"America's Finest Flouring Mills" Plant and Product one and inseparable Pronounced by experts "America's Finest Flouring Mills," the plant of the FISHER FLOURING MILLS COMPANY, was designed and constructed to produce America's Most Efficient Breadstuff. Fisher's Blend Flour Separate machinery is provided for grinding hard and soft wheat. Every grain is washed in the famously pure Cedar River water and thoroughly dried before being ground. It is no idle boast to say that this product is the cleanest, most scientific, most economical flour offered for sale today. Combining as it does Eastern Hard Wheat and Western Soft Wheat, it gives to public and private bakeries a material which has all the advantages of both hard and soft wheat flours, is better than either, and decidedly superior to any other blend heretofore produced.
