

**Teachers' Institute Resolutions.**

The time having arrived that our deliberations are about to close and the Teachers' Institute of 1899 becomes a matter of history it is proper and becoming of us, as teachers, to show our appreciation of the efforts put forth for our comfort and entertainment during our stay in Clifton; therefore, be it

Resolved, by the teachers of the Institute, that we extend our most sincere thanks to the people of Clifton, the Arizona Copper Co., and all who have so generously entertained us and made our visit one of pleasure and profit.

Resolved, that the thanks of the Institute are due our worthy superintendent for his vigorous, earnest and untiring efforts in behalf of the teachers who are attending.

Resolved, that the system of conducting teachers' institutes in the Territory of Arizona, as provided for by law, is expensive; that it interferes with the success of the schools; that it does not fulfill the purpose for which it was intended. Therefore, be it

Resolved, that the teachers and public schools would receive greater benefit from a normal institute held during the summer vacation at some convenient and desirable location. Therefore, be it

Resolved, that the county superintendent be requested to use his best endeavors to secure a normal institute for the teachers of Graham county, that the Teachers' Institute be held in connection therewith, and that we, the teachers of this Institute, hereby pledge to him our best efforts and co-operation in any and all of his efforts in this direction.

Resolved, that the course of study provided by the superintendent of public instruction is of great benefit and well calculated to assist the teachers in bringing about a uniform system of graded schools in the territory, and that we will follow this course of study as closely as practicable in our respective districts.

Resolved, that national control of the public schools of the United States would be of great benefit to teachers and schools of all grades, and that we would be pleased to have our representative in congress bring the subject before the proper department of the national government that the matter may become a subject of general discussion and attention throughout the country.

K. R. Casper, representing the Mining and Scientific Press, of San Francisco, was a pleasant caller at our office last Friday. Mr. Casper spent several days here and at Morenci, and quite an extensive write-up of this district may be looked for in the next issue of the Press.

Our cigars always give satisfaction.—L. W. Smith.

Have your clothes cleaned and pressed at Simms & Townsend's; opposite Hotel Clifton.

For sale—three pieces bed-room suite and dining table; good as new. Inquire at this office.

Have you seen our line of novels at 10c. each? They are by the best authors, and bound in neat paper covers.—L. W. Smith.

Mrs. A. A. Anderson and son came in from Washington, D. C., Thursday, much to the delight of A. A., who had not seen them for quite a while.

Ross Anderson, brother to A. A. Anderson, came in from the Mescalero Indian reservation, in New Mexico, last Sunday, and will locate in Clifton, having accepted a position with the A. C. Co.

Falcone & Nardelli wish us to again call the attention of the people to the

fact that the First Chance is still in the lead and that if you want to drown your troubles just call on them and get one of their hot drinks.

Jack Goodwin and family arrived from Roswell, New Mexico, last Friday, having come overland via White Oaks, St. Johns and Blue. They were on the road about a month. Mr. Goodwin is a first-class barber and may conclude to open up a shop in Clifton.

We call attention to the ad. of Frank Weise, the Morenci jeweler, in this issue. Mr. Weise has been in the jewelry and watch-making business all his life. He is not so old as he might be; but is old enough to know just what is wrong with your watch or clock and is skillful enough and has the tools to put them in first-class shape. Call on him; he is the handsomest man in Morenci.
