PHŒNIX WEEKLY HERALD.

NEW SERIES—VOL. XXII. NO. 21. PHŒNIX, MARICOPA COUNTY, ARIZONA TERRITORY, THURSDAY, MAY 21, 1896. WHOLE NO. 5373.

IF Weyler has not resigned he is not the general Spain seemed to think him.

KENTUCKY has taken to tornados since old Bill Breckenridge has subsided.

THE Czar of all the Russians will be crowned on Thursday with great pomp and show.

THE Territorial Democracy appear to be busy lassoing the fellows trying to get out of the party corral.

BUCKY O'NEILL is down from Prescott convincing his good Populistic friends that water can run up hill in his ditch down on the Gila.

HON. MATT. QUAY, true to the training of Pennsylvania's sons, proposes to stand by his party whoever is nominated for President at St. Louis.

THE semi-barbarous practice of a stupendous show on the coronation of the Czar of Russia has not been modified in its effects by the lapse of time.

ARE you a citizen of the incorporated portion of Paenix? If so you should register at once and take a hand in the coming election City registration closes on Monday the 18th instant.

THE "free silver" people are divided up among the Democratic, the Republican, the Prohibition and the Populist parties and consequently can never make a point while in that condition.

GOV. FRANKLIN will deliver the Commencement address at the University Commencement at Tucson on the 27th instant. The Governor is a finished orator.

EX-GOVERNOR IRWIN of this Territory, has a fine article on irrigation in *Wind and Water* for May. It is philosophic and general and altogether a most timely and convincing argument for irrigation, just what the people of the eastern states who know nothing of the subject need.

SHORN of his powers to assassinate and massacre the inhabitants of Cuba Weyler sinks into insignificance compared with the insurgent commanders in Cuba. With a great nation behind him he makes no progress while insurgents with nothing behind them but the spirit of freedom will ultimately be victorious.

THE abuse of a quiet and gentlemanly stranger in any community, by a newspaper, is not exactly what might be expected in this free-hearted, open-handed western country where there should be, and is a generous welcome to every decent person, and it is small business to stoop to the abuse of a man that isn't decent.

THE Democratic brethren seem disturbed by the Republican position on the financial question as voiced by Mr. McKinley in Congress in 1890 when he said in the financial discussion:

"I am for the largest use of silver in the currency of the country. I would not dishonor it, I would give it equal credit and honor with gold. I would make no discrimination. I would utilize both metals as money and discredit neither. I want the double standard."

THE Democrats among the A. P. A.'s tried to sit down on McKinley and the order seems to have gotten itself into a row over that fact. Secret political organization is in direct hostility to the first principles of free government and certainly uncalled for in such a government as we enjoy; it will therefore scarcely be able to maintain the character it has assumed by meddling in political matters.

GUS A. HOFF, of the Pima County Democratic Committee, it seems has got tired of the Democratic party and so expressed himself in the County Democratic Convention in Tucson on Saturday and asked leave to resign his position as he could no longer act with the party. The party whip was cracked and a vote refusing his resignation passed. Mr Hoff, however, will scarcely be influenced in his determination.

THE present administration cannot extract either pleasure or satisfaction from the bond question. It had scarcely recovered from the chagrin caused by the adoption of that resolution directing the Senate Finance Committee to investigate everything connected with all the bond issues by this administration, with only six adverse votes, when Senator Dubois of Idaho, threw a fresh bomb shell by offering a joint resolution providing that hereafter no bonds shall be issued by any officer of the government until the President has explained to Congress the necessity for the bonds the amount of the proposed issue. There is little probability that this resolution will ever reach the dignity of a law, and it would certainly meet a Presidential veto should it be adopted by both branches of Congress, and it could not get a two thirds vote in the Senate. Still, it added to the unpleasant sensations of Mr. Cleveland and his Cabinet.

THE cyclones that are devastating Texas, Kansas, Nebraska and portions of Oklahoma and Arkansas are simply horrifying. Arizona has hot weather but it kills nobody and so far never has had a cyclone.

THE dispatches say "Germany is worried. She thinks McKinley and protection will win." Of one thing Germany may feel assured; protection will win whatever Republican may be made President of the United States.

EX SENATOR TABOR is in the city looking after the old Vulture mine, one of the best gold producers in Arizona today, but which needs development work. It is to be hoped that he will again have work opened on it.

