Pilgrim Springs Mission Exhibit Is Interesting

Interesting and unusual is the exhibit at the Fair of the articles made by the children at the Mission School at Pilgrim Springs.

Among the fine pieces of work displayed are several greeting cards and calendars delicately decorated with pussy-willow figures and with tiny houses fashioned with bits of bark.

Of especial interest is an Eskimo coverlet made by a child only seven years old. Other articles showing especially fine workmanship are: a dog sled, airplanes, a tiny carved ptarmigan, Eskimo dolls, fur work, some excellent freehand drawings and the fine needlework for which the Mission is famed.

As a whole the Mission display is outstanding. While none of the articles on exhibit are for sale, anyone desiring duplicates may have same by dropping a line to the Pilgrim Springs Mission.

Coal Strike Is Declared Thru out The Nation

(By The Associated Press)
NEW YORK, April 2. — Hundreds of soft coal mines throughout the nation closed today as the miners strike began, affecting 462,000 workers, who demand time and a half overtime, the subject which has provided the principal stumbling block to settlement.

Presidential intervention is likely if the strike lasts more than a few days. There is enough coal supplies above ground now to last for thirty days.

The strike is the largest since the week strike of two years ago. John L. Lewis, head of the United Mine Workers said the operators had asked for more time to consider the demands.

Negotiations began February 17th. The miners also want 50 cents in daily pay increase, to bring their wages to \$5.50 a day.
