GEN. DISTIN IS BOOSTING ALASKA

Gen. W. L. Distin is at his old home in Quincy, Ill., and the Quincy Daily Herald of Feb. 6th, contains a two-column story concerning him and his views on Alaska.
 Among other things the Herald says: "Gen. William L. Distin, the man who has served as surveyor-general of Alaska for a greater number of years than any other man living, arrived in Quincy Thursday afternoon at 3:30 o'clock and is now at the home of his daughter, Mrs. L. E. Emmons, Jr., at 2304 Main street, for a visit. He will be in Quincy for some time to visit his older friends and then he intends to make a trip on which he will visit Chicago, Cincinnati and Washington. While he has no definite plans for the future other than that of enjoying a well earned vacation, Gen. Distin will in course of time return to Alaska."

Alaska His Home.
 "Alaska is the adopted home of Gen. Distin. He was in business in Quincy and his relatives reside here. The Gen. City naturally will always have a warm spot in his heart and when he makes the trip here, he is always glad to do so, because of the ties that draw him. After sixteen years of service in Alaska, a country of wonderful resources which he assisted in developing, that country will always be his adopted home."

"Gen. Distin believes in Alaska. He has seen its great possibilities and knows its wonderful opportunities. In a chat with a representative of The Herald last evening, he said that every American citizen who can afford to travel should make it his duty to visit Alaska. "See Alaska and the United States first before seeing other countries," is his advice. "The principal reason why Alaska has not developed still more than it has, is because the great mass of American people know nothing of it. They imagine it a great waste of snow and ice with no other possibilities than mining and fishing." If the American people would visit Alaska, many would return to that country to stay. The country needs people more than anything else to carry out its slogan, "Develop Alaska."

"Gen. Distin is a great admirer of both Governor and Mrs. J. F. A. Strong. He says Governor Strong not only has the executive ability, but he knows what the country needs. He will make an ideal Governor and will do much to develop the country."

Supports Railroad Bill.
 "Gen. Distin is one of the staunchest supporters of the proposed railroad which will open up the interior. This will give Alaska an opportunity to colonize its millions of fertile acres which are adapted to dairying and farming. Besides making possible the development of the untold wealth of gold and other metals."

Praises Administration.
 "Gen. Distin is expecting great things for Alaska from the present administration. Under the past two the great cry was for conservation. Gradually the United States is realizing that they have a great "treasure box," as the General calls it. The people begin to realize its importance and the wisdom shown by the present administration so far augurs well for a greater development of the wonderful country in the North."

