COMPANION

A Good Watch Man's Best Friend

A good watch in good trim is a true companion. But a good watch in bad trim is an unreliable companion.

A good many who have very fine watches frequently say "my watch is no good," and the whole blame is laid on the faithful watch which tries its best. If the truth is told people are kept in darkness by some unreliable watchmaker. With right attention by a man who is a thorough watchmaker the watch will keep time with the sun.

We are thorough watchmakers and all work we turn out we guarantee to be in good condition. Bring your watches and jewelry to us and we will put them in good trim at reasonable charges.

Examining eyes and grinding glasses to perfection is our specialty.

Keep your valuables in a safe place by renting one of our steel safe deposit boxes.
