

Hunters Allowed 2 Deer of Either Sex Waterfowl Hunt Season Opens Sept. 1 As Fall Season Opens—Closes Nov. 30

The 1960 deer and elk season opened in this area last Saturday. The deer season runs through November 30. Two deer of either sex may be taken.

The elk season is August 20 through October 15. One of either sex is allowed in the area east of a line from Seal Bay to Saposa Bay, known as the Tonki Cape area. The remainder of Unit 8 is September 1 through September 30. One of either sex may be taken, according to Alaska Department of Fish and Game, but antlerless elk may be taken only during the period of September 1 through September 30 in this area.

The brown bear season has been advanced to open on September 1 on that part of Kodiak Island which lies northeast of the Kodiak Wildlife Refuge Boundary.

All hunters are requested to turn in the lower jaw of elk and deer to the Alaska Department of Fish and Game or the Base game warden. Blank forms have been distributed to various key points for the hunters to use in giving big game kill data. This information is necessary to properly manage the big game herds, biologists of the Department stated.

The game officials point out that part 302.03 of the Alaska Game regulations, Subsection (b), has been amended to provide that nonresident big game tags issued and not used for a particular species of animal may be utilized to

satisfy the tagging requirements for any other species of animal for which the tag fee is of equal or lesser value, but only for the year in which the tag is purchased.

Where the taking of two or more animals of any big game species is permitted, nonresident hunters are required to have a big game tag for each of such animals taken.

The deer and goat season opened in all management units on August 20. Population of both animals is large and the prospects for high hunter success are excellent, according to Jim Brooks, Chief, Division of Game, Alaska Department of Fish and Game.

Dates for hunting wild ducks, harlequin, old-squaw, scoter and geese, coots and brant in Alaska during the 1960 season, as selected by the new state, will be from September 1 through December 3, the Department of the Interior announced this week.

The season for Wilson's snipe will open on September 1 and end on October 15.

These season dates are the same as in 1959. Shooting hours will be from one-half hour before sunrise until sunset on all species.

Bag and possession limits will be as follows:

Ducks: Daily bag of 5 and possession limit of 10; in addition, a daily bag of 10 and a possession limit of 20, singly or in the aggregate of the following species: eider,

sion, singly or in the aggregate, may be Canada geese or white-fronted geese, or subspecies of Canada or white-fronted geese.

Brant: Daily bag and possession limit of 3; Coots: Daily bag and possession limit of 15; Wilson's Snipe: Daily bag and possession limit of 8.

Hunters Table Of Sunrises-Sunsets

A table indicating the time the sun rises and sets is given here-with for the convenience of migratory bird hunters in the Kodiak area.

Shooting hours are from one-half hour before sunrise to sunset. The table will be published monthly during the hunting season. It is suggested hunters clip these tables for ready reference.

Sept.	Sunrise	Sunset
1	5:08	7:10
2	5:10	7:08
3	5:12	7:05
4	5:15	7:02
5	5:17	7:00

CHEVY'S CORVAIR

**THE YEAR'S
AWARD-WINNINGEST CAR**

Corvair—already proud winner of Motor Trend magazine's Car-of-the-Year award for engineering advancement—now walks away with another one: the coveted Industrial Designers Institute Gold Medal. The award was presented to William L. Mitchell, General Motors vice president in charge of Styling Staff, in recognition of Corvair's "finely scaled proportions, with a minimum of ornamentation." Your Chevy dealer's waiting to show you Corvair's everything the experts say it is.
