

Royal makes the food pure, wholesome and delicious. ROYAL BAKING POWDER Absolutely Pure

WHEAT is up again. The spirits of the calamities droop correspondingly.

There are still a few left who say that they do not see any prosperity returning.

No protest has come from any of the manufacturing centers against the effect of the Dingley tariff law.

The New England catch of mackerel is nearly 60,000 barrels less than that of last year. Calamity howlers, take notice!

The Treasury Department coined \$196,000,000 in gold last year and \$153,000,000 in silver. This looks as though silver had not been entirely discriminated against.

NANKEN has reached New York and felt the touch of American gold in his pocket. It seems to please him. He took a Klondike trip for it but gets his returns in the yellow stuff already coined.

The smelter matter is receiving considerable attention among mining men and it is quite probable that our citizens will soon be invited to furnish a site at least, which the city can well afford to do.

Mr. JOHN J. BROOKS is the Republican candidate to fill the vacancy in the third ward. He is a good man for the position and the people of that ward will make a mistake if they do not elect him.

The young Englishman, Lord Sholto Douglas, who spent some time in this city a year ago last winter and spring, was in the terrific railroad disaster on the Hudson river last Sunday morning but escaped serious injury as he happened to be in the rear sleeper.

THE HERALD does not represent that sort of Republicanism to which Democratic interlopers can dictate or with which Democratic interlopers can interfere when Republicans hold the reins of government. When it concludes to be run by Democratic adventurers it will be Democratic and nothing else.

REPORTS from Baltimore are to the effect that Maryland will have a Republican Senator in Gorman's chair before the winter goes by. That State gave McKinley a majority of 32,000 last year and elected a legislature of 43 Republicans on a joint ballot. Mr. Gorman now offers to vacate if it will save the State to the Democracy. He is too late.

An evidence of the improvement in business since the people of the country decided in favor of protection and sound money is found in figures in the recent report of the Interstate Commerce Commission. They show that the freight tonnage for the year just ended is the largest in the history of the railways of the country, and is no less than seventy million tons in excess of the preceding year. The gross earnings of the railroads of the country for the year were nearly \$75,000,000 greater than those of the preceding year.

It is somewhat peculiar with what alacrity the Democratic journals of the Territory bob up with suggestions to the Republican administration for appointment to the office of Chief Justice just so easily vacated by the death of Chief Justice Treadwell. The man was literally not yet cold when the Tucson Star, claiming to be the leading Democratic paper of Arizona, wrote and published an article, repeated by the Gazette, in an attempt to dictate to Republicans who their appointment should be for the vacant office. Such support will injure any candidate immeasurably, who desires that position. It would ruin any man's chances for any position.

HOSTETTER'S Debitated and Nerveless are in DOUBLE POWER. The Bitters Keeps The Body VIGOROUS and HEALTHY.

SPAIN, it is reported, in her reply to Woodford's note, repudiates the proposed interference of the United States in the Cuban matter and actually says to Minister Woodford that she will attend to her own business in her own way and time. The result will be the certain loss of Cuba to Spain. There are some things that Spain can't do.

MAUDE GUNNE is not gone; she is here on American soil with her shillily and the fellow that thinks she is absent had better not be present. Maude Gunne, all jokes aside, is a beautiful Irish girl, twenty-seven years old, who is devoting her life and her fortune to the amelioration of the political and material bondage into which Ireland has been plunged.

A FAMINE in Ireland is said to again be imminent. England should be ashamed of herself that she cannot feed the people of Ireland nor afford them means whereby they can feed themselves. That famine comes along periodically and Great Britain, with all her wealth and resources lets the people starve till some foreign country takes compassion on them.

PERHAPS of all the important elections to occur tomorrow, the greatest interest centers in that of Greater New York, even more than in the great state election of Ohio and those states holding gubernatorial elections, Maryland, New Hampshire and Virginia. It looks as though Tammany had through the death of Henry George curtailed the thing but there may be surprises in store. It is certainly very uncertain.

THE recent statement issued by the Treasury Department shows that the silver money in the world, which was "struck down," amounted to \$1,817,000,000, now amounts to \$4,200,000,000, an increase of 131 per cent., while the gold money of the world has increased only 33 per cent. in that time, being \$3,045,000,000 in 1873 and \$4,100,000,000 in 1896. That does not look as though silver had suffered very much since the so-called "crisis."

