace it and sing forever more. She says she heard the song and the harp vibrating their sweet melody in the sweet breeze, before her little girl took sick, not in a dream, but in day time. In her lamentation the writer heard her say this.