CATTLE herds are being rapidly moved from the ranges in the northern portion of the Territory to the ranges further south. The want of the usual rainfall in the northern part of the Territory is telling heavily on the stock men.

CAULIFLOWER such as the most expert gardener rarely dreamed of is being cultivated on Chaplain Scott's place above the Arizona falls under the Arizona canal. The finest vegetables in the world are grown up there in enormous quantities.

HOG fever is said to be the result of inbreeding and close confinement and dry feed. This latter cause can contribute very little to the trouble in this valley as the stock was on pasture very generally. The ranches were considerably overstocked, however. At any rate whatever the cause of the disease it seems to be contagious.

THERE is indication that the New York *Times* will soon become a loyal American, Republican paper. Its existence as a British exponent in the United States has not been conducive to a lively interest on the part of the American public in its welfare as a newspaper and hence it is likely to go into hands that represent American rather than British interests in America.

THE new night train to be put on the S F P. & P. shortly will be just the thing for summer travel, and will avoid all delay at Ash Fork. It will also do duty to carry out the fresh fruit now being shipped east, thus enabling shippers to start their cars, when loaded, immediately, in the cool evening, and by morning the fruit will be out of the heated region, and making the best of time for the east. By the new arrangements about three days will suffice to reach Chicago.

THE city Democracy will put up a straight Democratic ticket. Perhaps this is as it should be after all. The party in power should be held to a strict accountability for its acts and a mongrel city administration is accountable to nobody for anything. As a Republican the HERALD, understanding that the party committees had made simply a suggestion of consolidation on the city election, now advises that the Republicans of the city come to the front with their ticket and push that ticket on party lines for all it is worth.

THE Bloomfield, Iowa, *Republican* repeats the speech of the Hon. Thos. Fitch's, in full, which he made before the Territorial Republican convention in this city, not long since. It prefaces the speech with the following very flattering remark: "While the lesser lights in the free silver movement are threatening to bolt the party if the national platform is not drawn exactly to suit their own ideas, such stalwart and well known leader as Tom Fitch of Arizona, a man of national reputation as a silver advocate, and one equal in ability to any leader in the movement as an orator and campaign speaker, is open and avowed in his loyalty to the party." Col. Fitch's speech is then repeated in full. It certainly is a very flattering testimonial to Col. Fitch's ability and loyalty to the Republican party.

BRO. MORTON, of the Mesa *Free Press*, has broken loose among the spring poets and his rhyme, rythm and reason will go singing down the hungry avenues of the "fourth estate" till bread and butter are no longer an essential to a collapsed gastric economy, and pencil pushers will use the latest Edison mechanical lightening cogitator. He says:

"The mellow goose, the mallard duck,
The blackbird and the crow, will soon be
here from southern lands to watch the
cornfields grow; the hungry hawk and
thunder pump will also come and join
their fearful racket with the bullfrog's
tuneful song. All nature soon will don
her garb of green and her dapple gray,
while snow and ice, and coal bills too,
will sadly fade away. The farmer's
boy sent out to plow will furl a stack of
hay, lie down upon the shady side and
sleep for half a day! The dry goods
clerk, with doeful yawn—no customer
in sight—on bales of two cent calico
will rest from morn till night. A gentle
languor steals upon the bravest and the
best, and printers are the only poor set
of devils that don't get time to rest.

OUR Populistic friend Mero says "the p-e o-p-l-e built the railroads" in Arizona by making land grants. Mr. Mero knows that those land grants were utterly valueless till the railroads were built and gave them a chance to be worth something. The people therefore, logically, didn't put a cent into those roads. The Government gave away something it didn't think worth keeping, and it wasn't, without the roads.

GEN. ALGER who appears to be again looming up for some prominent position in discussing the financial situation of the Republican party, says: "If we adopt a sound money platform—and by a sound-money platform I mean one that is for sound money, no subterfuge, no straddle, no more Minneapolis business, just a plain declaration for the gold dollar—whether McKinley is nominated or not, we will carry every state north of the Ohio river and east of the Rocky mountains. If there is a straddle, and the Democratic party declares for sound money I believe that it will put New York, New Jersey, Connecticut and even Massachusetts in the doubtful column.

A SILVER SCREED.

Hard Times and What Helps to Make Them So.

