

I. W. W. THREATENING TROUBLE COAL MINERS ACCEPT NEGOTIATION PROPOSAL

OUTSIDE WINTER MAIL SERVICE COMMENCES TODAY

The overland mail service to the States under the new once a week schedule commenced today. The first outgoing dispatch is expected to close at the postoffice at 5 p. m. this evening. Although the first shipment is to leave on Saturday, Postmaster Walsh says this not determined that Saturday will be the day of departure through out the winter period. As the time of dispatching outgoing shipments is to a great extent dependent on how incoming mails run, the exact day will not be fixed until matters are more clearly determined.

JEWEL GUARD TO MAKE LATE TRIP TO TELLER SECTION

The schooner Jewel Guard will make another trip to Teller with supplies for the O'Leary and Halpin companies at Lost River and Teller, despite the extreme lateness of the season, according to an announcement made by Rev. Wm. F. Baldwin, agent of the vessel, which belongs to the Methodist mission. The vessel recently completed one of the latest trips of many years to the Teller section under a charter to Messrs. Halpin and O'Leary. It is expected that the schooner will get away today. The schooner Rupert has also been chartered by the same concerns to convey freight to the Fort Clarence section.

PIONEERS IGLOO HOTEL

The Pioneer Igloo will be kept open during the winter. Rooms by the day, week, or month.
MRS. MONAHAN, Manager.

NOME ASSISTING ROOSEVELT MEMORIAL MOVEMENT

Under the management and direction of Mr. Fred Harrison, a campaign is in progress locally aimed at securing contributions to the Theodore Roosevelt Memorial Fund, which will be devoted to establishing a fitting memorial to that great American Theodore Roosevelt. The sum sought for this commendable purpose is \$15,000,000 with which it is proposed to erect a memorial building at Washington, D. C. and also establish a national memorial park at Oyster Bay, L. I. In the event of the full sum being secured, it is also planned to use a portion of the fund for the endowment of a university for the teaching of Americanism.

The movement in this direction was started shortly after Col. Roosevelt's death and resulted in the establishment of what is known as the "Roosevelt Memorial Association," with former President Wm. Howard Taft and former Supreme Court Justice Chas. E. Hughes as Honorary Presidents and Henry Cabot Lodge, Jno. Mitchell, Hiram W. Johnson, John T. King as Honorary Vice Presidents. Wm. Boyace Thompson is the active head of the association and Wm. Loeb Jr. vice president. Albert H. Wiggins is Treasurer and Harry M. Blair, Secretary.

Closely following the announcement of the proposal to raise a fund to establish a memorial expressive of the regard in which Col. Roosevelt was held by the American people, the movement speedily assumed a national aspect and culminated in the organization of the Memorial Association and a decision to conduct a National campaign between October 29 and 27 to raise the required funds through "tree will", or voluntary offerings. Owing to the departure of Mr. G. J. Loman, who previously had charge of the local campaign, the movement fell into abeyance here until the appointment of Mr. Harrison to the chairmanship on November 10th. As the campaign in the States was over by that date the local campaign period was extended until November 15 in order to give the citizens of Nome full opportunity to help in the movement and (Continued on Page Eight)

I. W. W. FLOCKING TO WESTERN WASHINGTON TOWNS; BELIEVED RADICALS PLANNING DESTRUCTION

SEATTLE, Nov. 15.—I. W. W. are flocking by hundreds into the towns and cities of Western Washington in evident expectation of creating further disturbances.

Reports from every section of the logging districts indicate that a general exodus of I. W. W. from the Western Washington logging camps toward the nearest cities has been in progress since the recent shooting at Centralia.

Throughout the logging districts, the loggers of I. W. W. inclinations are leaving their jobs in increasing numbers daily. Whether or not the movement is in accordance with a previously conceived plan is not determined. It is believed, however, that the exodus from the camps is the prelude to further disturbances and the authorities of practically every town in the logging district are taking precautions.

In a number of instances the exodus has led to the establishment of a form of co-operation between the officials of the various logging camps and the police departments of the various towns, with the result that the deposits and roads leading into a majority of the towns in the western part of the state are under police surveillance. Under the surveillance system adopted by the towns, the I. W. W. will not be permitted to stop. Owing to the prospect that a great number will come to Seattle, the police department is being increased by the employment of numerous additional policemen.

The belief is held in many quarters that the I. W. W. are secretly planning to start serious trouble.

Spokane Guardsmen Mobilized to Meet Expected I. W. W. Invasion

SPOKANE, Nov. 15.—The local National Guard forces are being mobilized this evening and the members of the American Legion post, all of whom are war veterans, are being sworn in as special policemen this evening as a precaution against a prospective invasion of thousands of Industrial Workers of the World, who are said in reports arriving here from numerous points, to be in progress in this direction from many parts of the Northwest. Reports reaching the officials of the American Legion say the I. W. W. are leaving their employment in the logging camps in hundreds with an apparent intention of creating trouble. The exodus from the logging camps is said to have commenced immediately after the Centralia massacre.

It is the almost universal view here that the I. W. W. are planning serious mischief and every precaution is being taken to prevent them from inaugurating a campaign of terrorism and destruction of property.

Coming on the heels of the reports concerning the logging camp strikes, the American Legion headquarters here received this afternoon a typewritten letter which closed with the signature:

"Industrial Workers of the World Managing Secretary," and threatens the lives of nine officers and members of the local post of the Legion. The letter names each of the nine members, and displays a deeply venomous spirit toward the American Legion and all soldiers.

"We have them marked all over the country," the letter declares in referring to the Legion. "We got the Centralia bunch and the following men will get theirs too unless you instruct them to lay off."

