SATURDAY

"Manhunt in the Jungle" records on film the exciting details of the 1928 George Dyott expedition into the Amazon jungles in search of explorer P. H. Fawcett who had disappeared in 1925 while seeking a lost ancient city.

Filmed entirely in the Amazon country, the jungle, river and desert scenes should prove highly interesting.

SUNDAY AND MONDAY

From the Max Schulman story of the same name, "Rally Round the Flag, Boys", ribs sex, satellites and the station-wagon set. In it are

contained wandering wives and straying males, secret missiles and not-so-secret love-making.

This is a Twentieth Century-Fox CinemaScope, De Luxe Color comedy, with a fine cast including Paul Newman, Joanne Woodward, Joan Collins and Jack Carson.

TUESDAY AND WEDNESDAY

"Diamond Safari" is another movie with a jungle background, and includes African witch doctors, a man-eating lion gone berserk, throbbing native drums and dances.

Kevin McCarthy stars as Harry Jordon, special investigator for a diamond syndicate, follows a trail of adventures which takes him into Johannesburg, the diamond mines of Rhodesia, South Africa, and the jungles of Rhodesia.

Also on the same bill is "Show-down at Boothill." Taut, action-

packed Western, the story of a deadly gunman obsessed by his small size to the extent of becoming a bounty hunter—a man on the right side of the law but hated by everyone.

THURSDAY AND FRIDAY

"A Streetcar Named Desire," the winner of five Academy Awards and a Pulitzer Prize, and said to be Marlon Brando's greatest hit, is vividly realistic fare. A fine cast including Brando, Vivien Leigh, Kim Hunter and Karl Malden portray the principal characters in this Tennessee Williams play of the disintegration of a Southern woman in the New Orleans French Quarter.

reduce class load to 25 pupils or under wherever possible; grouping within classes on the basis of ability and needs; offering special opportunities whenever possible—three third grade students are taking beginning French and music with the fourth graders—and providing instructional material in each classroom commensurate with the range of abilities and interests of the class.

We recognize that no one method of organization can be termed as "best", but we cannot escape the fact of individual differences nor the necessity for coping with them. Though the educational patterns may differ, the goals remain the same for all; enabling each young person to go as far as his aptitude will permit in fundamental knowledge and skills and motivating him to continue his own self-development to the fullest.