EDITOR HERALD:—The mines are comparatively idle on account of the demonitization of silver.

Cotton used to be king at ten cents a pound; but wears a poor crown at six or seven cents. Wheat was good at a dollar or a dollar and a half a bushel; but is chaff at sixty cents. Manufacturers are languishing;—because Americans cannot compete with foreign labor on a low tariff.

The last administration paid off two hundred and fifty odd millions of the public debt;—the present administration has borrowed two hundred and fifty odd millions to pay expenses.

The message of President Diaz shows a prosperous condition of affairs in Mexico with silver as a currency—even at depreciated prices. The silver mines furnish a domestic market for labor and consumption, and Mexican miners are importing laborers from Central America.

Moreover, this is the political quadrennial festival of the American people; when they indulge in their favorite industrial pursuit—politics. Who pays the piper?

We shall have to endure the present state of affairs a year and more longer—perhaps another four years, as no man can be elected on the Republican ticket who *straddles* silver as McKinley does; because the silver men won't vote for him—that's why.

The newspapers are in full cry and the forked tongued orators will "tally ho" as soon as the game-keeper sounds the horn. C. D. P.

DISASTROUS FIRE.

An Old Mexican Watchman Severely Burned.

Messrs. Bent and Sampson received word through the mail this morning that their camp in the Guijas was destroyed by fire day before yesterday. The camp was composed of tents and not one was saved. In addition to the property belonging to the owners of the camp was the complete assaying outfit of the Golden Star company, which was stored away. The flames devoured everything, with the exception of a pair of gold scales, which were saved.

A ten-stamp mill and a powder house located a few yards away, escaped destruction.

Mr. Bent left the camp on Tuesday morning last and placed an old Mexican named Jose in charge, as watchman, and gave him instructions to do his cooking outside the tents and use every precaution against fire. The following day the fire occurred, and in his efforts to save the property Jose was severely burned. His clothing was entirely burned from his body and his condition, when found, was such that he had to be packed away to a neighboring ranch on a burro.

The origin of the fire is unknown, and the loss is several hundred dollars. Messrs. Bent and Sampson leave for their camp in the morning.—*Tucson Citizen.*

Death of John Gustafson.

After a painful illness of three months there died this morning at the Sisters' Hospital John Gustafson, aged thirty eight years, a native of Finland. Deceased had been in the Territory about two years and latterly had worked in Chapparal. He was brought to Phoenix by an old friend of his, Gus Swanson of Lynch Creek, who was determined to do all he possibly could to save his friend. After laying at the Sisters' Hospital, where he was carefully cared for, with a devotion always shown by those kind people, for ten days, he succumbed at an early hour this morning. An autopsy was held and Dr. Duffield who had care of him pronounced death due to cancer of the stomach.

Let Us Reason Together.

It needs "no ghost to come and tell us" that the sooner dyspepsia is remedied the sooner we shall enjoy that right to which our ancestors laid claim in the Declaration of Independence—"the pursuit of happiness." A man blessed with a good digestion—provided he has enough to eat—is happy. There are hosts of people with ample means to whom the sole consolation of a healthy pauper is denied. Hostetter's Stomach Bitters is a certain, prompt and thorough medicinal agent through the use of which sound digestion, and the nerve tranquility which its disturbance causes, can be removed. Biliousness, malarial and kidney trouble, constipation and rheumatism are also remedied by this fine corrective of a disordered condition of the system. Appetite and sleep are greatly improved by it.

BISHOPS ELECTED.

It Took Fifteen Ballots to Elect Charles McCabe,

AND SIXTEEN

To Elect Dr. Cranston as Bishop of the Methodist Episcopal Church.

CLEVELAND, O., May 19.—The general M. E. Conference has elected McCabe bishop on the fifteenth ballot with a plurality of eight votes.

Cranston was also elected Bishop on the sixteenth ballot by a plurality of thirty.

CLEVELAND, May 19.—Bishop elect Charles McCabe, was born October 11, 1836, at Athens, Ohio. In 1862 he became chaplain of the 122nd Ohio volunteer infantry. At the battle of Winchester, Virginia, June 1863, while looking after the wounded he was captured and taken to Libby prison, where he remained a captive for over four months. After his release he rejoined his regiment but with broken health and was sent back to the hospital at Washington. Since the war he has been in service at the Ohio Wesleyan University and the board of church extension. In 1844 he was elected missionary secretary. Through his efforts the cry "A million for missions" once prophesy, is now one of the brightest facts in the history of the M. E. Church. Dr. Earl Cranston was born June 27, 1840, at Athens, Ohio. He enlisted in the United States service and rose to the rank of captain. His first service in the church after the war was in the Ohio Conference. He was transferred finally to Denver, Colorado, where he was presiding elder. Since 1884 he has been book agent at Cincinnati. He is a pulpit orator of high rank.

