EVERY HOD OF MORTAR or cement that goes into the construction of a building decides to a certain degree the character of that building. Good materials only will make a good building. To attempt to save by the use of poor materials is folly. The best is the cheapest as those experts who use our materials exclusively know by experience.

**Price:**

Wasn't it Walpole who said something about every man having his price. Guess that astute politician might have dug a little deeper and added: Every man has a price for everything, especially everything he wears. There's the dollar shirt man, the dollar fifty shirt man, and so on, right up to the dandy who burns up a ten spot every time he buys a shirt.
