Yokels Defeat Peddlers

There was another game of baseball in Juneau yesterday which escaped the honorable attention of some 10,000 or 15,000 people living on the Channel.

It was a supreme, nerve-racking, intensely exciting and intentionally exhilarating test of the old-diamond prowess of two aggregations known as the Yokels and The Peddlers. The Yokels triumphed after 7 innings of play, driving Reno Cosgrove from the rubber by scoring five runs on one hit and eight errors. Prior to Mr. Cosgrove's sally into the pitcher's box, the score was a tie, 6 to 6. The final result was 11 to 6, with the abused Peddlers on the short end of the score. Features of the game included Browster's stead work in the pinches, Oscar Hart's great overcoat stop, Cosgrove's pepper and Jerry Gallagher's sensational catch at first. Blackstone Ziegler did good work for the Peddlers until the fatal seventh. Wells umpired.

The teams lined up as follows:
Peddlers—Taylor, c; Cosgrove, c; 2b.; Gillis, c. ss.; Cosgrove, p. 2b.; Ziegler, p; Jordan, 1b; Morris, 1b; Gallagher, 1b; Thomas, 2b.; Hain, 3b; Smith, 1f, ss.
Yokels—Jones, c. cf; Jameson, c; Brewster, p; Woodard, 1b.; Naud, 2b; Van Mavern, ss.; Hart, 3b.

Rain Hurt Sunday Fishing

The heavy rains of Saturday night, which muddled the waters of the favorite trout streams, kept the fish from biting yesterday, according to a number of anglers who returned with empty baskets. There was absolutely "no biting" at the streams near Juneau, and fishers who went farther brought back the same hard-luck tale.

Next Shoot Tuesday

The next shoot of the Juneau Gun Club will be tomorrow evening, on the Wiloughby avenue trap range. Secretary Fred Berger, of the local gun club, has made up a list of secret handicaps, which the club shooters will compete for the handsome trophy hang up by George Garrison, of the Union Metallic Cartridge-Remington Arms Company.

"Wait For Sunshine"

The fans who braved yesterday's weather to witness the ball game have been asking the managers of the teams to wait until the sunshine arrives before playing another game. They argue that owing to the inconsistency of the weather man's dope, that the arrangement should be understood that the teams would play when it is bright and clear, instead of scheduling the game ahead, and passing up good weather for bad.

Organize Rifle Clubs

Thane has organized a rifle club, and it is believed Juneau and Treadwell will follow suit. Ammunition is given to all rifle clubs affiliated with the National Association, at a minimum cost. Congress has arranged this in order to stimulate marksmanship all over the United States. In some States rifle clubs are given the old Krag rifles, free of charge, where the men do not care to join the national guard.

The Baseball Game

Juneau spoiled two double plays for Treadwell by sliding into second. Redmond once had to stop over King, and lost his throw as a consequence. Both teams have shown a lot of the inside stuff lately.

Both infields played high-class ball yesterday. Callan's work was particularly bright, having five assists without a miscue.

There was some betting, but it was under cover. The fans prefer no betting, especially opposing betting by the players.

Brockel, Juneau's new infielder, showed up well at second, but could not connect safely yesterday. He is big and strong, and works hard.

Lewis and King seem to have the number of ambitious base runners. There were very few burglaries of the sort yesterday.

Kerla, Redmond, Wood and Dutton alone particularly well with the stick yesterday, while Rose, Callan, Baxter and King piled up Juneau's five hits. Treadwell got one more safety than their opponents.

BUNNELL PREDICTS BOOM FOR ALASKA COPPER INDUSTRY

FAIRBANKS, May 17.—During the last few weeks the soaring of the copper quotations has caused considerable comment in Fairbanks, and all who have any interest in copper properties in Alaska are rejoicing. The most recent quotations show that copper is selling at 29 cents now, which is the highest selling figure reached in years. Among the closest observers of the copper market is Judge Bunnell, who for many years resided in the Third Judicial division, where some of the largest copper properties in the country are situated. Last night, Judge Bunnell, in talking of copper, said he expected to see the Prince William sound country and the other copper centers boom for the next few years, owing to the European conflict. The demand for copper is greater now than it has been at any time since war was declared last summer, and it seems to be increasing daily.

Judge Bunnell thinks that the demand for smelters on Prince William Sound will be so great in the next

few years, that it will be absolutely necessary to extend the government railroad or some railroad, from the coal field to Valdez or some nearby point, in order that coal may be had at a reasonable figure for the smelters, which must inevitably be built.

At many places on Prince William Sound, there are copper properties that can be worked at a good profit while the prices are soaring, and Mr. Bunnell thinks that they will be put to work.

Even if the war should end now, the demand for copper for the next few years, will be so great that the industry in Alaska will be a winner.

Immediately after the war broke out, the bottom fell out of the copper market and those interested in copper properties were much discouraged but conditions have altered to such an extent now that those who held on are jubilant over the outlook for profits.

FAIRBANKS CANDIDATE COMING TO THE OUTSIDE

F. X. Karrer, superintendent of the Fairbanks schools, is on his way to Seattle, to see his mother, who is ill in the States. He is accompanied by his sister, Miss Anna Karrer.

Prof. Karrer is one of four candidates for the post as assistant superintendent of schools, Territory of Alaska, an office created by the last Legislature, which gave the appointive power to the Governor.

The Fairbanks Citizen says: "It is understood that Professor Karrer has been offered the city superintendency of the schools of the city of Eugene, Oregon, with a salary larger than he has been paid in Fairbanks. However, it is stated upon good authority that Professor Karrer intends to return here and take up his duties again, having received his appointment for next year at the hands of the school board."
