

BISBEE DAILY REVIEW

VOLUME V.

BISBEE, ARIZONA, FRIDAY MORNING, DECEMBER 20, 1901

NUMBER 174

The Copper Queen Store.

Our today's advertisement appears on local page.

Sunset Limited Wrecked in California.

San Jose, Cal., Dec. 19.—Two passenger trains met in head end collision this morning near Uplands. They were the north and south bound Sunset limited. Both trains were completely wrecked and the south bound caught fire and several cars were burned. The fireman and assistant and the express messenger were killed, twenty badly hurt and thirty-two slightly injured. Wrecking trains block the road and there will be no traffic for twenty-four hours.

DISTRICT COURT. Faking Schemes An Injury to Arizona

Two Convictions Secured by the Trial Jury.

Tombstone, Dec. 18.—The opening of the morning session of Wednesday was given in your issue of yesterday. The first case put upon trial was that of the three Mexicans, Flores, Valencia and Garcia, for having "held up" and robbed one Wong Tong, a Chinese vegetable peddler, who was on his way in a wagon from Bisbee to Tombstone. The robbers despoiled Wong Tong of sixteen dollars in money and a silver watch, the robbery taking place in the vicinity of the ranch of Charlie Cox in Tombstone canyon and about six miles west from Bisbee. On the same day the robbery was committed the three Mexicans were arrested and identified by the Chinaman. The evidence was conclusive and S. A. D. Upton, attorney for the defense, having been so appointed by the court, had but little upon which to base an argument for his clients. The jury were Henry Ash, John Jolly, John Kelson, W. D. Kinsey, H. E. Gardner, William Jones, C. Heller, W. E. Bailey, T. J. Lyon, T. H. Roesch and I. S. Burnett.

After the case was submitted the jury was not long in arriving at a verdict of guilty against all three of the defendants. Considerable time of the court had been occupied by this case, as several witnesses were examined at some length and the services of a Chinese interpreter was necessary in obtaining the evidence of Wong Tong. The jury not retiring till noon, although the usual hour for recess had arrived, a hearing was had in the application for divorce of Fannie R. Bulotti from Charles A. Bulotti, and Mrs. Bulotti and Mrs. N. M. Hughes were examined. The testimony showed that the Bulottis were married in Tombstone in July, 1898, and lived together until 1898, when the husband deserted his wife and left this part of the country. Mrs. Bulotti had been married previous to her marriage to Bulotti and had had children by her first husband. To her retaining the possession and care of these children the husband strenuously objected. It was upon this subject only that there had ever been any difference between Mr. and Mrs. Bulotti. When he abandoned her she stated to her that he would not return to her or contribute to her support as long as she remained in the children. Mrs. Bulotti has resided in Tombstone for many years and bears a most excellent character. A decree of divorce was ordered. Bulotti was formerly in the saloon business here.

AFTERNOON SESSION.
The case of Pabulius Fuentes, charged with uttering a forged check, was put on trial. Fuentes on April 24th last, cashed at the store of the Greene Consolidated Copper company, at Naco, a check drawn by that company in favor of one, Tomas Cuen, for \$75.54 in Mexican money. Cuen had lost the check and testified that his endorsement thereon had been forged. The Greene Copper company had employed Allen E. English to assist in the prosecution of Fuentes and he did conduct the case in behalf of the territory. The jury were:
E Fletcher, George Clawson, J. L. Amalung, G. M. Henry, Dan Hoesech, R. A. Casada, G. W. Allaire, H. L. Hinkle, Abe Shook, W. Allison, J. J. Bowen and Arthur L. Armstrong.