THE FERRIS WHEEL.

The Government Interested in that Piece of Mechanism.

CHICAGO, May 16.—Practically under the auspices of the United States Government—for it is not only marked on the Government charts of the lakes, but is hereafter to figure in the lighthouse reports—the re erection on the north side of the city adjacent to Lincoln Park of the Ferris Wheel, which will be remembered by the hundreds of thousands of visitors to the World's Fair, was signalized at noon today in the presence of a crowd of several thousand people. It has a height of 305 feet above the lake level, and from the top of its piers the city of Milwaukee, ninety miles distant, can be seen with the aid of a field glass. Three thousand incandescent lights will illuminate the gigantic periphery from dusk to sunrise, and its value as a lighthouse has already been recognized by the decision of the Government officials to issue a supplement for the benefit of the marine interests. As reconstructed, there are thirty passenger carriages and five elegantly equipped dinning and buffet cars, the latter being intended for convivial parties that desire to dine en route. The grounds around the wheel have been arranged after the tropical style, while the buildings and entrances follow the German antique.

THE DURRANT CASE.

Execution Cannot Take Place Before December.

SAN FRANCISCO, May 16.—The bill of exceptions in the Durrant case has not yet been filed. Should the prosecution win every point on the appeal Durrant cannot possibly be executed before December.

A GREAT ACCOMMODATION

Another Train to be Put on the S. F. P. & P. Railroad.

Next Wednesday evening an accommodation train will leave Phoenix over the S. F. P. & P. road for Ash Fork where it will make close connections with the eastbound overland express.

The object in putting on this extra train is that the business of this city demands the best accomodations possible in the matter of transacting business with outside points and no time can be lost.

From next Wednesday the patrons of this road can leave Phoenix at 8:45 o'clock in the morning and on arrival at Ash Fork in the evening make close connection with the overland train on the Atlantic & Pacific for California and no time is lost. Passengers for the east can leave here at 7:30 in the evening and travel all night reaching Ash Fork the next morning in time to connect with the eastbound overland and go into Chicago in about three days These trains will carry mail, freight and express and twenty-four hours will be saved to the merchants of Phoenix in the matter of the receipt of eastern mail, the mail which now reaches Phoenix from the east on the Southern Pacific will reach here over the new train on the S. F. P. & P. one day earlier and in the morning as at present.

For the present no sleeping car will be attached to the new train but should business justify it all the accommodation necessary will be supplied.

Results Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations had failed.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache.

McKINLEY CLEARED.

The A. P. A. Will Not Discriminate Against Him.

REPORT MADE TODAY.

Unreliable Witnesses to Blame For the Action of the Advisory Board.

WASHINGTON, May 16.—Today's session of the American Protective Association of the Supreme Council was the most interesting of the convention because the action of the executive committee of the advisory board upon the action of the committee was made to the council late in the session. It was technically an endorsement of the executive committee. It asserted in substance that the executive committee was warranted, in view of the evidence presented, of placing a ban upon McKinley, but in addition it states that a further examination of their testimony by the full board has convinced the members that the witnesses were unreliable and their statements incorrect. Therefore the board concludes that McKinley should be placed on the same footing so far as the members of the A. P. A. are concerned, with other candidates for Presidential nominations and not be discriminated against. Appended to the report was a statement in writing by delegate Huddleson, of California, who asserts that the committee of which he was chairman, interviewed McKinley at Canton, O, on the 14th and the interview was satisfactory.

A HEAVY SENTENCE.

The Ex-City Treasurer of Omaha Sentenced.

OMAHA, May 16.—Henry Bollin, ex-city treasurer, was today sentenced by Judge Baker of the criminal court to nineteen years at hard labor in the state penitentiary and a fine of two hundred and eleven thousand dollars. Bollin was nearly four years city treasurer. His shortage was discovered last July. He was convicted at the second trial last week the jury having disagreed on the first trial. Bollin is 54 years of age.