THE Blackfoot Indian Reservation in Montana is to be thrown open for settlement as early day, the survey having been completed. That fact causes Arizona to inquire how it is that no efforts are being made to open up the enormous and useless Indian reservations of this Territory to settlement. The Indians of Arizona are occupying large tracts of the most valuable land within our borders, nine tenths of which are perfectly useless to the Indians.

Tax Democratic attack upon Senator Hanna and the Republican administration with reference to the Pacific Railroad sale has proven a flat failure. The fact that the sale was ordered by a Democratic administration, and that the road is to be sold to the highest bidder, with no advantages given to the syndicate which has arranged to start it at \$50,000,000, has completely annihilated the statements of the secession mongers whose charges are thus proven absolutely without foundation.

THE mean temperature for October, according to the monthly summary by Observer W. T. Elye of the Phoenix station has been 68 with lowest at 42 and highest 100. The mean temperature of October for thirteen years has been 69. The precipitation was .15 inches; the average precipitation for that month in sixteen years has been .62 inches and no frost. Altogether the October just passed has been what might be termed "climatically fine." The considerable range of temperature between 100 and 42 degrees, the extremes, were not sudden but covered a range of some days and therefore not felt, nor had it the effect of a sudden change in that direction.

THERE are some sorts of politicians calling themselves Democrats who constantly intermeddle with the affairs of the Republican administration, intruding themselves under all circumstances and under all conditions, and at all times, who need kicking out, with emphasis and muscle on the kicking. They are really not Democrats, they are not Republicans, they are not of any party of principle or of standing; they are boddies masquerading where they imagine they have the best chance to follow their natural instincts. It is time this gang should be given to understand that their presence is unwelcome, their suggestions impertinent, their character odious, their abjects desirable, their attention to their own business invited. Governor McCord, the Board of Control, the Funding Commission, in fact the whole administration has been hampered, dogged about, foisted, cozied, used by these traitors till Republicans are disgusted and tired of the sight and disgraced by the sight. The Herald has a bit of advice for them. They go.

THE brick the HERALD threw at that black cat the other day seems to have hit a couple of the interlopers had by the way they squirm. The Herald has no objection to any paper expressing its preference for any man, but when it attempts a dictatorial tone with an air of owning and running the Republican party business, forbearance ceases to be a political virtue.

ON the 21st ult. the chainless bicycle was put on exhibition by the manufacturers in all the larger towns and cities throughout the world. In the New York display rooms a count was kept of the number of visitors and from eight o'clock in the morning to six o'clock in the evening 10,511 visitors examined the wheel. It sells for \$125 and the manufacturers of the Columbia seem to have a new bonanza.

CHAUNCEY M. DEWEY, President of the New York Central, declares that the terrible disaster a week ago yesterday morning on the Hudson river was caused by a diabolical plot to commit robbery and that the train was blown up by dynamite. There was upward of \$400,000 known to be in the express safe and report had been sent out that there was also much Klondike gold aboard. The evidences of dynamite are numerous and convincing.

PRESIDENT MCKINLEY has set an example to Republicans in his own State, and in other States, by going home to cast his vote on election day. He has had an unusually hard year. Just a year ago he was at the end of a heated campaign with thousands and sometimes tens of thousands of people calling upon him in a single day. The election was followed by months of difficult toil in shaping up his cabinet and policy. inauguration was followed by other months of equally hard and difficult duties. Yet he does not hesitate to make a trip to Ohio simply to deposit his own ballot, an example which every Republican in every State where an election is held ought to emulate, both by casting his own vote for the full straight ticket and also by seeing that his neighbors do the same.

The elections today in the east are attracting more than usual interest, though they really and rarely signify little when it comes to national politics. However, they are likely to give color to the next United States Senate and therein most of the interest lies. The following are the candidates for Governor in those States electing Governors: In Ohio: Republican, Asa S. Bushnell; Democratic, Horace L. Dexter; Populist, Jacob S. Coxey; Socialist, Wm. Watkins. In Iowa: Republican, L. M. Shaw; National Democratic, J. Cliggett; Middle of the Road Populist, Chas. A. Lloyd; Silver Fusion, F. E. Waite. In Massachusetts: Republican, Roger Wolcott; Democratic, Wm. Everett; Prohibition, J. Bescom. In Virginia: Democratic, J. Hodge Tyler; Prohibition, L. R. Child; Republican, H. H. McCull; Socialist, J. J. Quanz. Other states holding elections for state officers of one class or another are Pennsylvania, Kentucky, New York, Nebraska, Maryland, Colorado, South Dakota.

