

**TOMBSTONE EPITAPH**  
PUBLISHED EVERY SUNDAY.  
**ARIZONA KICKER**  
PUBLISHED WEDNESDAYS.  
Tombstone, Cochise County, Arizona.

C. B. Tarbell left today for a brief visit to Pearce.

J. V. Vickers returned this morning from a trip to the C. C. Co. range in Graham county.

Invitations are out for the wedding of Miss Maggie Holland and Harry Hazelwood to take place in Tombstone June 15th.

The citizens of Tucson are displaying their patriotism by making substantial subscriptions to the fund for the grand celebration on the Fourth of July.

Deputy Collector James P. Welsh of Buenos Ayres, has been transferred to Bisbee. Special Inspector T. J. R. is stationed at Buenos Ayres.

W. A. Kimball of Mesa City was appointed by Governor McCord delegate to the miners national convention which convenes at Salt Lake City July 6 to 9.

The Star says, United States Attorney Robert E. Morris yesterday filed a motion for a new trial in the case of the United States against the Copper Queen company, which was decided in the district court Wednesday in favor of the defendants. Judge Davis named June 29 as the day for arguing the motion.

J. W. Stump, voluntary weather observer, reports to the bureau the following from Bisbee—Temperature, highest 88, lowest 52. The only item of interest since last report is the continuous cool weather, prevailing throughout May. Not a drop of rain fell here during May, but the grass looks surprisingly well.

Mr. John Francis, the well known mining and smelting man, returned this morning from Middlemarch, in Cochise county. He reports that camp enjoying a high degree of prosperity. A sixty ton smelter is at work and the results are such as to justify the belief that prosperity has come to the camp to stay.

Noticing the name of Hon. B. A. Packard, of Cochise county, in a territorial exchange reminds us that he was one of the men in the Nineteenth legislature who was true to Arizona and stood with determination for the people against every jangling scheme proposed in that body. Cochise county democrats could do no better than to send "Pack" to the Council again.—Bulletin.

He will undoubtedly be sent there as usual.

The Arizonan make a wise suggestion that our law makers of the Territory should make some change in the present method of getting witnesses on the petty and of time useless lawsuits so common. Men are dragged away from their business who know absolutely nothing of the case, and that too without fees or even mileage. Were those who commission unnecessary witnesses compelled to pay the costs thus needlessly made, it would soon put a stop to a great evil.

**MEXICAN CATTLE.**  
Why a Stock Journal Wants Importations Stopped.

The Denver Stockman does not think well of Mexican cattle imported here. It says:—The discovery of ticks on some Mexican cattle which were coming into the United States has put a sudden stop to the importation of Mexican cattle, and it is probable that the quarantine will accomplish what Dingley's tax failed to do—stop the importation. Mexican cattle have hoofs and horns, but some of the feeders insist that they are not cattle in the feed lot meaning of the word. Some of the cattle that came in last year are still destroying good corn down in Kansas, though they have changed horns warned over feeders half a dozen times. Some of the Mexican cattle make good beef, but unfortunately the Mexicans know a good steer as well as the next man and few of the good cattle cross the line. If the much abused tick succeeds in stopping the flood of this class of cattle it deserves a credit mark.

**NUGGING THEM UP.**

**Governor McCord and the Arizona Regiment.**

The Republican says at a late hour yesterday afternoon Governor McCord had received no word from the war department regarding the expected authority to raise an Arizona regiment. Inquiries had been made from parts of the territory. In the hope of getting early information as to the intention of the war department he sent the following dispatch to the secretary of war last night:

Phoenix, June 7, 1898.  
Hon. Russell A. Alger, Secretary of War, Washington, D. C.  
Will you please give me an intimation as to date I may expect authority to raise regiment? Companies have been recruited all over the territory and the delay is making them anxious and doubtful as to the probable outcome. Can have regiment ready in ten days after order is received.  
Myron H. McCord, Governor.

Prof. J. A. Rockefeller left today for Cochise county where he goes to enter upon an extensive series of surveys. Prof. Rockefeller has come to be regarded as one of the best educators in the country and many regrets have been expressed over his declination of the principalship of the public schools of this city, and his preference for "field work" leaves a vacancy not easy to fill. His engagements for surveys in Cochise county alone will occupy his attention for much of the summer and probably he will round out the year on work in that county. His address for the next several months will be Pearce.—Citizen.

The Journal-Miner is in receipt of a copy of the Honolulu Advertiser and from an extended account given in it of a big meeting to arrange for a reception to the United States troops on their arrival there enroute to the Philippine islands, one would think that Hawaii was already a part and parcel of the United States. The Advertiser says "there has not been a meeting in Honolulu since 1893 equal to this one. The government sent Captain Berger and the band. Enthusiasm ran high. All the addresses especially that of the American minister resident, were applauded. Mr. Sewall was frequently interrupted by cheering."

It is reported from the War Department at Washington, that within the last ten days the Government has expended more than half a million dollars for mules. Prices for this hybrid have advanced from \$40 to \$100 and over.

**Highwaymen on Wheels.**  
A wheelman of West 4th street, New York, was attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated accounts of robberies by men mounted upon wheels have appeared in the papers in various parts of the country. Those predators of the health, diseases of the kidneys and bladder, will likewise escape arrest, and pursue their atrocious career unchecked, unless they are arrested by the potent intervention of Hostetter's Stomach Bitters, the finest diuretic, as well as tonic, known to modern times. It is at the start that disease is the more easily overcome. The use of the Bitters is followed by the happiest results in dyspepsia, liver complaint and nervousness.

**A MUSE.**  
A Ruminator in the Field of Poetry.

Forward, turn forward, oh time in thy flight, turn me in a fortune and set me up right; I am weary of running in debt for my clothes, and owing for the grub that down my throat goes; weary of working for what I have not. Never oh! never turn backward on me, for well do I remember my good mother's knees. I remember the slipper that came with a siam whenever I got in the blackberry jam; the days, too, at school, what a terrible bore when I was obliged to stand on the floor, and all in the world that I'd ever done was to wink at a girl, a pure matter of fun. The days that are past like the days that we meet composed of a fair mixture of bitter and sweet. So forward, turn forward, oh time in thy flight, give me some cash just for tonight.—Ex.

**BORN**  
WILLIAMS—In Tombstone June 9, 1898, to the wife of T. C. Williams, a daughter.

**CATTLE SHIPMENTS.**

**Cochise County Cattle for Eastern Markets.**

Following cattle shipments are reported by the Range News:—  
From Fisher—May 30, by E. J. Temple to Pawnee Cattle Co., at Denver, 850 head in "Turkey Track" and about 75 in other brands.  
From Wilcox—June 1, by M. M. Sherman to himself at Geneseo, Kan., 574 head of steers purchased from B. Riggs and sons.  
June 2, by Frank G. Bloom to the Bloom Cattle company at Lake View, N. M., 747 head of mixed cattle furnished by Hooper, Duval & Co.  
June 3, by H. Best to himself at La Junta, Colo., 100 head of steers driven in by Wm. Fourr and Asa Walker from the Dragon range.  
June 5, by A. J. Nubet to Clay, Robinson & Co., at Denver, 351 head of steers from Eureka Springs ranch.  
June 7, by J. V. Vickers to Chiricahua Cattle Co., at Textline, Texas., 259 head of steers from the company's home range in this valley.  
The next shipment will be by Geo. Prentice to Clay, Robinson & Co. on Thursday, of the N N and Ft. Grant steers.

The Territorial board of equalization was in session at Phoenix Wednesday with all members present. The business transacted was entirely of a routine character.