THE TELLER BILL.

A Favorable Report From the Secretary of the Interior.

WASHINGTON, May 19.—The Secretary of the Interior has forwarded to Chairman Sherman of the House Committee on Indian Affairs a favorable report on the Teller bill providing for the abolition of the offices of Commissioner of Indian Affairs, and Assistant Commissioner and the substitution therefor of a board of three Indian Commissioners. The board is to consist of two members of opposite political faiths and an army officer.

REAL ESTATE TRANSFERS.

Reported for the Herald by the Valley Abstract Company.

May 15.

Joseph W Irwin to C A Garlick and wife rel mtge lots 1, 2, 3, 4, blk 18 Capitol Addition; $500.

Sarah M Pomeroy to Columbus Stewart rel mtge n ½ of n ½ of n ½ and n½ of s ¼ of n ½ of n ½ of se ¼ sec 24 1 n 5 e; $500.

Elizabeth G Ferguson to Henry A Hughes and wife rel mtge ne ¼ sec 30 2 n 2 e; $200.

G W Ferguson and Elizabeth G Ferguson to Henry A Hughes and wife rel mtge ne ¼ sec 30 2 n 2 e; $1300.

Sarah M Pomeroy to Simon J Murphy, deed, n ½ sec 34. 1 n 5 e; $10,000.

United States to George B Cole, patent, lots 3, 4 and e ½ of sw ¼ sec 18, 5 s 4 w.

Elizabath C and Louis F Kuldak to Walter Talbot, deed, lot 8 blk B, Richmond Place; $1500.

Gilfort Noland to Mickel Fitzpatrick, one-third interest in Mammoth No. 1 and Mammoth No. 2, mining claims, Harqua Hala District; $1.

HORRIBLE RESULTS

Of the Cyclone Which Swept Texas Yesterday.

THE KILLED AND WOUNDED

Will Reach Over Two Hundred and all Bodies not Yet Recovered.

JUSTIN, Tex., May 17.—Reports of destruction and death by the cyclone of last night continue to come in. Keller, a small town north of here was completely demolished, only on house being left standing. Thirty people were killed here and three at Gribble Springs. Five were killed at Denton.

SHERMAN, Tex., May 16.—The results of the terrible cyclone which swept Gray's Hill and Fairview addition to Sherman at 4:30 p. m. yesterday, are not yet completed. The list of dead, up to noon, included seventy-eight. At least a dozen more are expected to die before night. It is estimated that twenty or thirty bodies have not yet been recovered, and several hundred people are searching the fields, digging up the debris and dragging the creeks Six more bodies, four dead and two alive, were recovered this morning. The missing child of Luke Montgomery was found this morning 200 yards from her home. The little one's skull was crushed and the brains all gone as if scooped out. This completes the destruction of Montgomery's family, his dead wife and two babes being found last night.

It is reported that twelve bodies of dead whites are being brought in from the north of Sherman.

The streets are crowded with stricken people. Hundreds of farmers are in town and it seems as if the whole population of Dennison are here today.

The details of the storm grow more and more horrible. Bodies have been decapitated, limbs torn off, eyes gouged out, cheeks, fingers and toes cut off as clean as if with a knife; hair pulled out, great slivers of wood sticking through limbs, noses battered in, skulls crushed brains scouped out; some victims have their necks broken, others are mutilated horribly, some are not broken or bruised at all, but apparently lie serene in death. Many private homes are utalized as hospitals. Bodies are being brought in hourly.

The total killed will reach 120, wounded 100. The people are responding generously to the call for help, over $6000 having already been raised.

A REVOLUTION.

The Upper Amazon Country in a State of Revolt.

LIMA, Peru, May 19, (via Galveston.)—A revolt against the authority of the government which has broken out at Iquitos, on the upper Amazon, sixty miles above the mouth of the Napp, is classed in official circles here as a farce. To this is added that it is only a question of time when order will be restored and free indignation is expressed against the treachery of certain government employees there. President Pierola will dispatch two cruisers and troops immediately to Iquitos.

INDICTMENTS FOUND.

Prominent Denver People Under Arrest.

