### FOOD WILL WIN

## Musings of Doc, the Duck

"Well," says Doc the Duck, "it seems rather hard to burden the people with what I think of the slacker, but in the face of some happenings hereabout, I cannot refrain from one more statement in regard to this much despised 'critter'."

"Don't get it into your head, though," says the Duckling, "that all of these said slackers are of the male variety, for I have seen some of the worst of them among the members of the gentler sex."

"Think of a perfectly good housewife worrying about how much sugar and flour she can get for her household needs without the restraint of the food administration. Then think again about the fair young creature, who in fact has worlds of time to burn, and who tells you that she is so busy that she cannot find the time to help the Red Cross Chapter with their sewing."

"In a sentimental moment, it strains ones' imagination, in the face of the stress of the times through which we are passing, to assimilate this truth."

"Our idea of the one worst thing in the whole wide world," says the Doc, "is this destestable inhabitant of this country of ours and we care not whether it be one of the brave (?) boys, who are afraid to get into the ranks, the fair young thing, who is too busy to help the ladies of the Red Cross or whether it is the slacker housewife, with her scrupulous avoidance of food regulations. It matters not which it is, they are all slackers, and are SLACKERS in the fullest sense of this word."

Food will win the war—save it.

# MINING ENGINEERS TO INCREASE WAR WORK

NEW YORK, July 30.—Some 7000 mining engineers, members of the American Institute of Mining Engineers, are shoulder to shoulder in the endeavor both to stimulate war mineral production and to convert minerals to the highest possible service in the war. In an effort to increase the scope of their war service, the American Institute of Mining Engineers will meet in Colorado during the week of September 2 to take up vital problems of immediate importance.

Mining engineers from every section of the country will attend. During the meeting, trips are to be made from Colorado Springs to the Cripple Creek district, Pueblo, the Leadville district, and Boulder. The week's session will open in Denver on the second of September, and will that evening move to the principal headquarters for the duration of the meeting.

This is the first meeting of the entire institute in Colorado since 1896,

and an appropriate entertainment program is being planned by the several hundred Colorado members. One of the special features of the entertainment will be an auto drive to the top of Pike's Peak.

The sections of Colorado to be visited are rich in many war minerals of importance, including ferro alloys, radium, molybdenite ores and pyrites.

Those who are directing the plans for the Colorado meeting are as follows:

Committee in Charge—Spencer Penrose, chairman; E. A. Carlton, chairman finance committee; George M. Taylor, vice chairman; J. Dawson Hawkins, secretary—Denver Committee.

Arrangement—Dave G. Miller, F. Bulkley, Geo. E. Collins—Entertainment—F. H. Bostwick, F. E. Shepard, Howland Bancroft, B. P. Morse, J. G. Perry.

Finance—T. B. Stearns, Richard A. Parker, T. B. Burbridge.

### ST. JOHN'S M. E. CHURCH

The Sunday School meets at 10 o'clock. Good music, good class attendance and patriotic teachers makes the school a success.

Dr. A. W. Adkinson of Los Angeles, superintendent of the Arizona Mission, will occupy the pulpit next Sunday morning. A cordial invitation is extended to all to hear Dr. Adkinson.

## STRIKE AT JEROME IS CALLED OFF

The threatened strike at Jerome is all off, the miners having considered a raise of 75 cents per day, which was allowed them by Hywell Davies, federal mediator. The miners asked for an advance of \$1.10 a day, but the appeal of Secretary Wilson and the action of Mr. Davies caused the men to reconsider their demands and all have gone back to work. The miners of Jerome until recently were not considered in the wage question with the southern mines, but the demand of the government to stabilize miners' wages caused an increase to the Miami scale by the employers of the big camp. It is thought that there will be no further difficulty between mine employes and employers during the war, as the big fellows are willing to readjust wage scale with any advance in the price of copper.

## HOLD TWELVE FOR KILLING

Twelve men have been held for aiding and abetting in the killing of ex-Sheriff James K. Lowery, at Verde, two weeks ago. The men are alleged to have made it possible for the murderer, Hernandez, to make his escape from the camp, and will be prosecuted as necessary after the fact. Only a nominal bail was required of the men, but they were unable to give it. These men were in the cabin when Lowery and the other officer went there to make the arrest and knew where the man went after the shooting, but they refused to disclose his whereabouts.

