Street improvements continue on North Third. With the assistance of Mr. Osborn, H street has been opened up between Third and Fourth up to the Mission. The new gravel road promises to be more durable and cheaper than planking, and then the government has not yet put a tax on the gravel banks.

Joe Potts is again in Alaska. He blew into Douglas last week from the Sound country, where he has been for several years. We say that he blew in, but he claims that he came direct from Mars in his airship, "Happy Hooligan." In his travels Joe has lost the Carnation Cream can, but he desires to announce that regular services will be held just the same at the usual time and place, and requests that all brethren be on hand promptly. Joe has gone up to Juneau, where he will organize a branch, but Douglas may expect him back at any time.

Wickersham Leads

The delegate election in Douglas yesterday was remarkable for the small vote cast. Only 167 voters exercised their right of franchise. Hundreds staid away from the polls, apparently indifferent as to the outcome. In the first district 115 votes were cast, and 52 in the second.

Returns from other localities indicate a light vote, but also a good lead for James Wickersham, the present delegate.

Jennings democrats have about given up and the contest has settled down to two candidates, Wickersham and Gilmore, with the former in the lead. Many have expressed surprise at the vote given Krauzunas, the socialist candidate.

Nome is the hope of the Gilmore republicans and returns are dependent on the wireless.

As far as we have been able to learn at the time of going to press the vote stands as given below. It will probably be almost a week before some of the outlying precincts can be heard from.

Accident at Mine

Last Saturday night an accident occurred at the Treadwell mine that cost the lives of two men, Anton V. Lindstrom and John E. Carlsson. Just how or why the accident happened is not known. Both of the men were good miners, skilled in the handling of powder. The last known of the men they were lighting their fuse, an explosion came, men rushed to the scene and found both men terribly blasted so that death came instantly.

Anton V. Lindstrom was a native of Foglo, Aland, Finland, aged 34 years, 8 months and 5 days. He leaves a wife and five children to mourn his loss. Mrs. Brie, who is visiting in Haines, sent a shipment of the famous Haines strawberries down to Mr. Brie, Monday, on the Georgia. Mr. Brie was kind to his friends, and we can say they were splendid. The Haines berry man has about four acres of strawberries, which grow large and fine and yield him good returns. He ships them as far as Dawson.
