## GAMEWELL ALARM SYSTEM TESTED

14—Corner Third and Franklin. 15—Franklin and Front. 16—Front, Opposite Union Iron Works. 17—Front, opposite City Wharf. 18—Front, below sawmill. 23—Gastineau Avenue—Swede Hill. 34—Second and Gold. 35—Harris and Fourth. 36—Fifth and Gold. 37—Fifth and East. 38—Seventh and Gold. 23—Waterfront, Laughlin Corner. 24—Second and Front. 25—Main and Front. 26—Main and Seward. 27—Fourth and Main. 42—Calhoun and Fifth, opposite Hogan Flats. 43—West and Distin Avenue. 45—Calhoun and Ninth. 46—Main and Seventh. 47—Fifth and Seward.

All of the above stations in the new Gamewell fire alarm system that has just been installed in Juneau were tested out this morning and all but two of them responded promptly and accurately, according to design. Byron A. Day, the expert for the Gamewell people who installed the apparatus says that he thinks that it is line trouble that interfered with the working of these two stations and that it can easily be discovered and put right.

The council committee, consisting of W. S. Pullen, W. H. Case, William Geddes, accompanied by Mayor C. W. Carter and Fire Chief Milton Winn, made the rounds of the stations, pulling each one in succession as they came to them.

The bell, which was purchased by the Town of Juneau many years ago, does not respond in a satisfactory manner and it will have to be replaced with a new bell, according to Mr. Day, if the system is to be a success. The local founders have agreed to turn out a bell at cost of labor and material if the town of Juneau elects to have them do so, and Mr. Day says he sees no reason why a good bell cannot be cast in the foundry here.

Chief Milton Winn, of the fire department says that he is very pleased with the new Gamewell automatic fire signal system but believes there should be a loud rapid action electric alarm arranged to precede the signal toll of the bell.

### GAMEWELL SYSTEM IS IN USE TODAY
