The California seashore resorts will be unusually attractive this year. At fair Coronado a new tent city has been organized. Tents are laid out in streets along the beach in front of Hotel del Coronado. The city has electric lights, grocery store, etc. Large orchestra in attendance at pavilion every evening. Hot and cold plunge. Coronado's water piped to all parts of Tent City. Still water, surf bathing and fishing are at hand. Tents furnished and unfurnished can be rented at a reasonable charge. At Laguna Beach may be found a quiet family resort of summer homes. Cottages are for rent. Oceanside has a fine beach and is surrounded with points of interest. At Redondo extensive improvements have been made and the famous Seventh Regiment Band has been engaged for the season which insures the best of music at this delightful resort by the "Sounding Sea." This is the resort of most, game and shell hunters. Fishing from the wharves is always good. The Summer Chalet at Long Beach will be fully up to the standard; while Santa Monica will have its usual crowd of pleasure seekers. Los Angeles, the busy metropolis of Southern California, will be alive with visitors who make this their headquarters for side trips around the "Kite-Shaped Track," the beaches, Mt. Lowe, etc., etc. Spend your vacation on the Pacific Coast. Agents of the Santa Fe Route will cheerfully give you all the desired information.

There are no better pills made than DeWitt's Little Early Risers. Always prompt and certain. F. J. Watron.

ARIZONA MATTERS....

Interesting Bits of Information Gathered from All Parts of the State.

Reports from Phenix resulting from the investigation of damage by the recent drouth, the state of the orange crop has not been damaged so seriously as first reported, and there will be three-fourths of a crop.

Editor Anderson, of the Range News, has ordered a cylinder press. The News is a good reliable journal and we are glad to see the evidences of liberal patronage which that stock paper deserves. Continual prosperity to you.—Prospector.

The Tennessee mine, at Chloride, is to resume operations on a large scale. More men will be put on at once and the ground between the 400 and 500 level will be exploited in a hurry. Hereafter the ore reserves will be increased as fast as possible and prospecting of new ground will be one of the features of mining on that lode.—Miner.

Dr. R. E. Holbrook learned long ago, doubtless, that it was dangerous to "monkey with the buzz-saw," but did not know that an electric fan might be just as dangerous, until a few days ago, when he thoughtlessly put his finger in a fan, with the intention of stopping its motion. He succeeded, and as a memento has a finger cut to the bone.—Republican.

The postoffice department has under consideration a plan whereby the names of postoffices shall be placed on stamps where sold. The idea is to provide means for identification when stamps are stolen from any postoffice, and also to prevent boycotting of postmasters, a practice in some of the smaller towns of the country. It will be possible under the new rule for the department to keep accurate account of all stamps sold and render justice to the boycotted postmaster.—Citizen.

Dad McGinley, an old prospector, while sleeping on the ground was bitten by a skunk last week. The skunk did not let go until Dad got to his feet when it dropped to the ground and made for the brush with Dad in pursuit. It was caught and killed and proved to be the most dreaded of all our mad animals. Dad did not wait for a horse to be found but walked to town for treatment. His doctor told him that the whiskey that he had saturated himself with during the past two weeks would prevent any serious results.—Globe Times.

Mr. I. E. Solomon, who will begin threshing his wheat and barley crops probably next week, says the present year's yield was never equalled on his land, which lies under the Montezuma canal below Solomonville. Mr. Solomon will clear up this year about 2,500 sacks of wheat and 5,000 sacks of barley, average yield on all his wheat and barley land promising to be not less than 60 bushels to the acre. Much of Mr. Solomon's land lies in what is known as the San Simon flood district. It has been observed this year that the land which has been flooded frequently by the flood waters of the San Simon is the very best in the valley, when measured by crops' product.—Bulletin.

