E. T. Haynie is circulating a petition to gain the consent of two-thirds of the patrons of this school district to permit Miss Winnie Haynie to accept the position our school board tendered her. This was necessary because Miss Haynie is a niece of T. S. Haynie who is a member of the board. The law emphatically states that no teacher related to a member of the board can take such position without securing the consent of two-thirds of the school patrons in the district. The petition is being generally signed and will practically be a unanimous affair.—Gurdon Times.
