

**Some Big Strikes.**

From all over Arizona come reports of big strikes of ore. Mojave county is not behind her sisters in the matter of big strikes. Within ten days the biggest finds of rich ores ever opened in the country have been made. The Occident at White Hills, with six feet of \$300 ore; the Luck Boy, at Chloride, with six feet, running from \$300 to \$500; the San Francisco in Cedar district, with five feet of \$100 gold ore; the Butler, in Aubrey district, with six inches of \$500 gold ore; the Snowball in San Francisco district, with fourteen inches of \$80 gold ore; the Juno, at Chloride, with eighteen inches of 800 ounce silver ore; the Queen Bee, at Mineral Park, with very rich gold silver ore; the Tennessee at Chloride, with eleven feet of solid galena ore carrying good values in gold and silver; the Oro Plata, in Todd Basin, with three feet of ore averaging \$160 gold and 100 ounces silver. Besides these are, at Chloride, the Uncle Abe, which has just opened up a big lead-silver streak; the Midnight, with a good showing of gold ore; the Payroll, with a magnificent vein bearing gold, silver and lead. No one who knows the county should overlook the fact that our resources in minerals are boundless.—Kingman Miner.

**Copper Market.**

New York and London reports indicate confidence in the present and future conditions of the copper market. New York advices are that the market there is satisfactory to both producer

and consumer, with a good deal of export business.

An interesting feature noted is the difference in prices on the London and New York markets as compared with those of a year ago. In March of last year the selling price of spot copper in London was £71. 11s. 3d., or £2. 8s. 9d. lower than the price at the present time. In New York in March of last year copper was selling at 18 cents a pound, or 2 cents a pound higher than present quotations. So, while consumption of copper has diminished in England, prices have advanced; on the other hand, with greater consumption in the United States, copper is lower. It is a peculiar state of affairs.—L. A. Mining Review.

The Best Preparation for Chapped Hands, Face, Lips, &c.	Use Dunn's Almond Cream	Renders the
		Skin Soft and Smooth.
		Large 4 oz. Bottles 25c.
