

THREE VIEWS.

A cripple was watching a showy parade. His little blind daughter leaned over his knee. There were tossing of plumes in the gay cavalcade. And glittering banners, inspiring to see.

AN ARIZONA EDITOR

Who Escapes by Dog Team From Stirred Up Dominion Authorities.

Phoenix Republican. Editor Semple formerly of the Tombstone American has been practicing journalism all along the backbone of the American continent from Dawson in the frozen north to the sunny Sonora line. In the course of his newspaper career he has acquired a great deal of experience and while in Dawson he earned the reputation of being a fearless though perhaps not a very prudent journalist.

punishment of the leaders of the mobs are few and far between. It was only within a few months that in one of the far eastern states a mob took a negro from the jail and burned him to death. Everyone in the town knew the leaders of the mob, but the grand jury refused to return any indictments.

Documents Filed for Record.

Following is a list of documents filed for record at the county seat, compiled by Abstractor Fred Dysart. F. C. Aisdorf to Mrs. F. C. Aisdorf, deed, 450, 1-6 of 4 claims in Copper Mountain district. R. V. Day locates Verick in Aravaipa district.

Will Stimulate Silver Mining.

Silver prices continue to advance steadily, quotations for bar silver at this writing being above 60 cents per ounce. Within the past year shipments of silver from London to India, China and Straits Settlements were of the value of \$5,438,040, which was a considerable increase over those of the previous year.

BROOKS' NARROW ESCAPES.

The Story of the Killing of a Negro by an Arizona Ranger.

The Republican recently printed the story of the killing of a negro at Naco by John G. Brooks, a member of the Arizona rangers. All that was known of the affair at that time was contained in a brief dispatch sent by Captain Rynning of the rangers to the governor's office. A dispatch from Naco gave the following account of the killing:

Last week the time tables of the roads east of El Paso were so changed that all trains made connections with trains No. 9 and No. 10 of the Southern Pacific. This left nothing for trains Nos. 7 and 8 but the local work between El Paso and Los Angeles, and there is not enough of this to pay for running an extra train.

The principal supply of platinum obtained in the United States comes from the placer deposits of California and Oregon in association with free gold. Plumas, Trinity, Siskiyou and Shasta counties, California, have produced considerable of this metal.

At an "old folks' reunion" recently held at Thatcher, Graham county, 100 participants, none of whom were under 60 years of age, and ranging up to within seven of the hundred year mark, sat down at one table. It was one of a great many events of similar character which it is proposed to have in the future.

Work on the best sugar factory at Glendale is progressing rapidly. The steel work is now up to the fifth story and it is thought will be completed by the end of this week. Superintendent of Construction Hanke will arrive this week. The brick work will start at once on the completion of the steel work.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age.

Passenger Service.—In effect Nov. 1, 1905. Train No. 1 leaves Clifton 7:45 a. m., arrives Longfellow 8:15 a. m., Metcalf 8:30 a. m., No. 3 leaves Clifton 3:30 p. m., arrives Longfellow 4:00 p. m., Metcalf 4:15 p. m.

Westbound passenger leaves Lorusburg at 12:05 p. m.; eastbound leaves 1:45 p. m. Trains run on Pacific time. Standard Time. Train 1 leaves Morenci 7:00 a. m., arrives at Guthrie 8:37 a. m. Train 3 leaves Morenci 1:30 p. m., arrives Guthrie 3:10 p. m.

Up-with-the-times Printing. Work done when promised is Our Motto.

Legal and Mining Blanks always on hand

Our aim is to do good work, at reasonable prices, and on short notice.

THE COPPER ERA

No Trouble To Show Goods

NEW MEXICO NEWS

W. A. Chapman last week surveyed the site for the miners' hospital to be established in Raton. The building will cost \$40,000.

The cotton gin at Carlbad was started last week on cotton farm of Ramsey Brady company at La Huerta. The yield averaged a bale and a half to the acre.

The survey of the Santa Fe Central extension from Torrence to Roswell is completed and important railroad developments may be expected by the beginning of the new year.

Col. C. C. Slaughter, the Dallas banker and ranchman, has purchased two million acres of land in New Mexico and he will add to this another slice of twenty thousand acres. Some of this land was bought at 50c per acre.

Clay McGonigle's famous cow pony, Frisky, the handsome sorrel that won so much praise from the crowds during the fair week, and which undoubtedly won first money for its expert master, has been sold to William Randolph Hearst for \$300.

A preliminary examination has been made by the engineers of the United States reclamation service of two important projects in New Mexico, known as the Honda and the Elton Lake projects. A cursory examination indicates that each project is feasible from both an engineering and financial point of view.

A bloody killing occurred last week of a stockman, W. M. McCannan of Daill, a point eighty-five miles north of Socorro, in the presence of his wife and her sister. The dead man was, it is stated, killed with his own revolver in a pistol duel between himself and Irwin Wallace, another cattleman from whom McCannan had bought a ranch about a year ago.

News from Washington is to the effect that I. B. Hanna, superintendent of forest reserves in New Mexico and Arizona, has been suspended from duty upon charges of official irregularities, one of them being that he has allowed cattle owned by his son to graze upon the Pecos forest reserve without official permit. It is understood that Mr. Hanna is now engaged in making a reply to these charges.

Specifications for completing the St. Joseph's Sanatorium, located in Silver City, are now in the hands of contractors. When this new addition is added the sanatorium will be complete, as originally planned, and will form a hollow square around the entire block. The new addition will add fifteen rooms, and will increase the capacity of the institution so that about forty patients may be accommodated. The immediate completion of the new addition is absolutely necessary in order to meet the rapidly growing demand for accommodations.

Not A Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fromont, N. C. writes. Only 50c, at all drug stores.

The Best Remedy for Croup.

[From the Atchison, Kan., Daily Globe.] This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears, and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all dealers in medicine.

The wise and virtuous people of the far east who think the people of New Mexico and Arizona are not capable of self government should inspect the penitentiary records at Santa Fe and Yuma. The Liberal has noted how the judge of the district court in Graham county recently sent a number of men to Yuma for rioting. During the past year there has been a great deal of rioting on some of the trolley lines of New England, but there has been no report that any of the rioters were sent to the penitentiary. In New Mexico a similar record has been made. Last spring some trains were tied up at Raton, by floods. The colored porters from the Pullmans got out and took in the town. One of them killed the city marshal. The murderer and several of his companions were arrested and put in the county jail. That evening a mob started for the jail to lynch the negroes. The sheriff got his prisoners away, and saved their lives. The leaders of the mob, A. C. Webber and Wm. M. Johnson were arrested for the attack on the jail. They were convicted, and last week were sent to the penitentiary for a year each. This was the first attempt in years to take prisoners out of a New Mexico jail and lynch them, and the records show the treatment of the men who led the mob was prompt and severe. It is no unusual thing to read of attacks on jails in the states, and the attempts, often successful, to lynch prisoners, but the accounts of the arrest and

punishment of the leaders of the mobs are few and far between. It was only within a few months that in one of the far eastern states a mob took a negro from the jail and burned him to death. Everyone in the town knew the leaders of the mob, but the grand jury refused to return any indictments.

New Mexico and Arizona may be far from what some of our eastern friends call the center of civilization, but the courts and the juries of these territories know how to punish rioters and lynchers. It may be that the people of the territories are too far advanced to be placed on an equality with the people of Delaware and Connecticut—Liberal.
