

The Small Investor's Real Opportunity to Invest to Invest a Small Amount and Realize Large Returns Quickly and Permanently.

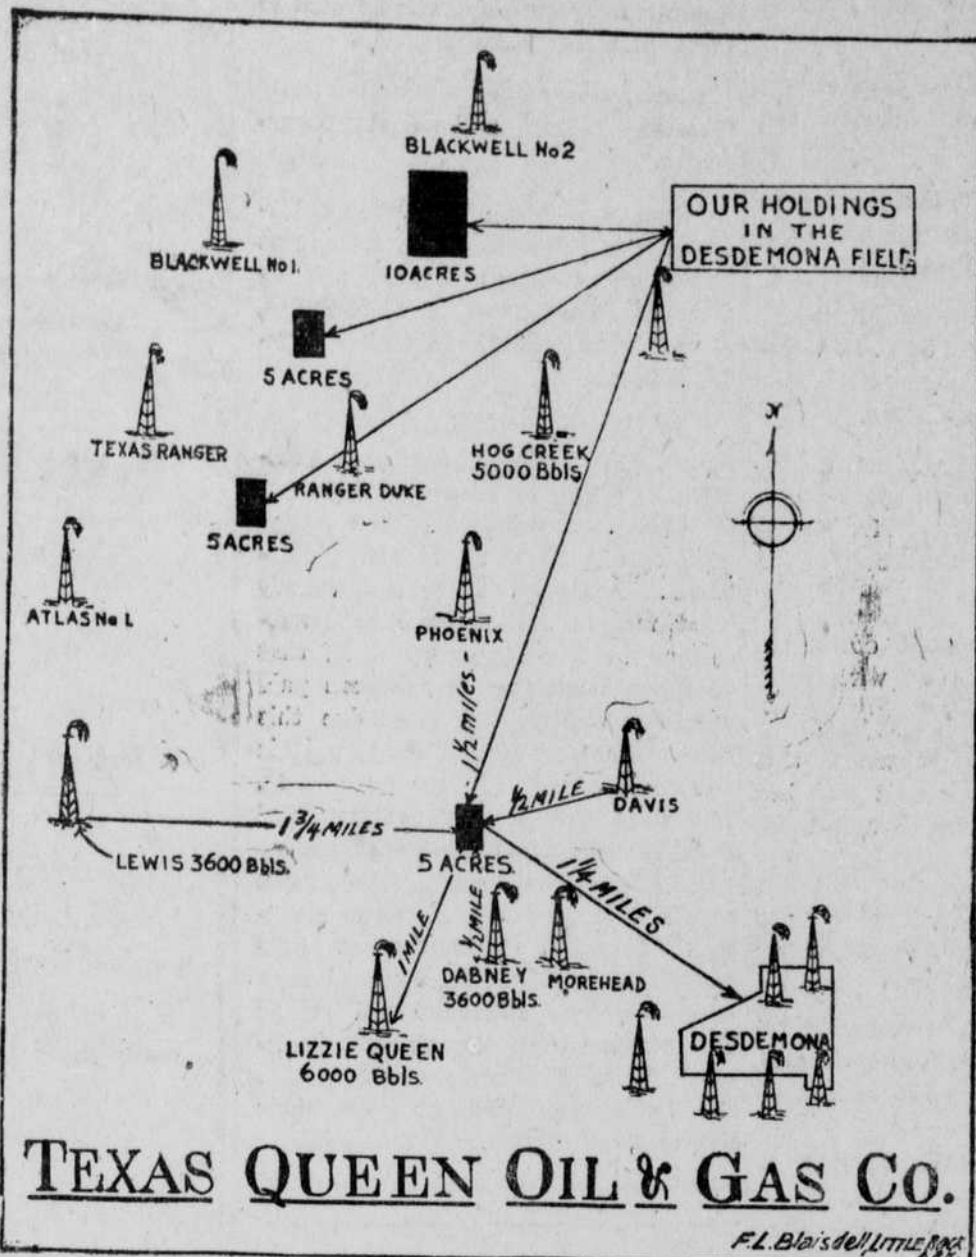

The great Desdemona Texas Oil Field is now recognized as one of the largest and most profitable oil fields in the world. Oil is one of the world's greatest necessities today and must continue to be for many years to come. The demand is constantly growing, and the supply is insufficient to meet the demand.

The Texas Queen Oil & Gas Co. is NOT a stock speculating proposition, but is a real, business-like, earnest effort to get oil in the world's best oil field. This company issues no preferred stock. All stock participates alike. No salaries paid to any officers!

Texas Queen

amount and realize large returns.
The big opportunity to invest a small

We are in this proposition for one purpose—TO GET OIL! Speculation is no part of our program. Our holdings are adjacent to the biggest oil producers in the Texas Wonder Fields.

We own Four Choice Tracts, as you will see by the map to the left. Five acres in the Desdemona field—Eastland County, Texas—"Hog Town" neighborhood. There are NO DRY HOLES IN THIS FIELD! This is where we have let a contract to drill our first well. It is one mile north of the Lizzie Queen, now producing 8,600 barrels a day. A half-mile northwest of the Dabney 3,600-barrel well, and is ENTIRELY surrounded by many other large producing wells. Two other 5-acre tracts of ours are entirely surrounded by five big producing wells, and our other 10-acre tract is midway between the Desdemona and Ranger pools, which expert oil men say is the meeting point of the Desdemona and Ranger pools, thereby making this tract wonderfully valuable.

Texas Queen

Right in the midst of biggest production! \$10 a share, fully paid—non-assessable.

There are 5,000 Americans worth a million dollars today because they invested their small means in necessities. Experience has taught that the way to get rich is to invest in necessities. Oil is an absolute necessity.

ABOVE MAP SHOWS US SURROUNDED BY BIG PRODUCTION

The officers and directors of this company are successful business men who have made a success right here in Arkansas and who back this proposition with their integrity.