Attorneys Neale & Goodbody represented the defendant. The testimony was lengthy and tedious, but the arguments of counsel were brief and the case went to the jury at 10 o'clock, at which hour a recess till 7:30 p. m. was ordered.
Jesus Egile was placed on trial, charged with assault with deadly weapon, having on or about June 1, assaulted with a dagger, or knife, one Fermin Beregán, at Fairbank. The following named were selected as the jury to try the case:
James Pacheco, William Jones, W. D. Kinsey, H. C. Aston, G. F. Hagler, John Kelson, Alex. Chisholm, L. E. Gray, C. L. Blackburn, Hunt Porter, C. Hell and G. C. Baillinger.

District Attorney Land for the prosecution and G. W. Swain and W. D. Pearce for defense.
Fermin Beregán testified to English having assaulted and cut him and also striking him with his hands and with rocks.
Joseph Larrieu, deputy sheriff at Fairbank, testified to having arrested the defendant and to the condition of Beregán at the time. The cut was on the hand and slight.
The defendant was placed on the stand in his own behalf and denied having assaulted Beregán, but stated that he pulled off from Beregán another man who was assaulting him. Nevertheless had any trouble of any kind with Beregán, nor any ill will toward him.
Joseph Larrieu, recalled by Mr. Land, and testified when he arrested English he (Larrieu) found on his person five dollars in silver.
Both sides announced their case as closed and the Court gave his instructions as to the law and the jury retired for consultation.
The jury returned a verdict of guilty.

Furnace Feeders Killed in Explosion

Pittsburg, Dec. 19.—An explosion occurred in a blast furnace here this morning. Nine were killed and three fatally and nine badly hurt. The damage to the plant is \$20,000. The men were feeders of the furnace. Fourteen men on the platform at the mouth of the furnace were blown to pieces. The explosion was caused by accumulated gas in the furnace and threw tons of molten metal, slag and clinders upon the men working near. Five of those who were blown from the platform are fatally hurt. Those remaining were burned to death. Others who worked near the furnace were injured.

Boer General in Critical Situation

London, Dec. 18.—Boer dispatches, intercepted by the British in South Africa, indicate that General Delarey considers his position extremely critical. He believes he cannot hold out longer than two weeks. The British are exultant and think they have run down one of the most persistent Boer leaders.

Nicaragua Bill Reported to Congress

Washington, Dec. 19.—The chairman of the committee of commerce reported the Nicaragua canal bill to the house this morning. Arrangements were made for action upon it shortly after the reassembling of congress next month.

Sampson Heard From

Washington, December 19.—Admiral Sampson notified the navy department of his protest against the findings of Admiral Dewey, and will leave New York tonight and reach Washington tomorrow.

Pension for Mrs. McKinley

Washington, Dec. 19.—Senator Mark Hanna today introduced a bill granting a pension of \$5000 a year to Mrs. McKinley.
Mining men in Tucson report a great scarcity of miners in that vicinity.

Salted a Sack of Coke

Experiences of a Mining Expert When Examining Northern Arizona Mines

An article in the last issue of the New England Journal for Investors handles the Vulture Mining company without gloves. It not only assails the honesty of those who manipulated its stock, but claims the mine is not as represented and should be classed as a prospect rather than a mine. A. Chester Beatty, a mining expert who examined the property, furnishes some very interesting reading in the article mentioned, in which he says:
"I examined the property in the fall of 1899, making a preliminary examination and taking a few samples at that time. I subsequently examined the property thoroughly in the fall of 1899, and found in both cases that some one was trying to salt the samples; in fact I had quite a joke on whoever was trying to do the salting, as I left some sacks filled with coke which were just about the same size of the sample sacks I used for ore, and the man who was doing the salting did it in such a crude manner that he actually salted the coke so that it ran \$18 per ton in gold. Of course when I made the examination I had my assayer and assistant with me and found that there was a big tonnage of ore that ran \$1.50, and some of the ore in smaller blocks would run \$4 to \$6."
"After I discovered that some one was trying to salt me I made quite a thorough study of the property because I looked upon it as one which had a certain amount of prospective value, and which, if it could be acquired on the proper terms, might pay to prospect. Now it seems to me in view of the guarantee made in this advertisement, which reads as follows, 'We will furnish a signed statement setting forth what will be found at the mine, and I will extend every facility to any person who desires to investigate, either in person or by sending a representative to the mine; if our statement upon investigation proves otherwise than true we will pay all the expenses of this investigation,' that it would be a very good idea if you would get them to 'post a certain sum of money in the bank to pay for the year's examination and then secure the service of one or more well known engineers in addition to yourself and make up a party and go down and examine the mine. Of course before taking this step it would be absolutely necessary to have them put the money up in a bank and have the matter arranged in a business like manner throughout."