DENVER, May 19 — The Federal Grand Jury has found indictments against O. E. Miller, President of the Miller Hernia Co., and H. C. Dow, President of the defunct Commercial National Bank, on a charge of embezzling $125 000 of the bank's funds. Dow loaned Miller $125,000 although the law provides that banks can loan no individual or company an amount more than ten per cent. of its capital stock, and the Commercial's capital was $200,000. Before the crash in 1893 Miller obtained from Denver banks $345,000 on little or no security, and after the bank closed he went to Chicago where he obtained $325,000 by floating bonds.

TWENTY-EIGHT KILLED.

Is the Estimate On the Terrible Cyclone of Sunday.

KANSAS CITY, May 19 —Twenty-eight killed outright, fifty or more injured, some fatally, and property loss aggregating one million dollars, is now given as the estimated damage done by Sunday's cyclone in Marshal, Nemaha and Brown counties, Kansas. Further reports may increase these figures, as telegraphic communication with the stricken points is still imperfect and consternation prevails. Many were rendered absolutely penniless, and many victims escaped with only the clothes they wore. Appeals for outside aid have been issued.

GERMAN POSSESSIONS.

Those in Africa Not to Be Abandoned.

BERLIN, May 19.—During the debate in the Reichstag today on credits asked for Damarland, Germany and Southwest Africa, Dr. Kayser, Chief of the Colonial office, declared that in the opinion of the Government, Germany should never abandon her possessions in Southwest Africa and expressed the hope that reinforcements of 400 troops would be sent there by the end of the month. Dr. Kayser denied that Germany's action was intended to aid the British, saying it was the intention to maintain German rule there and was of general political importance.

SUMMER HOUSES BURNED.

The Cottage Once Occupied by Longfellow Destroyed.

NAHANT, Mass., May 19 —A fire, which started in the cottage once occupied by the poet Longfellow, and now owned by Alice Longfellow, a daughter of the poet, burned five handsome summer houses here; loss $100,000.

LEVI STRAUSS & CO.

OVERALLS AND SPRING BOTTOM PANTS.
EVERY GARMENT GUARANTEED.
EMPLOY OVER 350 GIRLS.

A TERRIBLE CYCLONE.

Kansas Visited by an Awful Wind Storm.

MANY DEAD AND INJURED.

But Five Houses Left Standing in the Town of Reserve.

KANSAS CITY, May 18.—News of the loss of life and destruction of property by yesterday's cyclone in Kansas, is slowly coming in, owing to the crippled condition of the telegraph wires. Fully half a dozen towns were struck by the twister and it is known that the dead will number seventy. The injured number about thirty. Many of the injured are fatally so. Reserve, a village on the Missouri Pacific, in Brown county, seemed to have felt the brunt of the storm; but five houses are left standing there.

The cyclone crossed the central branch of the Missouri Pacific at Blue river, two miles east of Irving, followed the railroad and river to Frankfort, thence north to Rileyville, Seneca, Sabetha and Reserve, entering Nebraska at Falls City. At Falls City it overturned twenty-six freight cars, demolished the B. & M freight depot and damaged twenty six houses. Mr. and Mrs Hinton were reported hurt. At Sabetha, Kansas, twenty-five houses were destroyed and twice as many were wrecked.

NEW YORK SUFFERS.

Fruit Trees Blown Down and Much Damage Done.

NIAGARA FALLS, N. Y., May 18 —The great Niagara fruit belt has suffered a vast loss by Sunday's windstorm. The young fruit was blown from the trees in clusters and trees were blown down in places.

A TERRIFIC STORM.

Southern Wisconsin and Michigan Suffer Severely.

MILWAUKEE, May 18—A terrific wind storm reaching a velocity of fifty miles an hour swept over southern Wisconsin and Michigan yesterday. A tremendous sea was running on the lake all day and vessels sought the ports. The peach crop in Michigan suffered. Trees were uprooted and houses blown down.

WILL AMALGAMATE.

Federation of Miners to Join the American Federation.

DENVER, Col., May 18.—The Western Federation of miners have decided to amalgamate with the American Federation of labor and will elect delegates to the convention of the latter body. The selection of a site for a home for invalid miners has been left to the executive committee. Congress and state legislatures will be asked to aid in establishing the institution.

SUNDAY LAW.

An Opinion by the Superior Court Today.

WASHINGTON, May 18 —Justice Harlan today delivered an opinion in the Superior court case of Hennington vs. State of Georgia, involving the constitutionality of the law prohibiting the running of freight cars in Georgia on Sunday. The opinion held the law valid.

