TRUTH ABOUT STEAL OF PANAMA ZONE

In a recent public statement, James T. Du Bois, former American Minister to Colombia, said in reply to Mr. Roosevelt's assertion that "the people of Panama were a unit in demanding the revolution":

"I say, and can prove it, that a handful of men, who were to be the direct beneficiaries of the revolution, conceived it, and not the hundredth part of the inhabitants of the Isthmus knew of the revolt until an American officer, in the uniform of the United States Army, raised the flag of the new republic."

Every word and every syllable of Mr. Du Bois' indictment is true. What took place in Panama was no more a revolution than a train robbery is a revolution. It was a sordid, cash register commercial conspiracy, backed by the Roosevelt administration. The revolution was bought and paid for. Treason was purchased in the open market, and the forces of the United States government were employed to enable the buyers and the bought to get away with the loot.

There is no other such shameful chapter in the history of the United States, and whoever reads the ghastly narrative of this so-called revolution will understand why it is impossible to arbitrate the differences between the United States and Colombia. The United States could not go into court with such a case. It could not permit this scandalous record to be submitted to the scrutiny of any legal tribunal. There could be only one verdict, and that verdict would stand forever against the American government in the courts of international justice.

There is only one way to deal with Colombia's grievances and the bitter Latin-American hostility toward the United States which were bred out of the action of the Roosevelt administration at Panama. That is to settle the case out of court by the regular processes of diplomatic negotiation, as Mr. Wilson and Mr. Bryan have undertaken to do. This is the policy that Senator Root inaugurated when he was Mr. Roosevelt's Secretary of State. It is the policy that Mr. Taft and Mr. Knox followed. If this is "blackmail," as Mr. Roosevelt alleges, then he and Mr. Root, as well as Mr. Taft and Mr. Knox, were offering to pay blackmail to Colombia. The crime of blackmail hinges on the nature of the transaction, not on the amount of money to be paid.

When Mr. Roosevelt afterward sought to settle the claims of Colombia against the United States he himself knew that the record of what took place at Panama could not stand the

test of judicial publicity and judicial scrutiny. Although he has boasted that he "took" Panama, he has exerted every effort to suppress the true story of the Panama "revolution." Not only that, but he has deliberately falsified the record, and when he undertakes to brand President Wilson and Secretary Bryan as the accessories to blackmail and national dishonor, he must face the facts. Whatever measure of dishonor attaches to the Colombian treaty attaches to the man whose lawless ambition made the government of the United States a working partner of the corrupt Panama Canal lobby in its desperate battle for \$40,000,000 of American money.—New York World.

ADMIRAL LINE OFFICIAL LOOKING OVER TERRITORY

C. E. Flye, former Tacoma agent for the Pacific Alaska Navigation company, has been promoted to be general freight and passenger agent of the company, with headquarters in Seattle, relieving R. M. Semmes. Mr. Flye was a Juneau visitor last night in company with B. F. Watson, general agent for Alaska for the same company, while the Admiral Sampson was in port. Mr. Flye has been making a tour of the Alaska coast cities touched by the Admiral Line steamers. This is Mr. Flye's first visit to Alaska and he is greatly impressed with the importance of the field that is to be developed in the country.

PATRONIZE HOME STORES.

Success of home merchants is essential to the welfare of any community, and Fairbanks is no exception to the rule. The home merchants pay the taxes and keep the money in local circulation, while the mail order houses of the Outside have no other interest in this city than to get every dollar possible from the people here and to give as little in return as trade competition will permit.—Fairbanks Citizen.

ARE YOU A MECHANIC, tired of the humdrum life you live every day?

Are you sick of your surroundings but hesitate to move away because of doubt as to your business prospects? Do you want to leave your family, when you die, MORE than life insurance—a profitable estate?

The Answer to Every Question Is: GET a CALIFORNIA HOME

California is the Place for You

You can find in the orange and olive lands at Palermo, California, a profitable, healthy home, at prices absolutely within reach of your pocketbook.

Before leaving California for a two weeks' visit in Juneau I had a piece of land that I own at Palermo subdivided into 10 acre tracts and propose to offer these small farms while I am in Juneau at wholesale prices, or in other words you can secure 10 acres at the same price per acre you would have to pay for 1000 acres or more. This section of California is in what is known as the "proven Orange and Olive belt" where the best Olives and the earliest and best Oranges in the State are grown. Oranges are marketed from this section from six weeks to two months earlier than the Southern California district, thus bringing the best prices.

Crops are never bothered by frosts as they are in the South. The first Orange tree ever planted in California is in this district and is still bearing fruit, and standing as a monument to the adaptability of Butte County soil and climate to the growth of Citrus Fruits. You can grow almost anything here and it is easier to tell you what you can not grow than what you can. Cut out Pineapple, Coconuts and Bananas and you will about have the list. The property I am offering is located at Palermo, Butte County, and is 1/4 mile from the Western Pacific Railroad, one mile from the Southern Pacific Station and three miles from the Northern Electric, thus affording the best of transportation facilities.

The land is comparatively level and is ready for the plow; no rocks, stumps or brush on the land. There is an Olive grove directly across the road from the property that is worth today \$1,000 or more per acre. There is plenty of water for irrigation.

Good school on corner opposite tract. In fact there are so many advantages possessed by this tract and locality that it is impossible to enumerate them here.

As stated above I propose to sell these "Small Farms" at Wholesale Prices and give the purchaser the benefits of all commissions which are usually paid to agents. I own the property and it is all paid for as the abstract which I have with me will show. Furthermore I want some of my buyers to see the property so that they can tell people just what a bargain they got, and will give to the first five persons purchasing tracts, a round trip ticket, including berth and meals (by steamer) to San Francisco and return which can be used at any time within one year. For reference as to my reliability I will refer you to any reputable business man in Juneau, Seattle or San Francisco. This is an exceptional offer and one that will net you great returns. Buy a tract for your boy or girl and let it lay for five years as an investment. Land not as good as this is today selling in Southern California for from \$500 to \$600 per acre. I have only a limited number of tracts for sale. PRICE \$100 PER ACRE. TERMS: \$35 PER ACRE DOWN.

Balance in three equal payments, with privilege of paying off indebtedness any time before due. Interest 6%. FIVE PERCENT DISCOUNT FOR CASH.