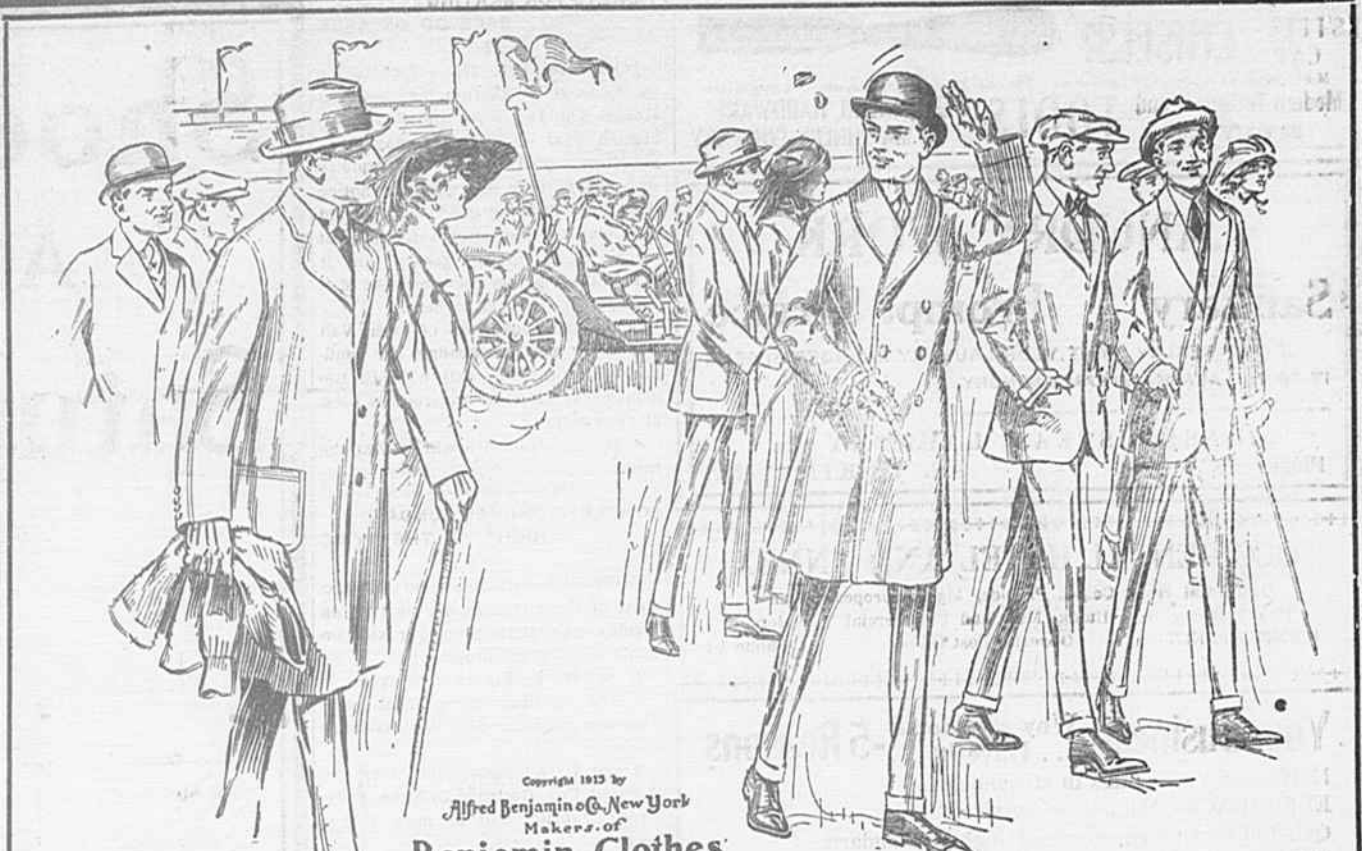

CHURCH NOTES

Catholic Church.
 Rev. A. R. Drathman, S.J., Pastor.

CLEANINGS OF GREAT NORTHERN EMPIRE

G. A. White, writing to the Valdez Prospector under date of Feb. 2, from Flat creek, Nelchina district, says he has struck pay dirt that will run \$150 on bed rock. Bedrock was struck at a depth of 14 feet. He says there is four feet of gravel that will run all the way from one to forty cents to the pan. He says, also, that dirt that will pay \$2 to the square foot has been struck on McDougall creek. Albert and Crooked creeks are also known to contain pay. The letter is very optimistic.

H. H. Knox, who recently asked Cordova for a franchise to install a power and electric light plant, has promised the people of the city to reduce the cost of light and power to seven cents per kilowatt if the franchise is granted.

Peter Jorgenson, a miner, fell down the shaft of No. 13, Goldstream creek, Fairbanks district, Feb. 9, and died before he could be taken to a hospital in Fairbanks.

The Fairbanks Citizen quotes W. E. Wilcox as saying that the First National Bank of that city is one of 1200 National banks in the United States which has a surplus and undivided profits in excess of its capital stock. The bank also had between 50 and 60 per cent. of its deposits in cash--most of it in gold.

The Newsboy quartz mine, Fairbanks district, produced \$4,500 in January at a cost of production amounting to \$4,000.

Word received at Fairbanks from the Circle city district is that much work was done there during the winter and that the outlook for a prosperous season is promising.

Another rich strike has been made on Fairbanks creek in the Fairbanks district. A recent dispatch from Fairbanks says that Tom Davis is taking out \$4-pans on No. 4, above, on that creek.

Editor Klopsch, of the Fairbanks Facts, was convicted of contempt of court by Judge Frederic E. Fuller for commenting upon matters of litigation that are still pending in his court.

In the Commissioner's (Ex-officio Probate) Court for the District of Alaska, Division No. 1, Juneau Precinct.

In the Matter of the Estate of John S. Seatter, Deceased.
NOTICE IS HEREBY GIVEN that the final account of the Administrator of the estate of John S. Seatter, deceased, has been rendered to the above entitled court for settlement, and that Saturday the 14th day of March, 1914, at ten o'clock a. m., has been duly appointed by said court for the settlement thereof, at which time any person interested in said estate may appear and file his exception, if any he has to the same.
 Witness my hand and official seal this 10th day of January, 1914.
 (Seal) JOHN B. MARSHALL,
 U. S. Commissioner and Ex-officio Probate Judge.
 First publication, January 12, 1914.
 Last Publication, March 13, 1914.
