Don't You Know

that you can secure almost immediate relief from Indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with Indigestion and the like. It is the inaction of the Liver that causes Indigestion, and that fullness; also Constipation, and those Bilious Headaches. Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unflinching and purely vegetable.

From Rev. M. D. Wharton, Baltimore, Md. "It affords me pleasure to add my testimony to the great virtues of Simmons Liver Regulator. I have had experience with it, on occasion demanded, for many years, and regard it as the best medicine of the times. No good medicine deserves universal commendation."

THE cry of the west for free coinage of silver is growing louder day by day. The time is not far distant when it will reach such magnitude that some attention will be paid to us. We started off like the woman who wanted to stop the car—she swung her parasol vigorously, but to no purpose; a small boy whistled but it had no effect. A dog began to bark at the boy, a man or two yelled and the ticket puncher stopped his car. The old lady got aboard and was temporarily happy. This is the way with the silver agitation. We must get out and utter a concentrated yell once in a while to attract the attention of the east if we wish to ride. One or two men cannot do it. It needs concentration of thought and energy and singleness of aim to accomplish any purpose. When we branch off onto other plans of helping silver we are losing just so much ground. We have argued and fought for free coinage and a change of base at this time is a sign of weakness and will be taken advantage of by our enemies. It is free coinage or nothing. Those who prefer the latter have probably had it all their lives and will continue to have it.

THE present depression in silver mining will turn the attention of our people more to the agricultural possibilities of our country and will result in bringing much of our dormant fertile soil under cultivation. It was not until twenty years after gold was discovered in California that the people awakened to the reality that there was more wealth in the soil of the golden state than there was in her mines. A few of the more naturally endowed sections of our territory have felt the effect of this discovery on the part of the people who learned this fact, and other sections, although a little late will soon fall in line. The west is inhabited by a queer people. Most of us came here to make a stake and get out as soon as we had accomplished the object of our mission. We are still here and have only succeeded in paving the way for those who will come after us and take advantage of the very source of wealth that did not appear to us worthy of our consideration.

No pill or nauseating potion, but a pleasant tonic and laxative is Simmons Liver Regulator.

NEWS BY WIRE.

Great numbers of Mexican parrots are being imported through Laredo for sale at the World's Fair.

One thousand negro men were put on the cars at Birmingham last night and started for Kansas to take the place of the striking miners.

Several attachments were issued last evening against Denver business houses, the principal ones being the Roberts Hardware company and the Livermore Wayne Lumber Co.

The Kansas Bi-metallic convention convened at Topeka yesterday afternoon in representative hall with several hundred delegates in attendance.

There will be no more bank failures in Denver. The panic wore itself out yesterday with the failure of the People's, German and State National banks. This morning when the First, Colorado, Denver, City and American opened their doors there was hardly a dozen customers in all of them at the paying tellers' windows.

Information has been received from Peking to the effect that China has taken measures to support Siam against the French. Siam has for many years paid tribute to China, but only as a matter of usage or convenience, and it is now apparent that China is determined to assist the Siamese against the French encroachments upon their territory.

A conservative estimate of the men discharged by railroads, mines, business houses and factories since the silver panic started places the number at from 12,600 to 15,000. It is also estimated that Colorado, Utah, Montana and New Mexico merchants have countermanded orders on New York wholesale houses for goods during this time amounting to over \$12,000.

The Santa Fe management has just unshrined extensive frauds on that division of the road included between Topeka and Chicago. The frauds, it is said, have resulted in a loss to the road of \$17,000 a month. The conspiracy is far reaching in its ramifications and includes, it is said, various officials, from assistants to the division superintendents, down to the section bosses.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co. printed near the bottom of the package.

The two sides of the face are never alike. A German biologist says that the eyes are out of line with two persons out of five; one eye is stronger than the other in seven out of ten, and the right ear is generally higher than the left.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made, and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex." 25 and 50 cent bottles for sale by druggists.

SHOPPING SUGGESTIONS. ALL the best mattings are now made seamless, not joined at every yard or so, so that they pull apart at this weak point.

A wise shopper avoids the gaudy, elaborate patterns in the new mattings, but rather selects a simple pattern of two or three colors, or a matting in plain white, but of the very best quality.

The heaviest Oriental rugs and the Philadelphia rugs are so thick that a slight flame which may touch them is easily smothered. Such woolen rugs are the only proper ones to put in front of a fire.

If there were no other objection to the fashionable cotton rag, its extreme inflammability would be one. In connection with the hardwood floor, polished with turpentine and beeswax, it presents a veritable tinder-box.

PEOPLE AND EVENTS.

It cost the German emperor \$30,000 to make the trip from Rome to Naples, go up the mountain and get back again to Rome.

SINCE Mr. W. W. Astor settled down in London he has grown rather particular about being called Mr. Waldorf-Astor, with a hyphen.

COL. JOHN S. MOSEY, the famous ex-confederate, is practicing law in San Francisco. He is nearly sixty years old, but stands straight as an arrow, and is full of vigor.

Mrs. Proctor, widow of the late Richard A. Proctor, the famous astronomer, and the principal assistant in his professional work, has been appointed curator of the Proctor observatory at San Diego, Cal.

REYNARD KIPLING's father, J. L. Kipling, best known in England as the author of "Man and Beast in India," has definitely resigned his appointment at Lahore. He has been in indifferent health for some time past, and will probably take up his residence permanently in England.

WITH THE ELECTRICIANS.

OHIO has a law to compel electric roads to protect the motorman with a screen from November 1 to April 1 of each year.

It is said that the Edison Electric Light company of Philadelphia proposes to spend \$5,000,000 in laying conduits and underground conductors.

CAPITALISTS are figuring on connecting Pittsburgh and Cleveland by an electric railroad over country roads in an almost air-line and twenty miles shorter than the most direct steam road.

The electrical weeklies are just now teeming with illustrations of electric effects at the world's fair. According to these, the old nursery stories of fairyland are actually eclipsed by the realities of to-day.

The telephone company of New Haven, Conn., has a railroad bicycle so arranged that two men can place the bicycle on the railroad track and quickly reach any point on the line where their services are needed.

FOR OVER FIFTY YEARS. An old well-tried remedy—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Mrs. Cassman Kimo, the well-known American geologist and explorer, concludes that the earth's age probably does not exceed 24,000,000 years—in fact, that the estimate of the physicists is approximately correct, while that of the geologists is "vaguely vast."—Scientific American.

A FRIEND

Speaks through the Boothby (Mo.) Register, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so highly sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."
