A NEW INDUSTRY

NEWS comes from Wrangell that there is a movement on foot to establish a wood pulp mill near that thriving town, a concession of some 20,000 acres of timber land having been secured from the government.

New industrial enterprises are as necessary to Alaska's permanent growth and prosperity as they are elsewhere. It may be set down as a fact that Alaska is beginning to attract the attention of people elsewhere in the United States and in Europe because of its industrial opportunities.

It cannot be doubted that the Southeastern and Southwestern Alaska coasts offer splendid opportunities that will be eagerly sought for the development of our natural resources in the coming years.

If one-half the reports be true as to labor conditions in the coal mines of West Virginia, that State is a right one to be ashamed of.

ANARCHISTS IN EVENING CLOTHES.

WE ARE told that the National capital is now filled with lobbyists who are endeavoring to influence tariff legislation in the interests of the manufacturers.

Before the Underwood bill had passed the House, certain manufacturers who had grown rich by capitalizing the tariff laws of the United States began to threaten a general reduction in wages if their favored industries were put on a competitive basis.

Mr. Underwood was immediately deluged with high-protection denunciation. When Secretary Redfield declared he would carry out the Underwood program, some of these manufacturers declared they would either close their factories or move to Europe.

Labor does not propose to be liquidated, if we read aright the signs of the times, so long as the profits of management are what they have been in the past and what they are today.

Congressman Humphrey, if he should secure an investigation of the forest service, may discover "a nigger in the woodpile."

LET THE BATTLE RAGE.

THE rate war that is about to be waged between the White Pass & Yukon Railroad and the Northern Navigation Company, will be viewed with much equanimity by Alaskans and Yukoners, who will be the gainers.

Neither Alaska nor the Yukon owe the belligerents anything—not even their good will. Both corporations have found the north countries rich ground for exploitation and they have never missed an opportunity to milk it to the last drop.

And yet both probably actually believe that they have been the greatest developing factors of the North, and will perhaps tell of the sacrifices they have made, the expenses entailed in their altruistic efforts to carry the white man's burden, or perchance they may even recount their heavy losses—but never one word about the enormous profits wrung from the men who have made this country what it is, despite spoliation and spoilers.

Fitting Reward for Good Work.

While the Senate delays the passage of the Underwood tariff bill the House can put in its time on the bleachers.

The world owes us all a living and some break into the penitentiary to collect it. Waffles all day at "T and U" Lunch Room. 4-141m.

BOSTON MAGAZINE PRAISES SELECTIONS

Joe Mitchell Chappelle, in his "Affairs at Washington" department of his own National Magazine, published at Boston, praises the attitude of the administration toward Alaska and the appointments that have been made for the Territory.

"The new administration has been especially fortunate in its Alaskan appointments. Major Strong, the newly-appointed Governor, will undoubtedly give our arctic territory an efficient and enterprising administration.

"The untimely death of Mr. A. J. Daly, late national committeeman from Alaska, shortly after completing his work at Baltimore, deprived the Democratic organization of Alaska of a leader who has been identified for the past twenty years not only with the politics but the business development of Alaska.

"The Alaskan situation has always been strenuous and picturesquely exciting from the first rush and perils of the earlier inundation of prospectors and speculators following the discovery of gold down to the present time.
