COPPER - IS - KING

The South Bisbee Copper Mining and Townsite Improvement Co. CAPITAL STOCK - \$5,000,000 Non-Assessable and Carrying no Personal Liability to the Holder

The group of mines recently purchased by the "South Bisbee Copper Mining and Townsite Improvement Company" are situated on the southwest side of this copper basin, and extend from the top of the mountains on the west to the center of the basin on the east.

Every dollar of the proceeds from the sale of shares of stock and from the sale of the company's town lots and blocks, which we estimate will be a large sum, will be invested in sinking shafts, development work, the erection of hoisting works and modern smelters, and all necessary improvements, to make this enterprise successful in every way.