THERE is quite a contrast between the present business condition of the United States and these at this time in the first year of Cleveland's administration. In August and September of 1893 banks were breaking, business establishments closing, and prices falling. Now prices are rising, new banks are being organized, and business establishments which have been closed for four years are opening up. The latest issue of Bradstreet's states that the three cordage mills at Osas, Ohio, which have not been in operation for several years, will be started up at once and with a full force, and as the establishments cost over half a million dollars, it goes without saying that this will give employment to a large number of men. The East Lake Woolen Mill, Bridgeton, Pa., which have been idle for nearly three years, will resume operations next week. The West Paper Mills at Malone, N. Y., which have been idle for a year, will reopen at once. The Chesapeake & Ohio and the Cleveland, Cincinnati and Chicago and St. Louis railroad companies have ordered 1,000 additional box cars each for their grain transportation. The Cleveland Rolling Mills announce an order for 1,000 tons of steel for exportation to Birmingham, England. The Appleton, Wis., Paper Mills announce orders from Japan for 2,000 tons of print paper. The ironworkers of the country report the demand for foundry pig iron so great as to have practically annihilated their large accumulation of stock. The contrast in business conditions between the opening months of the Cleveland administration and the McKinley administration is very great.

Money Markets. New York Nov 1.—Silver certificates 58 1/2 @ 60; bar silver 57 1/2; Mexican dollars 44 1/2.

The area of the Hawaiian islands is 7,600 square miles; the population in 1896 was 109,000; its exports in 1896 were worth \$15,543,000 and its imports worth \$7,164,000, and yet there is a popular impression that Hawaii is inhabited by half naked cannibals who spend their time sleeping in the sand, fishing and waiting for some particularly juicy white man to have in sight. That was true a century ago but not now. Hawaii now has a system of free schools modeled after our own system and every child physically able is obliged to attend eight months per year. The native Hawaiian born population can now read and write the English language. Its principal city, Honolulu, has twenty miles of macadamized streets, a street railway system, electric lights, etc. In short Honolulu and the Hawaiian islands in general are up abreast of any equal area of country in the United States.

EDISON has contrived, after quietly experimenting for eight years, a system of mining and reclaiming iron ore from the rocks of New Jersey, where it abounds in minute particles, but which to the present time under any ordinary system of mining has been unobtainable. The system he employs with iron ore should be available for the reduction and securing of gold ores. If so it will make available enormous quantities of low grade ores in this Territory that are now unavailable because the ordinary methods of mining and milling is too expensive or rather cannot handle them with sufficient expedition and in sufficient quantity to make them pay. With the Edison method of reducing the ore and with the Colorado river in the Grand Canyon to furnish electric power that can reach at least the entire northern half of Arizona, the future mining operations for gold in this Territory are likely to be something enormous and the gold output something phenomenal. The Edison method of mining and handling iron ore is certainly a great success and there is no good reason why it should not be as successful in gold mining.

WOLFFLEY'S CLAIM ALLOWED

The Board of Control Offsets the Territorial Courts. The claim of Ex-Governor Lewis Wolffley for \$5000 which the Auditor and Governor of the Territory have long refused to allow and which the court of Pima county set aside was allowed yesterday by the present Board of Control for \$3,650. The question is, why was the claim not allowed for all that it called for. It was a valid claim it was valid for all it called for or it was not valid for anything. Gov. Wolffley's claim was that he had spent the money out of his own pocket in passing the Funding Act in Washington which amounted to \$2000 three years ago. Was that a false claim? The action of the Board of Control yesterday would make it look that way and yet it is partly paid. The following is the action taken according to the minutes of the Board yesterday: OFFICE OF THE BOARD OF CONTROL, PHOENIX, ARIZ., Oct. 29, 1897. The Board of Control met at 11:45 a. m.

Present: M. H. McCord, chairman; G. W. Vickers, member; and Richard H. Barker, secretary.

