A. F. L. DECLARES COAL WALKOUT JUSTIFIED

WASH., Nov. 10.—Holding that the action of the government in securing an injunction against the striking coal miners is so autocratic as to stagger the human mind, the Executive Council of the American Federation of Labor declared in a statement issued Saturday night that the walkout of the coal miners is fully justified and within the rights of the workers granted by the laws.

The Council further declared that in view of the fact that the strike is justifiable, the Federation of Labor will support the strikers with the full resources of organized labor.

The Council also called upon the public to extend its endorsement and aid to the strikers.

The bold defiance of the government represented in the Federation declaration has caused wide astonishment in the official world and is believed to mean that organized labor is determined to go to extreme lengths in forcing a victory for the miners.

INDIANAPOLIS, Nov. 10.—President Lewis of the United Mine Workers issued an official denial last night of the current report that he had agreed to comply with the order of the court Saturday to call off the coal strike.

Washington Admits Continuance of Strike Probable

WASH., Nov. 10.—It is generally admitted in official quarters that present indications point to a continuance of the coal strike despite the injunction order obtained by the government. Officials stated today that the miners are strongly bulwarked and apparently intent on defying the government.

Wilson Declares Government Sovereignty Must be Upheld

WASH., Nov. 10.—"The situation is in the hands of the court. The sovereignty of America must be upheld."

This statement was made by the White House today relative to the coal situation and the aggressive declaration of the Federation of Labor. The statement also reiterated the readiness of the president to appoint a tribunal to undertake a settlement of the trouble if the miners comply with the court orders. It is freely predicted here that a split in the ranks of labor is not a most remote possibility. The view is held in many quarters that Congress and his conservative followers have lost control of the labor movement and that the radicals have swept the field. This is the general interpretation of the A. F. L. declaration, declaring the coal strike justified.

FIELD MARSHAL HAIG ARRIVES IN BERLIN

BERLIN, Nov. 10.—Field Marshal Sir Douglas Haig, commander of the British military forces during the war, arrived in Berlin today and was interviewed by Maximilian Harden, the famous German Socialist editor.

The British commander's arrival attracted little attention from the Berlin public despite the fact that he is the first of the chief Allied generalissimos who has visited Berlin since the close of the war. His arrival at the Berlin railway station was witnessed by a small crowd of curious persons and an array of Allied officials who are in Berlin in connection with the peace settlements.

ITALIAN FORCES CLASH WITH ANNUNZIO'S REBEL ARMY

BERGHADE, Nov. 10.—Wireless reports from the Plume section reaching Bergamo today assert that a serious clash occurred yesterday between troops of the Italian government and the forces of the so-called "Army of Liberation" led by Gabriele D'Annunzio, the noted Italian literarian whose recent audacious seizure of Plume nearly precipitated a serious conflict.

According to the advices the clash resulted in heavy casualties on both sides. Details of the incident indicate that the battle lasted throughout the day and was fought in the streets of the suburban section.

The Italian government recently sent additional forces to Plume with the intention of compelling D'Annunzio to abandon his hold on the city, although apparently loath to assume a drastic attitude toward the rebel leader on account of its possible effect on the Italian people, to whom D'Annunzio is a war hero of the most pronounced type, owing to his brilliant exploits during the war with Austria.

MINERS BACK DOWN—WILL OBEY COURT ORDER

INDIANAPOLIS, Nov. 11.—Following an all night session of the executive council of the United Coal Miners here last night, it was announced this morning that the strikers will obey the order of the federal court to withdraw the order calling the great coal strike.

At the close of the all night session this morning President Lewis announced that the committee has decided to withdraw the strike order.

"We will comply with the mandate of the court," Lewis said in making the announcement. "We do this under protest, however, despite that we feel that the strike is just, we are Americans and we cannot fight our government."

Lewis said a formal order withdrawing the strike will be presented to Judge Anderson before noon today.

The miners were in session seventeen hours, adjourning at 4 a. m. this morning until 2 p. m. this afternoon.

Strike Recall Order Presented by Miners Union

INDIANAPOLIS, Nov. 11b.—The strike recall order of the United Mine Workers officials was submitted to Judge Anderson of the federal court this morning by two officers and several members of the union. The document is addressed to all officers and members of the United Mine Workers of America and reads as follows: "DEAR SIRS AND BROTHERS:—

In obedience to the mandate, November 8th by the United States District Court, Judge Albert Anderson, president, the undersigned hereby advises you that the order of October 15, directing the cessation of mining operations in the bituminous coal fields in our jurisdiction is withdrawn and cancelled."

PALMER REPLIES TO DEFIANT STATEMENT OF A. F. L.

