GOV. JOHNSON SIGNS ANTI-ALIEN BILL

Gov. Clark Pleased With Indian Liquor Traffic Work

Gov. Walter E. Clark is pleased with the results that have been achieved by the organized fight that has been made to suppress the liquor traffic among the natives of Alaska. Summarizing this work, Saturday, the Governor gave out the following statement:

"It is a singular fact that the great success attending the efforts to suppress the liquor traffic among the natives during the last two years, resulting in many prosecutions in the courts, is responsible for the impression in the public mind that this illegal traffic is actually on the increase at the present time. No impression could be further away from the facts. The illegal liquor traffic is comparatively small at present, but a large part of the public apparently believes it is increasing simply because the number of successful prosecutions in court is increasing.

"Since July 1, 1911, a new plan of dealing with the illegal liquor traffic

among the natives has been carried out by the Governor's office. The work has been prosecuted so quietly that a great many persons have not even known that the work was being done by this office. In Southeastern Alaska where the principal work has been carried on, two special agents were employed for a period of a year and a half and one special agent for a period of one year and ten months. During that time, as a result of the work of these agents, 122 arrests have been made of persons engaged in the illegal traffic in liquor among the natives. Of these, 102 were heard before United States Commissioners, 95 were bound over and 7 were not held to answer; 83 true bills were found by grand juries, 17 not true bills, while in 5 cases no action was taken by the grand jury. Many more arrests could have been made, but in no case was an arrest made unless

Cablegrams from Ketchikan said that the City of Seattle will stop at Juneau before going to the island. However, as all the plans for the reception of the new Governor of Alaska and Mrs. Strong contemplate that there will be a reception on the island first, both Major Strong and the captain of the steamship have been wired informing them of the condition and it is believed that the change will be made.

Rustgard, who returned from Ketchikan to Juneau on the AIKI, says it was the intention of Judge Thomas R. Lyons that Judge Robert W. Jennings should take the oath of office at once upon his arrival at Ketchikan and complete the term of the District Court at that place. Mr. Rustgard said there were still four minor cases to try at Ketchikan, but that the docket otherwise is clear. Judge Lyons has all matters that have been argued before him decided, and Judge Jennings will have a clean sheet to begin with.

Captain Carter's Tigers Win In Last Half

That was certainly some baseball on the Casey & Shattuck lot yesterday. The threat of Charley Carter to make the Tigers take to the water if they lost and swim back to town was very effective—they kept scratching all the time and although handled pretty rough at times by the Terriers they pulled through—score 20 to 19 and two chances left.

scoring Fisher, Saegers lined one too hot to handle and was safe, scoring McBride; Albertson was hit by ball; Loucks hit to third and was safe on an error scoring Saegers; Cornell hit that would have been ordinarily safe but Bayless made a sensational catch retiring the side—result five runs.

The Terriers failed to do anything in their behalf of the third while the Tigers added four more to their bulging account. Something happened in the fourth. The Terriers fell on to Saegers and when the account was added up they had the magic seven on the board making a total of ten, only one behind. In their half the Tigers came back with three more, making fourteen in all. The Terriers got one in the sixth and another in the eighth while the Tigers failed to connect until their half of the eighth when they again jumped onto Malone and annexed four more making a total of eighteen while the opponents had but thirteen. Then the fireworks were started in the last inning and when the Terriers retired they had annexed six runs giving them a lead of one over the Tigers. The situation was intensely interesting. The first man up was safe at first, the next went down; a past ball allowed the runner to get to second; a hit allowed the runner to score; another safe one and a passed ball allowed the winning run to get in with two chances left.

scored Fisher, Saegers lined one too hot to handle and was safe, scoring McBride; Albertson was hit by ball; Loucks hit to third and was safe on an error scoring Saegers; Cornell hit that would have been ordinarily safe but Bayless made a sensational catch retiring the side—result five runs.

Lewis hit safe; Wulzen hit to short but Albertson fumbled; Lewis moved to second; Root walked and the bases were full; Healey hit for two bags and Lewis and Wulzen scored; Malone was hit by ball; Benson sacrificed scoring Root; Holt struck out and Whipple repeated past performance—result three runs.

The same show will be on tonight. EIGHTEEN KILLED IN OHIO MINE EXPLOSION

BELLE VALLEY, O., May 19.—Eighteen were killed yesterday in a coal mine explosion at this place.

JUNEAU INDIANS LOSE TO DOUGLAS

Douglas put it all over the Juneau regulars on the Douglas grounds yesterday afternoon—score 6-2. It all happened in the first three innings. Douglas got one in each half of the first and second and in the third hopped onto young Dermody in great shape. With one in and the bases full Dermody changed places with Malloy but it was too late before Malloy was warmed up Ferris' Wildcats had annexed three more. After this Malloy had them so tame they would eat out of his hand, the hits obtained being so scattered that nothing came of them. Young Jeems Chambers had Radonich's Indians buffaloed from the start and he kept them in that hypnotic state until the sixth inning when inadvertently a run was slipped over. In the last chance he allowed them to get one more just to keep them from going home discouraged—but he was never in danger.

MISSION AT CATHOLIC CHURCH BEGINS WELL

There was an excellent attendance yesterday both morning and evening at the church of the Nativity, to hear the Rev. Father Donnelly begin his series of lectures to Catholics and non-Catholics. High Mass was sung at 10:30 by the Rev. Father Brown. The singing of the choir was of a very high order. The subject of the opening lecture was "Indifference to Religion." The preacher drew a graphic picture of the blind man of Jericho being healed by Jesus and contrasted the eagerness of this man for his sight with the apathy and indifference of so many Christians who are darkened by spiritual blindness. In the evening the great "Loss of the Age" was discussed. It was described as the loss of the "Sense of Sin." A very powerful sermon filled with argument and scriptural illustration brought this truth clearly home to the hearers. Father Donnelly speaks with a pleasing facility and his dramatic powers were frequently in evidence. The congregational hymn-singing was bright and inspiring. Tonight at 8 p. m., the second lecture will be given.
