The belief is growing that the Salt-lake has changed our climate.

The practice of carrying firearms in the city limits should be stopped.

The Phoenix Herald and Arizona Republican are funding the territorial indebtedness.

UNCLE SAM might send one of those balloon dynamiters down this way just now without hurting people's feelings.

The free fight indulged in at San Diego by sailors and civilians makes lively reading. The only wonder is that it should not have been made to read as having occurred in Arizona.

JOHN WANNAMAKER is being weighed in the scales.—Deming Headlight.

That accounts for his fishy story about his connection with the Keystone bank.

WHEN the U. S. army begins to defend the Indian policy of the government, it's treading on dangerous ground. It may be she means through of ventilating some of the choicest chains of rascality unpublished and unpaished.

The total valuation of taxable property in Cochise county this year will be up to that of last year and probably exceed it by \$10,000. The valuation of property in Los Angeles county last year fell off about \$400,000.

The report that the Standard Oil Co. had purchased the Southern Pacific is denied by the latter company. Rockefeller says that if they won't sell, he will build a new line across the U. S. just to play with.

ANOTHER scientific exploration of Mexico is about to be made by an American society. If they happen to meet with the Lumholz party we may expect to hear of the battle of the bughunters. Scientists are most jealous of each other and have been known to fight over the possession of horned toad, just as though Arizona was not full of them.

The idea of sending the product of the tin mines of southern California to St. Louis to be manufactured into coffee pots and milk pans, instead of to San Francisco, is about equivalent to Arizona drawing her supplies of produce from Kansas and Missouri. The California people are not a whit smarter than we'rems.

The Star pays the last board of supervisors, H. G. Howe, and the taxpayers who paid for it, the following compliment: "The handsomest and most convenient map in the territory is that of Cochise county, a copy of which may be seen in the office of the county recorder. Our supervisors should follow the example of our neighboring little county and have a map of this county made at once."

The San Pedro river has a watershed 25x28 miles in Sonora Mexico, and in Cochise county a watershed of 25 miles in width by 80 miles in length or a total including Mexico of 25x108 miles or 2,700 square miles of which 2000 square miles are in Cochise county, which waters flow through Cochise county.

The Sweetwater dam in San Diego county holds back enough storage water to irrigate 100,000 acres of land. The projectors of this enterprise sell water to farmers at \$3.50 per acre per year. It is considered one of the most remunerative investments yet made in southern California. Such an enterprise would be even more profitable in Cochise county than in California.

The supervisors of Yavapai have been overhauling the county records and have discovered thousands upon thousands of uncancelled mortgages on record which have not been recorded in the assessment roll. Parties in whose favor these mortgages have been made, will be invited to attend a session of the board and explain why they have not been reported to the assessor. In fact the board has asked for legal advice, to ascertain whether an action for perjury may not hold against parties who have sworn to their assessments where such omission have been made.—Journal Miner.

PARIS—While President Carnot was opening a new avenue today, a madman rushed toward his carriage and fired a pistol at him. The man was arrested. The president was not hurt.

PITTSBURGH—A special from Scranton, Pennsylvania, says: General Master Workman Powderly, of the Knights of Labor, now at his home in this city, has forwarded to Governor Pattison, his declination of his appointment as one of the world's fair commissioners.

CITY OF MEXICO—Advices from Guatemala says: Information has been received from Quetzaltenango to the effect that the mountains are full of discontented men who are organizing for war. Revolutionary proclamations are plenty. The outbreaks so far are unimportant, as the rebels are not united, but a union will be effected. President Barrios is sending troops to Quetzaltenango.

A dispatch from San Jose, Costa Rica says: Reciprocity with the United States is considered necessary and all concessions asked for will be granted. Costa Rica will send a good exhibit to the Chicago fair, as she expects the United States to be the consumer of all her products.

ASPEN—The victims of the railroad accident of Saturday night are: Mr and Mrs. A. B. Rogers of Woody, Col.; Miss Annie Phelan of Cardiff, Col. aged 17 years; Mrs. W. Willoby of Glenwood; Colonel and Mrs. John G. Baldwin of Glenwood Col.; Mrs. F. Ellis and baby of Aspen Colorado. Several more are past recovery.

