THE CITIZEN

Devoted to the Interests of the Mountain People

Knowledge is power—and the way to keep up with modern knowledge is to read a good newspaper.

Vol. XII. Five cents a copy. BERE A, MADISON COUNTY, KENTUCKY, DECEMBER 29, 1910. One Dollar a year. No. 27

FOR MEN ONLY

Wish we could do as much for the Ladies but we can't

FRIEND MADE CLOTHES are for men

For men who value their Dollars at 100 Cents each. 100 Cents worth of Cloth in a garment may be spoiled by a bit of poor workmanship.

FRIEND MADE CLOTHES make Friends

Because they are good in every particular.

If better ones could be had we would get them for you.

R. R. COYLE - Berea, Ky.

NEW FEATURES FOR NEW YEAR.

Beginning with next week's issue we are planning some new features for THE CITIZEN.

The two features to appear first are a series of health articles by Dr. Eugene L. Fisk which will continue for eighteen weeks and cover two columns a week; and a history of the English Bible by Prof. J. R. Robertson of Berea.

The health articles are on such subjects as, "Pure Air in the Home," "Pure Water in the Home," "Sunlight in the Home," "Good Food in the Home," "Exercise in the Home," "Bathing in the Home," and "Care of the Sick in the Home." Each article will be appropriately illustrated.

The articles on the history of the English Bible will treat the various translations, beginning with the first from the Latin and then the others in succession going back of the Latin to the Greek. An interesting phase of these articles will be the examples of certain quaint translations that will be given, which will serve to give those who have never seen these different versions an idea of what they are and the labor it has required to hand down this priceless treasure in pure English and at the same time conform to the meaning as expressed in the Greek.

We hope to illustrate these articles with cuts of some of the translations and a few plates showing title pages.

The health articles should appeal to all those who are more interested in the prevention of disease than the cure. They have been submitted to Dr. Cowley, the College physician, and have received his unqualified indorsement. No one should fail to read them, for, if their directions are followed, thousands of lives and thousands of dollars will be saved.

And there is great need for the other series. The influence of those who profess to be able to teach the Bible quickly wavers when it is discovered that they are lacking in such knowledge as these articles are designed to give.

We trust that our readers will be on the lookout for these features and follow them closely, for we can assure them that any one article of either Series will be worth many times the subscription to THE CITIZEN.

1911 FOR THOSE UNDER 21.

Let me say a word to young men and young women who will enter the New Year of 1911 under 21 years of age. Some older people may listen!

New Year's Day is more important than your birthday because it marks the age of the World. You have often heard that "times change." That means that customs and conditions change, and the things that make success and happiness in one generation may be different a few years later.

Old people have longer memories than the young, and they ought to be wiser. But no one grows wiser just by growing old. Wisdom comes by thinking over the things we have heard and seen and felt. So my first advice is that you do some thinking before you are carried over the line into 1911.

If you are more than a child you ought to have some aim and purpose in life. What kind of a man, what kind of a woman, do you aim to become? It is easy to aim at nothing and hit it!

What mistakes have you seen people make, and what mistakes have you made yourself that ought not to be repeated? Don't drift into 1911 without some good strong resolutions.

A strong resolution is not a brittle one that is spoiled if once broken. Rather a strong resolution is a tough one that may be pushed aside but always comes back like a hickory bough. Don't say "I will not speak one bad or foolish word," and then think it is all over if you do once break that resolution. Rather say, "I will constantly try to be clean, truthful and reverent in all I say."

When you get to thinking, and making good resolutions, you may feel like praying. Then pray. You will outgrow the need of parents' help, but you will always need God's help. And you can always have it by asking.

Do not feel disheartened because you have not much money. You have what is worth more than money in the fact that you have

BEREA BANK & TRUST CO.

THE OLDEST & LARGEST BANK IN BERE A

THE FIRST OF THE YEAR

Is marked by the launching of many projects, the beginning of numerous undertakings and the readjustment of affairs generally. This is particularly true as to the financial matters of business institutions and private individuals and the Berea Bank & Trust Company extends its services to those who may open new accounts or make other changes in their banking connections.

4% INTEREST ON SAVINGS 4%

BEREA OPENS JAN. 4 IN OUR OWN STATE

The winter term of Berea College—five departments—opens Jan. 4. See description of courses, expenses, etc., on page 7.