ARIZONA CORN Wonderful Yield of the Soil About Duncan

Over on the Gila river, in the vicinity of Duncan, is what may be termed the "corn belt" of Arizona. This has been demonstrated for years by enormous yields. Three years ago one farmer secured an average of 105 bushels of corn from a 40-acre field. Recently Mr. J. E. Cooper, living near Duncan, reported to the Copper Era that he harvested one hundred bushels of corn from a trifle more than three-quarters of an acre of ground. In the Gila valley around Solomonville corn is an important crop and the yield runs from 60 to 90 bushels to the acre, but the soil about Duncan seems to be especially adapted to corn.

Price of Copper Little Affected

The Engineering and Mining Journal of a recent date says: "In the metal markets copper has been the subject of all sorts of rumors, most of them originating in Wall street and intended to affect the quotations of copper stocks. That they are not based on any substantial facts is shown by the but slightly changed condition of the market. The fall in standard copper in London has been made the most of, but it really amounts to little. The speculative transactions there have not been large, and standard bars are no longer the test of the market. Refined copper shows little change."

New Charter Defeated in Phoenix

On Tuesday the city of Phoenix held a special election to vote on a proposed new city charter, authorized by the last legislature. The new charter was defeated by a vote of 519 to 46. The Gazette says that those who advocated the charter were defeated by their own lack of interest. It is believed, however, that the charter will come up again next spring for the citizens to give their opinion on, and it is believed that the charter will receive a greater number of votes next time. The question will not be dropped, however, as the friends of the new charter propose to keep hammering at it until something happens.

Pension Agent Appointed

The President has sent to the senate the nomination of W. S. Metcalf, for pension agent. Mr. Metcalf is a native of Kansas and makes his home at Topeka, Kansas.

WANTED!

GUNS, SEWING MACHINES, TYPEWRITERS, CASH REGISTERS, To Be Repaired.

OLD NICK

wants to come to Bisbee.
SANTA CLAUSVILLE, Iceland, Dec. 12, 1901.
MR. A. P. SKINNER, Main St., Bisbee Arizona,
DEAR SIR:—In looking for a location as a distributing point, for my visit to the dear people of Bisbee. I find your store most central and I take the liberty of asking permission to make my annual display in your window.
The articles I have concluded to present this year to your townspeople, consists of good warm Underclothing, Socks and Shoes, as well as a nice collection of stylish Hats, pretty Shirts, and some of the most fetching Neckwear I have ever seen. I have about concluded to wear one of the ties myself, instead of my fur coat, THEY ARE SO WARM.
I will bring several dozen dress gloves, silk lined, that make you feel like a real Prince.
You know I never used to wear suspenders, but this year I have such pretty silk ones that I couldn't resist the temptation to put a pair on, and do you know I actually feel young again. Did I tell you about the fancy hose I am wearing. My goodness, I am getting too giddy for anything. OH, BUT THEY ARE WARM ONES; and of course I had to don a pair of those sky blue Boston garters you told me about.
Now, Mr. Skinner, I know this is imposing somewhat upon your good nature, but as there is no other location in Bisbee that suits me, I earnestly hope you will grant my request, and I will try and see that you do not regret it.
Very sincerely yours,
SANTA CLAUS.
P. S.—I would like to arrive between the 15th and 20th if agreeable with you.
