EDEN

Read Dr. Bronnum's announcement on page 4.

Miss Barbara Miller left Sunday to resume her school work at Jupiter.

Mrs. John Miller made a very pleasant visit to Fort Pierce last Saturday.

Mrs. Schofield being detained by the illness of herself and mother, school did not begin Monday as was expected.

F. B. Richards left Monday for Stuart to do some plumbing for John Richards. At all pipe work, Mr. Richards is a skilled workman.

Mrs. Herbert Oyer, nee Clarine Wolf, was visiting her Eden friends last week. She is always a very welcome and much appreciated visitor to her former home.

J. H. LeTourneau found a fine ten gallon gasolene tank on the railroad where it had fallen from a freight car. He took it to the depot and notified the agent.

Ben Bailey was a very welcome visitor to this place last Monday calling on his friends, Mr. and Mrs. F. G. McMullen. He is looking very well and happy.

We are thankful to our county dads for the road work done in North Eden. The autos have played havoc with it already. If a man with a hoe was sent over it and the shell drawn up on either side into the rut it would do wonders for it.

Mr. Gammeter did not arrive as expected. His trunks came, which seemed good evidence. They were detained in Jacksonville where Mr. Gammeter had to have some treatment for an injury to his jaw-bone. They hope to be here in a week or two.

The Ladies' Aid society held a very pleasant social meeting at the home of President Miller, at which a great deal of work was accomplished, in the way of tea drinking and conversation. The next meeting will be at the home of Mrs. J. H. LeTourneau, the first Thursday in February.

Our former pastor, Rev. H. H. Jones and family, are winning golden opinions at Coconut Grove where they are now located. Their friends pounded them recently and they received some very substantial presents. We were delighted to receive Christmas postals from them. They make friends wherever they go.

Sunday School convened as usual last Sunday morning after a two weeks vacation taken as a precautionary measure. There was a possible chance of contagion, since somebody had seen somebody that saw somebody else, that saw some one who saw somebody who heard there might have been a case of infant paralysis twenty miles away.

Mr. and Mrs. F. M. Hudson, Master James and Miss Mary Warren Hudson, were the guests of Mrs. J. T. Waters for a drive down the boulevard in the course of which calls were made on Mr. and Mrs. J. H. LeTourneau, Mrs. E. A. Ireland and Mrs. W. R. Hardee, where they were enthusiastically welcomed, as it was a most pleasant surprise.

Messrs. John Miller and E. H. LeTourneau had a delightful camp hunt last week. They found game very plentiful and had a very successful trip. An unusual incident of the trip was related by one of the party—he lost the heel of one shoe when five miles from camp. It was very distressing to walk without it, but he plodded along uncomplainingly, and finally coming to an old camp he espied an old shoe. It had belonged to a foot much larger than his, so he made haste to cut in two at the instep, and slipping it over his heeless shoe and lacing it, he was enabled to proceed in comfort. "Its an ill heel that does nobody good."

Card of Thanks

We desire to express our heartfelt thanks to those kind friends who tendered their assistance and sympathy to us in our recent bereavement.

Mr. and Mrs. A. LOUVET.

While the launch Ruth K. of St. Lucie was at the St. Augustine Power Boat club Thursday Secretary C. F. Hopkins was assured by the owner, Chas. S. Smiley, that the boat would be entered in the April meet on the Matanzas. The Ruth K. is capable of high speed and will make a big showing in the events. She is one of the first of the fast boats from that section of the East Coast to enter.—St. Augustine Record.

E. C. Halliday and G. W. Kimball representing the Lowry Gas Lighting System, of Fort Pierce, are in the city in their launch "Wizzard." They will give a demonstration the latter part of this week of their office and residence light, 500 candle power, portable table light, 200 candle power, and the big arc light, 2000 candle power. The Lowry lights are instantaneous and does away with generating as in the old style light.—Cocoa and Rockledge News.

A Storekeeper Says:

"A lady came into my store lately and said: "I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost."

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

New Perfection Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
