THE CLAFIN FAILURE.

The failure of the H. B. Clafin company does not indicate that the country is going to smash. In fact, it has little significance in itself beyond the fact that this mercantile company was one to strike the rocks during a period of world-wide business depression.

that time, but few of the big American banks have been compelled to succumb. Special causes, as in the case of the First-Second National Bank of Pittsburgh, and the Lorimer banks of Chicago, have brought about a few failures. This conservatism of the banks has at times made it difficult for commercial or industrial or transportation concerns to secure credit when needed, and some of them have been forced to the wall, among them the Clafin house.

If the present administration furnishes more fun for the international world than the Roosevelt administration, with its mock tinsel court and its bluff and braggadocio provided, it is going some.

Tomorrow will be Sunday again, and it is not too late yet to begin that "Go to Church" movement.
