

asleep. As the train came by they raised up; one was instantly killed, the other was knocked senseless and received some very ugly cuts about the head. The train stopped and picked them up and brought them to Holbrook. The injured man was taken to Winslow for medical treatment. He regained consciousness once, and then for only a moment, while here.

COFFEE

Coffee is exquisite or abominable; but the stronger words are good-enough.

Alfalfa History.

Alfalfa has been cultivated since the dawn of ancient civilization. It was familiar to the Egyptians, Persians, about as palatable to the dairy cow as the finest Kentucky bluegrass. The ideal way to feed alfalfa is in hay. Alfalfa has been sown successfully in every month from March to September. Too much rain is detrimental to the young plant; it needs moisture, but will not stand "immersion" as it came from a land where they "sprinkle." Alfalfa for hay, and bromus for pasture would make this the ideal farming country, and these two forage plants have been tried sufficiently to determine their adaptability to this soil and our climatic condition.—Ex.

Only Makes a Bad Matter Worse.

Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by St. Johns Drug Co.