NEW YORK—A Bar Harbor special to the Tribune says Secretary Blaine had a bad turn Sunday afternoon. It was about two weeks since he had been seriously affected by any of the sudden attacks of his malady, nervous dyspepsia, and almost within half an hour after the first news came from Stanwood, hundreds of people thronged the streets anxiously listening for the latest news. Mr. Blaine's coachman came down the street, but he would not stop, and hurried to the house of Dr. Taylor. The physician went to Stanwood. The weather has been sultry and warm and rumor says that Mr. Blaine had just sat down to a late luncheon when he had an attack. He was helped to his couch and in a short time grew better and talked some. He himself declared, so it is said, that the heat was too much for him, that he had on too much woolen clothing for the rise in temperature. He did not drive yesterday.

BAR HARBOR—The Associated Press correspondent conversed with Secretary Blaine for a few minutes this morning. "I am as well as usual today," he said. "The sensational reports about my health sent to the press all over the country are lies. I am not a sick man. They have magnified a slight illness into something very serious. I am taking no medicine whatever, I go out every day and often twice a day. I have a good appetite and eat whatever I desire. I rise at 8 o'clock and retire at 10 or 11. In short I live in my usual manner. There is nothing more to say.

DENVER, Col.—The trunk of a well developed man with head and four limbs gone, was found yesterday in a

channel of the Platte river, about ten miles below the city and about two miles below the mouth of Clear Creek. It is supposed by many that he was a victim of assassination by highbinders.

KANSAS CITY—A Star special from Omaha, Nebraska, says: The Omaha Base Ball club of the Western Association disbanded this morning. It is said that the owner of the club, Mr. McCormack, has lost \$2,000 already this season, and the citizens of Omaha have refused to guarantee \$4,000, which sum is necessary to complete the season. The players will join the American Association clubs.

TOPEKA—The democratic editors, who have been holding a meeting here, have decided to prepare an address to the people of Kansas and also warn the democrats of the nation against the Farmer's Alliance. A committee was appointed to draft an address and another meeting provided for July 27, at which time the committee will report. In the meanwhile the democratic editors will begin a systematic and determined warfare on the alliance.

LOS ANGELES—United States District Attorney Cole has just returned from a trip to San Diego. Mr. Cole has received advice from Washington stating that the Itata cannot be released on bail and citing him an authority.

SAN DIEGO—The only new feature which developed in the Itata affair today, was the service this afternoon of new papers by Marshal Gard by which formal seizure is made of the cargo of the Itata. The document specifies that he shall take possession of 2,000 cases of rifle ammunition, including 2,000,000 rounds of cartridges, 250 cases of rifles and 5,000 bayonets in cases. The writ is made returnable Aug. 10. The Charleston, Itata and Democrats were all visited by enormous crowds of people yesterday. The Itata will now receive visitors between 10 a. m. and 5 p. m.

LOS ANGELES—The desert lake is still perceptibly rising. This is the advice received at the Southern Pacific headquarters today. No reports have been received from any of the explorers. Grave fears are entertained for Harry Patton, who started down the Colorado in a boat to find the break and float through it down to Salton. Many persons believe he will not return. The water at the highest point near the mill is now about two feet and a half. The river is falling.

CHICAGO—Wm. A. Forsyth of California, member of the National World Fair Commission, was rejected by the Board of Reference as a candidate for Chief of the Horticultural department. Ten minutes after Forsyth heard the news and before it gained general circulation at headquarters, he announced that he withdrew his name for the position and would not take it under any circumstances.

On August 6th, First Lieut. Charles L. Collins, inspector of small arms and practice of the Department of Arizona will open the annual infantry competition at Fort Bayard. The contest will continue seven days, three days of which will be devoted to preliminary shooting, getting the men in practice, two days shooting at known distances and two days skirmish firing. The men competing will be the crack men of all companies. Each company sends its best man and each regiment may send two officers to be listed in the competition, if the officers desire to go; it is not obligatory upon them however, and it is upon the men.

In Memoriam.
To the officers and members of Cocheis Lodge No 5 I. O. O. F.:
Sirs and Brothers:—We, your committee, appointed to draft resolutions in respect to the memory of Brother William Waters, beg leave to submit the following:

Whereas our portals have again been entered; the silent reaper has taken our brother, William Waters to rest in the Great Beyond.

Therefore resolved: while we mourn the loss of our brother, we point with pride to the many noble traits of character he possessed, yet we bow submissive to the inevitable.

