MEMORIAL TO BE HELD NEXT SUNDAY 3 P. M.

The committee appointed by Mayor Suter to make arrangements for the memorial services in honor of the dead of the steamer Princess Sophia met last evening with Leroy Tozier at his offices. Those composing the committee are Councilmen Ben Sherman, George Johnson and A. L. Wilbur.

It was decided at the meeting to hold a joint memorial in honor of those who perished on the Princess Sophia and in the wreck of the launch Flyer and also for the boys who died at the cantonments Outside.

The services will be held under the auspices of the City of Fairbanks and will be non-denominational in nature. Every fraternal organization and church will be extended an invitation to participate. A program has been outlined, which, on being completed, will be given to the public. Eagle hall will be secured and the hour will be at 3 o'clock Sunday afternoon, November 3rd.

STAMPEDE ON TO WEST FORK

Late arrivals from the Tolovana country state that there is a stampede on in the West Fork country, the discoveries having been made on the Fork itself.

At the present time about ten outfits are engaged in sinking to bed-rock and it is stated that about half of Brooks is going to be on the ground before many days. Some time ago it was prognosticated by members of a geological survey that gold would be found in this vicinity as all indications of a gold bearing strata had been found. The late discovery bears out the statement. Those who are interested in the new discovery believe that another good paystreak will be uncovered.

NO MAIL CAME LAST EVENING

An auto of the Gibson-Sheldon line arrived yesterday afternoon from Rapids. It was expected that a shipment of mail would be on board but the stage came in light.

The mail had not arrived at that place up to the time of the departure and Gibson came on. It is reported that Sheldon is awaiting the shipment at the next station beyond. Contractor Brower is bringing in a heavy mail with horses and as soon as it is transferred to the Sheldon stage it will be rushed to Fairbanks.

CUMMINGS CHILDREN ARE REPORTED TO BE BETTER

W. P. Cummings recently received a telegram stating that two of his children had recovered from the attack of influenza. The third, the baby, is still under the grip of the disease but hopes for its recovery are entertained. Mr. Cummings is in the employ of the Engineering commission at Happy.

THIS EVE IS ONE OF MIRTH

This eve is Hallowe'en. Upon this night mirth and revelry among the younger people is supposed to prevail. In the past it has been the custom of those more mischievously inclined to remove gates, wagons or anything movable, to distant parts from their original location, leaving the owner the pleasant task of finding and restoring them to their proper places.

Hallowe'en is the name popularly given to the eve or vigil of All Hallow's, or festival of All Saints, which falls on the first of November, Hallowe'en being the evening of the 31st of October. The fireside revelries usually observed on that evening are the survivals of the festival of Pomona, on the first of November.

TOLOVANA MAIL IN LAST NIGHT

Mail from the Tolovana arrived last night in charge of Contractor Carl White. The trail between the Tolovana country and Olnes is in poor condition at the present time, being very rough and frozen hard.

Accompanying the pack train which brot the mail were Tom McKinnon, Walter Fisher and Otto Arndt, all of whom came to Fairbanks on business. The next shipment of mail for that camp will leave on Wednesday, November 6th.

HUNTING PARTY HAS RETURNED TO TOWN

The hunting party composed of Rev. H. H. Lumpkin and M. D. Snodgrass returned to town yesterday after several days spent in the Delta country. They report getting the limit on caribou but could not secure the carcass of a sheep, that game being scarce.

James McPike, of Gilmore, is in town on a short visit. G. M. Johnson is among the late arrivals.

INVESTIGATION OF WRECK IS DELAYED; WORK IDENTIFYING VICTIMS PROGRESSING WELL

JUNEAU, Oct. 30.—The last words from the Sophia are reported direct from the officers of the lighthouse tender Cedar as follows: "For God's sake hurry. Water entering room. Just time to say good bye." The message was flashed to the Cedar as it battled with the huge waves in its attempt to reach the foundering Sophia. No doubt as the last message was flashed the water reached the electrical apparatus and put the wireless out of commission.

The officers of the Cedar thought that the wireless operator of the Sophia was excited and that there was no danger of the Sophia sinking. They attempted to calm him and said, "We are coming. Save your juice to guide us." The storm drove the Cedar back and as no reply could be aroused from the Sophia it is assumed that it went down just after the last message was flashed.

The body of John F. Pugh was found on the shore of Douglas Island, far to the south of the scene of the disaster. It is believed that other bodies are still floating about the nearby waters.

When found W. J. O'Brien of Yukon territory legislature had a small con clasped in his arms showing that in those last grim moments the father did his best to save his son.

UNABLE TO INVESTIGATE WRECK.

SEATTLE, Oct. 30.—The steamboat inspectors of the United States report that they are unable to investigate the wreck of the Sophia because the ship was a Canadian carrier. The inspectors said that special action on the part of congress is necessary that they may investigate the wreck. The action which must be taken is similar to that which was taken when the Titanic went down and is necessary when any American is lost on a British boat.

In addition to the list previously published the following are reported to have been identified at Juneau: CHARLES G. BEADLE, purser of the Sophia. MRS. JOHN BEATON, Bharod. JOHN McLEOD, Vancouver. A. D. PRATT, Fairbanks. U. G. MYERS, formerly U. S. commissioner at Eagle.

MRS. TACKSTROM WAS FRIEND OF LITTLE ORPHANS

Mrs. O. E. Tackstrom, of Ruby, and one of the victims of the foundering of the Princess Sophia, was the Ruby representative of the Alaska Committee for the Fatherless Children of France, and thru her efforts many fatherless little ones have been provided for. During the first part of this year Mrs. Tackstrom sent, on behalf of the Ruby Sunday school, seventy-three dollars for the support of two French orphans for one year, sending several amounts for the fund later, and only last week the chairman of the fund received the second seventy-three dollars for the support of the children for the second year. Accompanying the money order was the following letter from Mrs. Tackstrom:

"As a last effort, before leaving for the Outside, I am enclosing P. M. O. for \$73.00 which is to support the first two French orphans adopted by the Ruby Sunday school for another year.

"I hope to be able to do my share toward the support of the French orphans and the Red Cross when we get established, and will write you where we will be located. Mr. Tackstrom is still interested in the lumber business here and will come back to Ruby for the summer. It is doubtful if I ever return, as I want to get the children into the schools."

Never ceasing were her thoughts for those in distress far over the seas, and tho the orphans may never know the name of the beautiful, stately, kind and generous-hearted woman thru whose efforts they are enjoying a few of the necessities of life, she will ever live in the hearts and affections of those who knew and loved her in this great Northland.

BALL PLAYER IS AMONG MISSING

Among the names of those identified of the dead recovered from the wreck of the Princess Sophia appears that of William Albert Smith. Smith will be remembered by the people of Fairbanks as the peppery young catcher of the Fairbanks team, better known as "Smithy." The young man was on his way Outside to enlist.

The identifying of the young man helped clear up the doubt existing as to whether the "George Howey" mentioned among the missing is not John Howie, the Fairbanks carpenter. Howie is the grandfather of Smith and took the same boat out of Fairbanks as did the young man. It is assumed that they traveled together to the states and undoubtedly both were on the ill-fated boat at the time of the sinking.

E. B. Collins, of Fox, is among the city visitors.

Jack Carter is among the city visitors.