The scaffold which is expected to execute the death sentence upon the Halderman brothers is being put into shape ready for work. The date set for the hanging of the condemned men is August 10th. The prisoners are hopeful that executive clemency will yet save their necks and as the time draws nearer are becoming more anxious, though still hopeful. Nevertheless, preparations are being carried out to be in readiness for the execution and the scaffold which has not been in use in Cochise county since the memorable hanging of the Bisbee murderers in 1883 is again being inspected and put into condition for service. The death watch is being placed over the prisoners and every precaution taken that no attempt other than legal barriers will stay the execution.—Prospector.

Mrs. Reed, whose letters from abroad were such pleasant reading in the Arizona Republican, has returned, and writing from Cohasset, Mass., says of the day she left Troy, N. Y., for Boston: It was hot enough to put to shame any August day on the Colorado desert. Talk about hot weather; I do not think that we of Arizona have any cause to find fault with our climate. We came through Boston where everything seemed to be fairly sizzling with heat, and there was no relief whatever until we reached Cohasset at six o'clock. Even here a few minutes from the beach, we have days that fairly prostrated us; there is no life left in you and everything you touch seems to stick to you.

Moving a Magazine.

The work of moving the big printing-press plant of The Ladies Home Journal has begun, and within a month the manufacturing part of the magazine will be in its new home. There will be forty-five printing presses in the new seven story building, and 17,600 square feet of floor space. The executive offices will all remain in the present large building which covers four city lots. The entire plant is now the largest of any publishing house in America.

Notice of Sheep Rodeo for 1900.

The sheep rodeo for the range east of Show Low will commence at the Big lake on the White mountains on August 10th, Richard Gibbons, captain. The sheep rodeo for the range west of Show Low will commence at McClure's lake on the Blue ridge on August 10th, James D. Houck, captain. Both rodeos will work towards and finish at Show Low.

By order of the eastern division of the Arizona Wool Growers Association,

DR. PRICES' CREAM BAKING POWDER

Used in Millions of Homes—40 Years the standard. A Pure Cream of Tartar Powder. Superior to every other known. Makes delicious cake and pastry, light, flaky biscuit, griddle cakes—palatable and wholesome.

NOTE.—Avoid baking powders made from alum. They look like pure powders, and may raise the cakes, but alum is a poison and no one can eat food mixed with it without injury to health.

Heretofore the Santa Fe Pacific Railroad has held in force to points in Arizona the transcontinental minimum freight rate. That is, no package, however small, would be handled for less than about \$2. This gives all the small business to the express companies. The Santa Fe has now rescinded this rule and made a 25 cents minimum to all points along its lines in Arizona, and New Mexico. The effect will be to allow shippers to send by freight a great many small packages of fruit, vegetables and other merchandise at much less cost of transportation than before. It will no doubt greatly increase business along the line from Los Angeles east.—Coconino Sun.

"We have sold many different cough remedies, but none has given better satisfaction than Chamberlain's," says Mr. Charles Holzhauser, druggist, Newark, N. J. "It is perfectly safe and can be relied upon in all cases of coughs, colds or hoarseness. Sold by F. J. Watron, druggist.

The California Consolidated Petroleum Company has behind it some of the strongest men, financially, in California. They are determined to make their oil company the most successful on the coast, and they have the brains and capital to attain this result. They are cautious and conservative, but withal aggressive, and their policy is to absorb the weak and become the masters of the field, and beyond any reasonable question, the California Consolidated Petroleum Company will earn for its stockholders dividends that will send the stock many times above par, and make many investors comfortable for life, if not rich. Its stock should be bought before it advances, as it surely will.

Stock redeemable on demand at any time within 30 days from date of certificate. All money paid in installments refunded on demand at any time within 30 days from date of first payment. If you do not want your stock, send to Company and you will promptly get every cent of your money back.

IS IT RIGHT For an Editor to Recommend Patent Medicines?

From the News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventative of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by F. J. Watron, druggist.

A gentleman recently cured of dyspepsia gave the following appropriate rendering of Burns' famous blessing: "Some have meat and cannot eat, and some have none that want it; but we have meat and we can eat.—Kodol Dyspepsia Cure be thanked." This preparation will digest what you eat. It instantly relieves and radically cures indigestion and all stomach disorders. F. J. Watron.