Resolved that our heartfelt sympathy go out and extend to the widow our brother has left to mourn.

Resolved: that the emblems of mourning be erected in our Lodge in memory of our departed brother; that a copy of these resolutions be spread upon the records of our Lodge; that a copy be sent to the bereaved widow; also a copy for publication in our city papers and to the I. O. O. F. New Age at San Francisco.

W. D. MONMONIER
T. MELLEDY
A. W. SMITH
Committee.

Dated Tombstone July 7, 1891.

I. O. O. F.

The following are the names of the officers installed last evening in Cocheis Lodge No 5, by D. Cohn, G. M.:
T Melledy, N. G.; C. Holt, V. G.; W. D. Monmonier, R. S.; W. F. Bradley, T.; W. C. Davis, W.; A. H. Emanuel, C.; D. Cohn, R. S. N. G.; W. C. John, L. S. N. G.; A. W. Smith, R. S. N. G.; M. Foley, I. G.

Mr. Grady.

Mr. John Grady, a popular tonsorial artist of Tombstone, arrived in Nogales last Tuesday. He is so favorably impressed with the prospects of Nogales that he has concluded to open a shop here.—Record

For Cattle Men.

Collector Christ writes to a friend in Nogales and the latter furnishes the Nogales Record with this interesting information concerning the trouble with claiming stray stock in Mexico. "Acting Secretary of State Wharton says there has been frequent correspondence between the Department and the authorities at the City of Mexico, but that no understanding has been arrived at. He promised that a letter should be written at once to Minister Ryan and urge that the matter be speedily adjusted."

Count Montaignac.

The Count, who resided in Tombstone for several months, making it his headquarters, is now in France. The Nogales Record furnishes the information that he has perfected arrangements to establish two colonies of one hundred families each, of French agriculturists, in Sonora, one near Fronteras and the other at Cacita. Fronteras is about 90 miles south-east of Nogales, and Cacita is some 35 miles south of Nogales on the line of the Sonora railroad. The purchase of the Cacita and Cibuta ranches, owned by Don Jose Pierson, is now pending, the price and all arrangements having been agreed upon and settled. The Cibuta grant is one of the finest locations, for a small colony in the state; plenty of water and very rich soil.

Sonora Coal Mines.

L B Howard of San Diego who recently visited the coal fields near Guaymas, says that the main operations now being carried on are some forty miles from Ortiz, a town on the Sonora railway between Hermosillo and Guaymas.

The concession, which is owned by a Mexican company, covers about 4,000,000 acres. The enormous extent of the anthracite deposit may be comprehended when it is said that borings fifty miles apart have found coal. The diamond drill has gone through four veins; the first being 2 feet, the second 4 feet, the third 7 1/2 feet and the fourth the drill had penetrated 22 feet and is still working in coal. The coal is by actual test equal to the finest Lehigh valley product of anthracite. It can be traced for miles on the surface, and the different borings of the drill show the same four veins of the same thickness.

A railway sixty or sixty-five miles will bring the coal to the harbor at Guaymas, and the entire distance is very smooth, offering no engineering obstacles.

There is a rumor that S. C. Heaton, of the San Xavier Hotel, Tucson, won \$2,000 at roulette Monday evening.

Fatal Flames.
Richard, son of Thos. and Jane Harris, died in his mother's arms last night while being brought to Tombstone from Turquoise. The little fellow was playing with a bunch of matches on Tuesday last and set fire to his clothes but before being burned was caught by his parents and saved from a horrible death. While the parents were congratulating themselves upon their good fortune in saving their little one, the grim messenger was slowly and imperceptibly doing its work. The little fellow complained yesterday of not feeling well and the parents started in the cool of the evening for Tombstone with him. When near the old San Diego smelter, the child breathed his last. The fatal flames had done their work without a warning. Although he had escaped disfigurement of his body he had inhaled the deadly air. The distracted parents received all the condolence that sympathetic friends could offer in their unhappy hours. The funeral took place this afternoon and was attended by a large concourse of friends and acquaintances of the family.

Mosquitos.

As mosquitos are getting troublesome the following method of ridding a room of these pests may be of use: Take a piece of gum camphor, in size about the third of a hen's egg, and slowly evaporate it by holding it in a shovel or tin vessel over a lamp, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitos, and it is said they will not return, even though the windows should be left open all night.
