Mrs. D. L. Higgins and Mrs. Wm. Stovall made an attempt for some big game during the week. L a d y Luck frowned on them, but they brought back three rabbits to show that it was not poor shooting.

Mr. Geo. Hennessey consigned about 500 head of steers to the Denver market on Monday. The cattle were in fine condition and if the packers will only have a heart, good prices should obtain.

Major McKinley, Insurance Adjuster of Phoenix, has been a town part of the week adjusting the loss on the Ortega house. As was to be expected, his finding was "total loss." Mr. L. C. Henning, by whom the policies on the house and contents were written, was very pleased with the efficient manner Major McKinley worked.

Quite an interesting race horse man from south paid us a visit a few days ago. He claims to have a horse that is so fast that he has to bow his neck to keep the wind from cutting his throat; at the same time running sideways to keep from flying. Some boss!

Mr. Koury went out with his little bang-bang on Sunday and was afterward observed exhibiting a nice little bunch of birds.

Four turkev, muscular soreness from unaccustomed horse back riding and a glorious good time is the report they brought back.

It will also enterta in a proposition for lease of any lands, geologically approved as to structure, in any other locality in the Holbrook Field.

Announcement

The Hall Lumber Company

will now accept applications from its customers and the people of Northern Arizona for \$10,000 of its
CAPITAL STOCK

that will undoubtedly yield a splendid annual cash dividend.

Because of the Company's continued rapid and healthy growth since its organization a little over two years ago, and with a view of providing additional and better facilities for the handling of its ever increasing wholesale and retail business, and for making further expansion, at a meeting of the stockholders, held on Tuesday, October the 4th, it was decided to increase the Company's capital stock from \$30,000.00 to \$50,000.00 and place \$10,000.00 of this increase in the hands of the Company's customers and the people in its territory, and effective this date the Company will receive applications for its capital stock in blocks of from one to ten shares to be delivered when necessary order for increase is obtained from the Arizona Corporation Commission, which order has been applied for.

Price \$125.00 per share. Cash or on terms of 1/3 down; 1/3 in thirty days and 1/3 in sixty days. All shareholders purchasing prior to November 15th, will participate on a pro-rata basis in this year's earnings.

THIS IS A SOUND INVESTMENT--Because

1. The Company is engaged in a business that is considered to be of the highest character, carrying less hazard than most any merchandising line.
2. By reason of progressive methods it has enjoyed a growth not experienced by any other business in its territory, with every indication for a continued successful business.
3. It now owns and operates FOUR lumber yards, from which it derives an annual business of approximately \$150,000.00.
4. Its business is not confined to one particular field, thus enabling it to always command an average business throughout its territory.
5. Its large volume of business permits of an advantage in purchasing power that materially effects both its retail prices and the cost of operation, all to the advantage of its customers.
6. By centralizing its general business under one main office its accounting and clerical cost is held down to a minimum.
7. Its wholesale department inaugurated some sixty days ago, which controls the Northern Arizona distribution of several standard lines, has shown a steady increase since its inception, and shows every indication of becoming another splendid asset to the business.
8. During the past year, with most every business of any nature operating at a loss, this Company showed an increase in business over the previous year of nearly 50 per cent, and its net earnings were more than satisfactory. This year's business will show another increase over last year's business of OVER FIFTY PERCENT, and its estimated earnings at this time are in excess of last year's.