### JOINS AVIATION MECHANICS

Melvin Templeman, a native Kingman boy, has joined the aviation mechanics, having been passed as 100 per cent perfect. Melvin went to Los Angeles a few days ago, bearing with him his mother's permission to join the colors, being but 17 years of age. He will begin active service at once and we know that he will make good. Melvin is a splendid boy and his mother may well feel proud of him.

Better save a little now than give it all to "Kaiser Bill."—Buy a stamp.

### SOLDIER BOY PASSES THROUGH

Mrs. Alonzo Ferra, of Gold Road, was in Kingman the greater part of this week to greet her soldier boy when he passed through. He arrived Wednesday and the mother was overjoyed to see him. Eddie Ferra is said to be one of the most proficient men in Camp Kearney with the rifle and bayonet, there being few men in that big camp who can say that they are his equal.

## BIG LABOR STRIKE RECEIVES QUIETUS

The big strike of munition workers in England was no sooner on that it was off again, as the orders to send all men who struck into the army did not appeal to the men. At the same time the munition workers of Woolwich jolted the strikers at Coventry with a telegram accusing them of aiding the enemy and that every man who stood in the way of victory was a traitor to the country. The men have all returned and peace reigns for a while yet.

## ORE IN BERKELEY SHOWS UP WELL

The new shaft on the Berkeley mine, which now stands at a depth of 30 feet, is showing up excellent quality of ore. Samples taken across two feet of ore gave results of \$70 silver. Water is now making its appearance in the shaft and it is thought that when the permanent water level is reached better ore will be encountered. The work of clearing the old shaft of water has been completed and miners are now clearing the drift of caves and debris. From this drift the other vein will probably be crossed and the ore body there opened. The ore body in that part of the vein is large and yielded considerable rich ore in the bygone days.

### DOUGLAS FAIRBANKS TO BE HERE AUG. 5

Well, Dug has not been here for a long time, but he of the smile, broad and genial, will be seen in his latest, "Mr. Fix It," which affords so many surprises and laughs that it can easily be given the distinction of being one of the best in which this athletic star ever appeared. "Mr. Fix It" will fix anything and if you should break a rib laughing at him he will "fix it."

## MEETS DEATH UNDER FREIGHT

Joe Tandrow, who formerly was section foreman in Kingman and afterward entered the train service, was killed at Puntenney, junction of the Prescott, Phoenix and Santa Fe railroad with the Clarkdale road, last week Wednesday. Tandrow was switching in the yard and in getting off a car his key chain caught on a projection, throwing him beneath the wheels. His head was severed from his body and he was otherwise mangled. He leaves a wife and two children at Clarkdale.

Deceased lived in Kingman a number of years ago and has many warm friends here.

### FROM YAVAPAI COUNTY

Tony G. Walter, of Simmons, Yavapai county, was in Kingman yesterday to look after important business. Mr. Walter is the owner of a big cattle ranch and a farm in Williamson valley and reports that it is showing up excellently.

## TRANSFERRED TO FIELD ARTILLERY

Cleve Walker, at one time telegraph operator at Hackberry, has been transferred from the infantry at Camp Cody to the field artillery at Fort Sill, Oklahoma. Many of the other boys have taken transfer from the New Mexico camp to the artillery and other units of the big army.

### KINGMAN HIGH SCHOOL

The schools of Kingman, including the high school, will open for the fall and winter sessions on the 15th of September. The schools are now of sufficient capacity to care for all applicants and it is to be hoped that there will be a full attendance. While many of the boys of school age have joined the colors there are many young fellows and girls left to make up respectable classes in all the schools. The boards have engaged an excellent corps of teachers and retains W. L. Linville as superintendent of the grammar and high schools.

# Young Ladies:

We want to extend a special invitation to the young ladies of this community to open an account at this bank. You are cordially invited to come in and have the reason explained to you. You will find a delightful surprise at the simplicity of keeping an account and we assure you that the business training, saving habit and financial help thus obtained will be invaluable to you. It is not necessary for you to have a large amount to deposit—we open an account for any amount, however small. We will be pleased to see you at any time.

## This Is Our Winter of Test

**S**ERVING food is a local problem for each community. Prices and definite rules for every one cannot be formulated. It is a duty for each one to eat only so much as is necessary to maintain the human body healthy and strong. This winter of 1918 is the period when it is to be tested here in America whether our people are capable of voluntary individual sacrifice to save the world. That is the purpose of the organization of the United States Food Administration—by voluntary effort to provide the food that the world needs.