Messrs John A. Black and R. H. Burmeister, accompanied by their attorney, Webster Street, appeared before the board in the interest of a claim held by John A. Black, assignee of Lewis Wolffley.

After listening to the reading of a brief and argument by the attorney of the claimant, Webster Street fully setting forth and explaining the matter in hand (a copy of which is on file in this office), the following resolution was offered by M. H. McCord: "Resolved That the claim of John A. Black, as assignee of Lewis Wolffley, for the sum of \$5000 and interest to date amounting to \$6,267.62, this day presented to the board, be and the same is hereby approved, for the sum of \$3,650. The said \$3,650 to be accepted by the assignee of the claim in full for all demands against the territory of Arizona consequent to or arising from said claim. That the auditor be requested to issue a warrant to John Black or a certificate of indebtedness in favor of said Black for \$3,650 in full settlement of said claim."

Motion passed by the following vote: ayes, McCord and Barker; noes none, G. W. Vickers no voting. On motion the board adjourned.

The mother of ye editors is the oldest person in Flagstaff. She is in her eighty-first year.—Flagstaff Sun-Democrat.

SKINS ON FIRE CUTICURA. Skins on fire with itching, disfiguring, itching, burning, bleeding, scald, and pimply eruptions, instantly relieved by a warm bath with CUTICURA SOAP, a single application of CUTICURA Ointment, the great skin cure, and a full dose of CUTICURA RESOLVENT.

UNION PACIFIC SOLD.

The Sale Took Place This Morning.

REORGANIZATION COMMITTEE

Bids \$57,564,832.76 and Get the Road and Bonds.

OMAHA, Nov. 1.—The Union Pacific was sold to the re-organization committee for \$39,993,281.57 for the railroad property and \$13,045,250.89 for the bonds.

OMAHA, Nov. 1.—The Union Pacific road proper, including the buildings and all that go to operate the system was this morning sold to the re-organization committee for the sum of \$33,528,532.76. This amount does not include the sinking fund in the hands of the government and taking this to be \$4,036,400, the amount stated in the government decree covering the sale of the road, the total price paid for the property is \$37,564,932.76. There were no other bidders and the road went to the re-organization committee without opposition. The sale of the road was in itself one of the most tame and uninteresting performances possible to imagine. It was advertised to take place in front of the Union Pacific freight house at the junction of Ninth and Jones streets at 11 o'clock, and it was just one minute after that time when Master in Chancery Cornish, the auctioneer, took his place on the low stone step in front of the Ninth street entrance. For over an hour the crowd had been waiting to witness the sale and with great difficulty Cornish could get sufficient room to enable him to work.

Cornish carried under his arm a large portfolio bound with the regulation red tape and soon the crowd gave him room to extend his arms. He unrolled the strings and drew forth a number of papers. Selecting one he placed the others and holding it out said, "Gentlemen, I am here to sell certain railroad properties pursuant to a decree of the United States Circuit Court. I will now read a description of the property to be sold and when I have finished the reading I will be prepared to receive bids, which was very long, being about four columns of legal type and read it. After reading a protest from Receiver Turnbull, Cornish placed it in the portfolio and said, "I am now ready to receive bids for the railroad property, the description of which I have just read." There was a moment's silence and then General Fitzgerald said, "I bid thirty-three million, eight hundred and eighty-three thousand, two hundred and eighty-one dollars and eighty-seven cents, in the name of Louis Fitzgerald and A. W. Kreeb, purchasing trustees. There was another pause and Cornish said: "Are there any more bids." There were none and the Master continued: "I will now receive bids for the sale of bonds the description of which I have received," General Fitzgerald replied: "I bid on behalf of Louis Fitzgerald and A. W. Kreeb, purchasing trustees, the sum of thirteen million six hundred and forty-five thousand two hundred and fifty dollars and eighty-nine cents." In both instances General Fitzgerald read his bid from a memorandum which he held in his hands. In response to the query: "Are there any more bids," there was not a sound and the Master continued: "As there are no more bids, I declare the property of which I have just read a description, sold to Louis Fitzgerald and Alvin W. Kreeb, purchasing trustees, they having made the highest and only bid." That was all to the sale and the members of the re-organization committee and attorneys left no time in getting back to the offices of the Union Pacific road. Under the terms of the sale the purchasers have ninety days in which to pay over the full amount of the purchase money and that part of the transaction will be carried out in New York in the future.