WASH., Nov. 10.—"The coal strike is in plain violation of a federal statute and the government is no respecter of persons in the enforcement of law. Those who conceive that the resolutions of a convention or orders of the officers of any organization in the country, whether labor organizations or any other, are superior in authority to law of the land will find themselves mistaken."

This is the reply of Attorney General Palmer in a statement issued tonight in answer to the proclamation of organized labor regarding labor's attitude toward the coal strike, as set forth in the statement issued by the Executive Council of the American Federation of Labor.

Palmer's forceful statement has apparently removed the last hope of the labor representatives here that the government will recede from its determination to proceed against the officials of the United Mine Workers in the event of refusal to accede to the demands of the injunction issued by Judge Anderson at Indianapolis.

"IRISH PRESIDENT" TO VISIT SEATTLE

LAWS AFFECTING MIGRATORY BIRDS

As there seems to be misunderstanding regarding the laws affecting migratory birds, the following information is given to the public by the Governor's office.

The migratory bird treaty act passed by Congress and approved July 3rd, 1918, is the only act now in effect governing the killing of migratory birds, or much of the act as Alaska is as follows:

Migratory birds include the following: Wild ducks, geese, swans, cranes, curlews, snipes and wading legs.

Migratory birds may be killed only with a gun, not larger than a number 4, and fired from the shoulder. They may be taken during the open season from the land or water with a blind or floating device with the aid of a dog and the use of decoys. They can not be taken with the aid or from a power boat, sail boat or any floating device towed by power boat or sail boat.

The open season in Alaska is from September 1st to December 15th, both dates inclusive.

The bag limit in any one day during the open season is as follows: Twenty five ducks in the aggregate of all kinds; eight geese in the aggregate of all kind.

Migratory birds may be transported in the Territory during the open season as provided for in the regulations.

Migratory birds cannot be offered for sale, cannot be sold, and it is unlawful to offer to purchase or purchase such birds.

Copies of the migratory bird treaty act and regulations may be secured from the Governor's office upon request.

MANY PROMINENT MEN COME OUT FOR TANLA

MAYORS, JUDGES, BANKERS, LAWYERS, DOCTORS, EDITORS AND MINISTERS INDORSE IT.

They Come Forward and Unhesitatingly Tell Suffering Humanity What Celebrated Medicine Has Done for Them.

It is seldom, indeed, that men of prominence, especially men holding high public office, willingly express their indebtedness publicly to a proprietary medicine. Many prominent men, however, including supreme court judges, mayors of our leading cities, prominent state and county officials, bankers, lawyers, doctors, editors, leading educators, government officials and even ministers of the Gospel have deemed it their duty to come forward and tell the people what Tanla has done for them.

These well-known men of affairs have recognized in this medicine a new discovery and a scientific triumph in the medical world. It is a well-known fact that these splendid endorsements have been given Tanla time and time again and they will continue to be given just as often as new tests of its power are made; and it also explains why a number of the big drug firms of the country are ordering it exclusively in carload lots.

Doctor Prescribes It

Dr. J. T. Edwards, of Fayetteville, Ga., one of the best-known members of the medical profession in the state of Georgia, makes a statement that will undoubtedly produce a profound impression throughout the country.

"In my thirty years of actual practice as a licensed physician in the state of Georgia," says Dr. Edwards, "I have never seen anything to equal Tanla as a medicine to produce results. I have no hesitancy in recommending this medicine and I am prescribing it for my patients almost every day."

Noted Texan Talks

Hon. Archie H. Anderson, ex-attorney of Harris County, Texas, is unquestionably not only one of the best lawyers, but one of the most popular men that ever held office in Texas.

He served the people in this important office for 15 consecutive years. "I had the worst form of indigestion, suffered all the time from gas on my stomach and was continually belching up undigested food," said Mr. Anderson. "I suffered with ailments of the worst sort and nothing seemed to help me except in a temporary way."

"I began to feel better after taking my first bottle of Tanla and have just now started on my third. I'm a different man already."

H. W. Hill, president of one of the leading banking institutions of South Pittsburg, Tenn., and one of the most successful bankers and business men in Tennessee, said:

"I suffered from rheumatism and other ailments for many years and Tanla has done me more good than anything I ever tried. I now wake up in the morning feeling fine."

"I'm telling all my friends about Tanla and am recommending it to them, regardless of their age and trouble."

Dr. G. W. De LaPerriere, of Winder, Ga., is not only one of the best-known physicians and druggists in the State of Georgia, but is also a man of extensive property and wide influence, ranking as one of the leading citizens of that entire section. He has been

"For years I suffered with gastritis and indigestion in the worst form. I was habitually constipated and I pined in my shoulders and head continually. My appetite left me and I was entirely and everything I would eat hurt me. Finally I got to have attacks of acute indigestion, palpitation of the heart and smothering spells. For a long time I would have one or more of those spells every night and I would wake out of my restless sleep gasping for breath."