See announcements for opening day on pages 4 and 8.

Twenty years hence hundreds of people will be glad that they started to Berea NOW.

DON'T OVERLOOK THIS

We cannot all of us visit the White House, but we can see how it looks from the picture on page 3 of this issue.

Our temperance notes on page 2 this week give the gratifying announcement that Great Britain is becoming a more sober nation.

Read Miss Bowersox's article on page 5.

Start the New Year right by subscribing for The Citizen.

FORMER STUDENT WRITES

Compares Berea with Other Schools.

Dickinson, Tenn., Dec. 9, 1910.

Mr. W. C. Gamble, Berea College.

Dear Sir:

In my travels I never fail to speak a good word for Berea when I have an opportunity, and yesterday I spent an hour trying to enthuse a small crowd of young men about Berea. They are now attending Cumberland City Academy at Cumberland City, Tenn., and will be a nice little addition to Berea's upper Academy and College freshmen students if they come.

The work that I am engaged in at the present time gives me a splendid opportunity to make comparisons of the different institutions in both Kentucky and Tennessee, and the more I investigate the more I appreciate the real value of Berea.

There is not a school in Kentucky or Tennessee that is covering the field that Berea is, and not one that gives the students so much for so little in return.

To appreciate the real advantages to be had in Berea one must go away for a while and visit among other institutions and learn what they get. He will find that what he gets for \$100 per year will cost \$300 per year elsewhere. So if anyone asks you, tell him I say he can't realize what he gets in Berea until he tries to get it somewhere else at the same price.

Sincerely yours,
Marshall E. Vaughn.

Kentuckian Honored—Fire in Georgetown—Democratic Nominations for Governor—Child Burned to Death.

VALIANT KENTUCKIAN HONORED

Names were bestowed upon six torpedo boat destroyers by acting Secretary Winthrop, by choosing those of naval officers who had distinguished themselves in time of war. Among those thus honored was Admiral Jas. E. Jouett of Civil War fame, and a Kentuckian, who had a splendid record, being with Farragut at Mobile Bay when he commanded Metacomb, which was lashed to Farragut's flagship during the battle. He was born in Kentucky in 1828 and died at Sandy Springs, Md., in 1902.

DEMOCRATIC NOMINATIONS FOR GOVERNOR

The race for the Democratic nomination for Governor lies apparently between Jas. B. McCreary and Ben Johnson. They will have the race to themselves unless another candidate announces, and an effort is being made to get another in the field. The three other men already in the race, it is said, will withdraw in a few days leaving the field clear for the above mentioned two men. It promises to become a bitter war between the two factions which these men represent.

CHILD BURNED TO DEATH

The ten year old son of Jesse Lunsford died a few days ago in Lexington as a result of burns received while starting a fire with coal oil. He is a great, great grandson of Aunt Jenny Morris, of Sand Gap, whose picture we published in the Citizen a year ago, and who held such a wonderful record, having at that time 579 descendants, of whom 467 were still living.

BIG FIRE IN GEORGETOWN

A big fire visited the Georgetown business district Christmas morning, when the coal oil stove in the kitchen in the rear of Mrs. Elizabeth Hines' millinery establishment exploded, causing a blaze from which damage estimated at \$30,000 resulted. The Soper building one of the largest in town was destroyed and the Ranks and Webb building next door to the east, and the Isaac Marks building to the west were flooded with water causing much damage.

FORMER KENTUCKY WOMAN DIES IN GERMANY

Baroness Von Zedtwitz, formerly Miss Mary E. B. Caldwell, of Louisville, died at her home at Frankfort-on-the-Main, Germany, last Monday, Dec. 19. She had been ill for several months and death was due to acute erysipelas. The baroness's only son and heir, a lad of fourteen, will receive besides the Zedtwitz estates in Germany, property valued at between \$5,000,000 and \$10,000,000, the greater part being real estate in and about Louisville.

EDUCATIONAL PUBLICATIONS

Two important publications have been issued by the State Department of Education, a "Library Bulletin" and a bulletin on "School Architecture." The Library Bulletin gives an account of the activities of the Kentucky Library Association, with the program for Library Day, Kentucky Teachers' Reading Circle and some data concerning the public library. The bulletin is full of good suggestions as to methods of securing school libraries and the selection of proper books. The latter half of the publication is taken up with a list of "one thousand best books" for school libraries. This list will be invaluable, it would seem, to the schools of the state. The bulletin, "School Architecture," is a no less valuable publication.