The members of the committee had nothing to say after the sale was over.

OMAHA, Nov. 2.—The reorganization committee of the Union Pacific which yesterday bought the government lien on second mortgages on the property of the Union Pacific, today purchased the first mortgage on the same property by which its construction bonds were secured. The price paid was the amount named as the minimum bid \$50,637,435. The property was bought as was the second mortgage by the name of Louis Fitzgerald and Alvin Kreeb as purchasing trustees.

This concludes the sale and as there is no other property to be sold the thing is finished. The report of the sale made yesterday was filed today in the office of the clerk of the United States Court. The report stated that the order of sale was issued by Judge Sanborn and in accordance with the provisions of that order it mentions that representatives of the purchasers deposited with the master, within the proper time, a certified check for one million dollars as a guarantee for the bid for the property and a certified check for \$1,364,000 as a guarantee for the purchase money.

Kreeb represented \$39,993,281.57 for the railroad property and \$13,045,250.89 for the bonds. The only other bidder was the re-organization committee, which deposited a check for \$3,650 in fulfillment of the master, day and in estimate of the purchase money.

PHILADELPHIA, Nov. 2.—Rain has fallen almost continuously since yesterday morning. Even a lighter vote is in prospect in the early hours than was anticipated. The vote in this city will be light.

PHILADELPHIA, Nov. 2.—The vote is light throughout the city and state. Swallow is getting a good vote in all sections.

REPUBLICANS WIN.

Election Returns From Many States.

KILLING IN KENTUCKY.

Rain in Many States Retards the Voting—Bitter Contest Fought.

NEW YORK.

NEW YORK, Nov. 2.—The rain which fell more or less persistently throughout the forenoon had little effect in restricting the voters of Greater New York from giving expression to their preferences for city and borough officials. The polls opened at six o'clock and within two hours a good third of the votes had been polled in the resident districts of New York and Brooklyn. From that time forward the polling proceeded less rapidly, so that noon but a small fraction of the registered vote remained uncast. In suburban precincts the voting was a little behind.

NEW YORK, Nov. 2.—The only state office to be filled by the election today is that of chief justice of the court of appeals. Members of the assembly and county officers are also to be chosen and in the cities of the second class municipal elections are in progress. Rain is general throughout the state. At police headquarters it was said at noon there were about 400 warrants out for the arrest of fraudulent voters. Everything was quiet during the morning.

SYRACUSE, Nov. 2.—W. J. Ball, republican candidate for member of the assembly for the first district, of Onondaga county, died this afternoon. He has been ill for some time.

KENTUCKY.

FRANKFORT, Ky., Nov. 2.—Election day was unbarred in a bloody encounter on the streets between Republicans and Democrats at 10 a. m., resulting in the death of three men and wounding of two more. The difficulty began by the effort of Frank Egbert, of the Republican organizing party to lead off a party of Democrats under Dan Marshall, whom Egbert claimed had taken a number of negroes to the country to prevent their voting. Egbert, it is said, snatched Marshall's revolver and fired on him from ambush, wounding him and Smith seriously and slightly wounding Alex. Graham, a negro. Deputy Sheriff Deakins organized a posse and attempted to arrest Egbert and party. The two parties met and firing began. Fifty shots or more were fired and Egbert was instantly killed while Deakins was mortally wounded. Howard Giare one of Egbert's men, was killed and Walter Gains, a negro, seriously hurt.

LOUISVILLE, Nov. 2.—From indications a big vote will be polled today, notwithstanding it is raining steadily. The feeling is at fever heat and every line in the history of the city have party lines been drawn so closely. The contest is more bitter owing to the fact that the A. P. A. is said, is solidly aligned for the Republican ticket. The Catholic vote is equally solid for the Democratic ticket.

LEXINGTON, Ky., Nov. 2.—The election in this city and county today is a most bitter contest. The Republicans and National Democrats, led by Hon. W. O. P. Brockenridge, have a fusion ticket opposed to the Silver Democrats. Every hardware store in the city has sold out its stock of firearms.

LOUISVILLE, Nov. 2.—The latest returns indicate the election of Shaokeloff, silver democrat for clerk of the court of appeals.