The reported invasion is causing serious apprehension throughout the state owing to the fear that the I. W. W. may commence a campaign of terrorism by wholesale destruction of property. Both city, county and state officials are preparing to undertake drastic measures if the radicals display an inclination in this direction. The city officials announced today that preparations are being made to arrest all who arrive here who are unable to give a satisfactory explanation of their presence.

BOLSHEVIKI AGENTS ARRIVING VIA MEXICO

WASHINGTON, Nov. 15.—Government agents have discovered that large numbers of Bolsheviki agents from Soviet Russia are coming into the United States by way of Mexico, according to statement by secret service officials today.

The secret service has learned that many of the alleged Bolsheviki representatives have crossed the Mexican border within recent weeks. Owing to their inability to enter the United States through the customary channels, the Soviet representatives are apparently journeying to Mexico from whence they make their way over the border. Evidences of the secret passing of a considerable number of Russians over the boundary have been secured by the secret service. In several instances it has been discovered that the surreptitious arrivals are here for the purpose of spreading Bolsheviki propaganda.

BOLSHEVIKI CAPTURE TOWN OF OMSK

LONDON, Nov. 15.—The important town of Omsk, situated in Western Siberia and until recently the seat of the Siberian independent government, has been captured by the Bolsheviki forces operating in that section, according to official information reaching London today through the medium of an official Bolsheviki communication wirelessly from Moscow.

The message asserts that the Bolsheviki forces are in complete possession of Omsk and also control the remainder of the Siberian province in which the community is situated.

COAL MINERS AGREE TO ACCEPT STRIKE SETTLEMENT PLAN

WASHINGTON, Nov. 15.—Prospects for an early settlement of the coal strike are contained in the announcement of the United Mine Workers' leaders that the unions have accepted the proposal made by Secretary Wilson of the Department of Labor that the wage question be settled by means of negotiations aiming at a nation wide wage scale agreement.

Acceptance without qualification by the mine workers of the Wilson proposal was announced today by Lewis, the acting president of the United Mine Workers.

Department of Labor officials are of the view that the inauguration of negotiations looking to the establishment of a nation wide wage scale agreement will speedily result in a victory of the miners.

RED CROSS SUCCEEDS IN ROLL CALL DRIVE

The results of the third annual Roll Call campaign of the Red Cross in Nome are not only considerably better than anticipated but also surpassed in a considerable degree those of last year, according to Mr. A. B. Miller who has been directing the campaign this year, assisted by an unusually industrious and energetic aggregation of committees.

Mr. Miller says the response of the Nome public to the effort to secure members has been excellent, despite the fact that the campaign period occurred at an unfortunate time owing to the departure of the last boat in what was practically the middle of the organized period. Because of the rush and press of business at this time, the local officials were not overly sanguine regarding the outlook this year and are accordingly surprised as well as pleased at the excellent results attained. As the drive is still open on special authority until the reports from the outlying districts are received, there is also an excellent prospect that the present returns will be considerably increased by the close of the campaign.

As far as can be ascertained at present the local drive has yielded subscriptions amounting to about \$300. This is considerably more than was realized during the Christmas Roll Call period last year. The amount collected for subscription at that time was \$198, making the gain for this year approximately \$100.

Mr. Miller says credit for the splendid success of the drive here is due almost entirely to the excellent work of the ladies committee, the members of which canvassed the city during the past week.

The committee, composed of the Misses Cranham, Barbara Haering, Marion Bachelder, Emily Polat, Carrie Johnson, Helen Moore and Mrs. T. H. Lehmann, worked in pairs and secured many new subscriptions, in addition to renewing the subscriptions of numerous old members.

In relating the excellent achievements of the canvassers, Mr. Miller said he voices the sentiment of the executive committee and officers in attributing the success attained principally to the members of the ladies committee, all of whom labored with the greatest industry and perseverance and are more than entitled to the praise and thanks the officials gladly extend.

RUPERT SAILS ON LATE TRIP

J. J. O'Leary, head of the Great Northwestern Mining and Development Company, has chartered the Winkler launch Rupert for a trip to Fort Clarence with much needed supplies. The vessel was affected Thursday. The Rupert was headed up for the winter a few days ago but was again placed in commission Friday.

A WORD TO THE WISE

With the holidays drawing near, it would seem a fitting time for the wise-wake merchant to look over his list of holiday commodities and commence his holiday advertising campaign. Some people are so fortunately constituted that they find no difficulty in selecting the assortment of gifts they intend to bestow on relatives or friends, but to the great majority the question of what to get is almost invariably a puzzling and sometimes a vexing one. In the absence of suggestions, it is clear that most people will put off their holiday purchases until the last moment from sheer inability to think of what they wish to buy. This means a rush for presents within the last two or three days and a part of an unnecessary trial to the purchaser of a severe strain on the nerves. The absence of the business houses. All this can be avoided, the correct and value of sales can be increased and the X-Mas problem of what to get can be made a pleasure for the purchaser if the merchant will take a few minutes of holiday time to advertise his goods in the Nome Nugget. A. Schaefer, 150 Broadway, is the only one who can be counted on to do this in advance of the holiday period.

FIRST SOCIAL FUNCTION

The ladies of St. Joseph's church congregation are planning to hold a public card social on the evening of Friday, Nov. 21, and a committee is already at work on the ballad preparations. The entertainment will be the first social function of that character to occur during the winter season and will undoubtedly attract a generous attendance. A small admission will be charged to defray expenses, cost of prizes, etc. Eight tickets which is designated as the hour at which the program will commence.

CARD PARTY

The Catholic Ladies' Alter Society will give a Card Party at St. Joseph's Hall, Friday, November 21, at 8:30 p. m. Admission 50 cents.