NEWS OF THE WEEK

New Altitude Record—Electrical Trust to be Prosecuted—Ethington's Murderers—Votes Sold in Ohio—Roosevelt Breaks Silence.

NEW ALTITUDE RECORD

Arch Hoxsey of the Wright team of aviators broke the world's record for altitude at Los Angeles, Cal., last Monday. He soared more than two miles up into the sky, his barograph registering 11,474 feet or almost a thousand feet above that recently attained by Le Gagneux, at Pau, France, who reached the altitude of 10,499 feet.

BIG TRUST TO BE PROSECUTED

Preparations are being made to prosecute the Electrical Trust which is characterized by the department of justice as being the greatest trust in the world. President Taft has instructed the department to bring proceedings at once for the purpose of breaking up this alleged monopoly, which controls the entire trade in electrical apparatus. The electrical companies will be charged with a conspiracy to restrain trade under cover of the patent law. Morgan and other financiers may be prosecuted as individuals in criminal cases.

CIGARETTE SMOKERS EXCLUDED

The Atchison, Topeka and Santa Fe Railroad has excluded all cigarette smokers from its service.

DR. CAMPBELL MORGAN TO VISIT SOUTH

Dr. Campbell Morgan, the great London preacher, is to be in America, and to visit Atlanta, Ga., next month.

ETHRINGTON'S MURDERERS

A negro indicted for complicity in the killing of young Ethington in Newark, Ohio, last July, has been tried and a verdict of manslaughter rendered. Ethington, it will be remembered, was acting as a detective for the anti-saloon league and was taken from jail by the mob and hung. The mayor and sheriff were evicted from office by the governor and about thirty-five indictments returned. This is the first conviction but it is expected to be followed by about twenty others. Thus Ohio sets a good example to other states in her dealing with mobs.

ROOSEVELT BREAKS SILENCE

Mr. Roosevelt made two speeches recently that are attracting attention. They were looked forward to with a great deal of eagerness owing to the fact that they were his first lengthy utterances since the late campaign. In a speech at New Haven, Conn., he reiterates his belief in the so called Roosevelt doctrines, but disappointed the press in not attempting to account for the Republican reverses. His appearance in Cambridge was to give the Noble lecture. He took occasion to commend Mr. Carnegie for his great peace gift, and was unstinting in his praise of former Secretary of the Interior Garfield and Mr. Gifford Pinchot. Mr. Roosevelt believes in Peace but advocates an efficient army and navy as the best means of securing it.

(Continued on fifth page.)

KENTUCKY LIBRARY COMMISSION

The Kentucky Library Commission came into existence by act of the legislature of 1910. This act provides for the appointment of five members by the governor, and an appropriation for its maintenance and support.

The commission thus constituted consists of the following members: Miss Fannie C. Rawson, Louisville, and Miss May Stone, Hindman, both appointed for a term of four years; Mr. Frank K. Kavanaugh, Frankfort, three years; Mrs. George Alexander Flournoy, Paduca, two years, and William B. Doherty, M. D., Louisville, one year. Hereafter one member will be appointed each year for a term of four years. These members serve without compensation, the executive officer of the commission being the secretary.

Upon call of the governor, the commission held its first meeting in July and Miss Fannie C. Rawson was elected chairman. At a subsequent meeting Miss Rawson was elected secretary, her election to take effect when she shall have secured the training in modern library methods required by the library law. Miss Julia A. Robinson was elected to serve as acting secretary until Miss Rawson is ready to take the work. At that time another member will be appointed to fill Miss Rawson's unexpired term on the commission.

PURPOSE.

The purpose of the commission is to promote the library interests of the State by increasing the usefulness of libraries already in existence, by the establishment of new ones in communities where none exist, and by the maintenance and operation of a widely circulating traveling library system reaching all parts of the State where needed.

ACTIVITIES.

The activities of the commission for the present, therefore, will consist in assistance and advice in the management of existing libraries and in the establishment of new ones, and in the operation of traveling libraries.