LOUISVILLE, Nov. 2.—A large vote in all the state. Few disorders. The returns at one o'clock indicate a democratic victory.

OHIO.

CINCINNATI, Nov. 2.—The weather continues rainy with no prospects of clearing. At 8 o'clock the crowds were disposed of and polling was proceeding slowly. It is almost impossible to make a prediction, the common remark being that the weather is favorable to the Democrats.

CLEVELAND, Nov. 2.—Rain was pouring down during the early hour and the vote was slow. The interest is not as keen as it was a year ago. The fight is against Senator Hanna but his friends have no fear of the result.

TOLEDO, Nov. 2.—It is raining steady but the vote is getting out early. At 8 o'clock one-third of the total vote had been polled. The Columbus polls opened with a heavy shower and cloudy sky and voting at the rate of one per minute.

LEVI STRAUSS & CO. FACTORY-SAN FRANCISCO-CAL. COPPER RIVETED OVERALLS AND SPRING BOTTOM PANTS. EVERY GARMENT GUARANTEED. EMPLOY OVER 350 GIRLS.

HAWAIIAN NEWS.

Major S. A. Mulhanser of Cleveland Attempts Suicide.

PETTIGREW AND DUBOIS.

They are Returning From a Visit to China and Japan.

SAN FRANCISCO, Oct. 30.—Irrig Hawaiian advice under 23rd instant arrived today. Peru: Major S. A. Mulhanser, land, Ohio, who is here on which he has surrounded with made a futile attempt to suicide on the 22nd by shooting himself in the breast with a small revolver.

Despite denials from Washington Mulhanser in interviews by the San Francisco papers claimed that he was coming to Hawaii on a special mission on behalf of President McKinley. While here Mulhanser denied the authenticity of the interview, but stated that his father and Mark Hanna were warm personal friends and that he was close to McKinley. He also professed to be connected with several newspapers and said he had accomplished much work already.

While a frequent caller at the American legation and government building here no one seems to know his business. Senators Cannon, of Utah, Pettigrew, of South Dakota and Dubois, of Idaho, who have been studying the operations of the gold and silver standards in China and Japan, are returning from Cannon arrived on the Peru and the shore here for a few hours and the Pearl harbor and other interest.

SCOTTSDALE.

One of the Fine Places of the Valley. SCOTTSDALE, Nov. 1, 1897. What the Illinois family has joined the Gold Colony. Mrs. West and two sons from Bannell, Illinois, are at Chaplain Scott's. Mr. West will soon join them and they expect to locate on a ranch of their own and become permanent settlers. We are glad to welcome such people to our midst.

News was received of the safe arrival of Mrs. J. W. New York home. She is in the city everybody and will be in the city on her return.

SOUTH DAKOTA.

SIOUX FALLS, S. D., Nov. 2.—Dispatches from 100 different points in the State indicate a light vote. There is some outting of the Republican ticket in Yankton and Beadle counties, while in Minnehaha county the Populist candidate is being knifed by the Democrats.

NEBRASKA.

OMAHA, Nov. 2.—Election day is bright and clear in Nebraska and voting is going on steadily. It is not likely a large vote will be cast, as the registration was light.

LINCOLN, Nov. 2.—Both Republican and silver men were stirring early and efforts will be made to get a large vote. The chief interest here is over the contest for State Judge.

IOWA.

DES MOINES, Nov. 2.—The Indiana noon point of the polling of the State is a perfect autumn day through the State.

Electric Bitters.

Electric Bitters is a medicine for any season, but perhaps especially needed when the lungs are feeling sore, when the throat is feeling sore, when the head is feeling sore, when the stomach is feeling sore, when the bowels are feeling sore, when the nerves are feeling sore, when the system is feeling sore, when the body is feeling sore, when the mind is feeling sore, when the soul is feeling sore, when the spirit is feeling sore, when the heart is feeling sore, when the lungs are feeling sore, when the throat is feeling sore, when the head is feeling sore, when the stomach is feeling sore, when the bowels are feeling sore, when the nerves are feeling sore, when the system is feeling sore, when the body is feeling sore, when the mind is feeling sore, when the soul is feeling sore, when the spirit is feeling sore, when the heart is feeling sore.