NO INVESTIGATION.

Alabama Election Frauds to Pass by.

WASHINGTON, May 18.—By a vote of 6 to 41 the Senate refused to take up the resolution to investigate alleged election frauds in Alabama in the Kolb-Oates election contest.

Notice to Sunday School Superintendents.

Requests have been mailed to each Sunday School Superintendent in Maricopa County for reports giving membership and other statistics of their respective schools. If blanks fail to reach any they are requested to notify the undersigned and others will be sent. We desire complete reports from every S. S. in the county, that our report to the Territorial Association may show our full strength.

Please be prompt.

A. P. WALBRIDGE,
Secretary Maricopa Co. S. S. Ass'n.

Sunday School Convention.

Secretary Messenger, of the Territorial S. S. Association, has called a meeting of the organization to be held in Flagstaff on August 14, 15 and 16 next. An excursion train will be run from Phoenix to carry delegates and visitors from the south and it is expected that a large number will take advantage of cheap rates to visit the north. A good program will be arranged, and it is hoped that every county will be represented.

CHARLES LOUIS DEAD.

He was a Brother of Emperor Francis Joseph.

VIENNA, May 19.—Arch Duke Charles Louis of Austria, oldest brother of Emperor Francis Joseph is dead, aged 54.

STILL MISSING.

The Supposed Murderer of Mrs. Langfeldt

AN AUSTRIAN NOBLEMAN.

The Police Have a Chain of Circumstantial Evidence Which Will Convict.

SAN FRANCISCO, May 19—Joseph Blanther, suspected of the horrible murder of Mrs. Langfeldt, is a Knight of the Austro Hungarian Empire, a lieutenant of the army of Franz Josef and entitled to a crest and coat of arms. All this was revealed by papers and decorations found in his trunks. He is still at large.

SAN FRANCISCO, May 19.—The police believe that they have a chain of circumstantial evidence that will be sure to convict J. E Blanther, the Austrian nobleman of the murder of Mrs. Langfeldt, if they can catch him. So far, however, their efforts in that direction have been unsuccessful, and Blanther's whereabouts is still a mystery.

THE S. P. OUTLOOK.

Southern California Land Taken From the Railroad.

LOS ANGELES, May 18.—Judge Ross of the United States circuit court today delivered an opinion adverse to the defendant in the test cases which have been brought to establish the rights of settlers on thousands of acres of land in Southern California claimed by the Southern Pacific railroad. Special Attorney J. H. Call has handled the cases for the government. The decision states that the railroad was guilty of gross negligence in not filing its map and five years of such delay has defeated its claims to the land.

SPAIN ALL RIGHT.

The United States Infringes on Treaties.

MADRID, May 16—It is stated that the Spanish government in a circular note to the Powers regarding the attitude of the United States toward Cuba has taken the position that while Spain has scrupulously observed all treaties the United States has infringed upon all conventions.

LADY SHOLTO DOUGLASS

Will Come to Arizona When She Has Seen New York.

CHICAGO, May 19—Lord Sholto Douglas, who is still in Arizona, is trying to get his wife to return to him, but in an interview last night the little vaudeville artiste says that she must see the sights of New York first and then she will go to her Lord in Arizona and be good again.

QUAY AND McKINLEY.

The Pennsylvania Statesman to Go to Ohio.

WASHINGTON, May 19.—Senator Quay said today that if the business of the Senate which was occupying his time could be arranged, he was going to his home in Pennsylvania and would thence go to Canton, Ohio, to talk over the financial question with McKinley.

A DOUBLE MURDER.

An Indian Kills His Wife and Paramour.

RENO, Nev. May 19.—A double murder was committed at Pyramid Lake, on the Indian reservation, May 18th. An Indian named Sam Small shot his wife and paramour with a pistol, which he stole from a policeman. The woman died instantly, but the man, George Meserve, an Indian, is still alive, though dangerously shot. The Indians are much excited over the affair and lynching is threatened.

NEGRO LYNCHED.

Attempted to Outrage a White Lady.

NEW ORLEANS, May 19.—Last night Jas Dazzle, colored, was taken from the jail at St. Bernard Parish and lynched. He was arrested for attempting to outrage a white lady near the Patterson plantation Sunday morning.
